## Application to amend a clearing permit

*Environmental Protection Act 1986, section 51KA*

### FORM C4

The clearing of native vegetation is prohibited in Western Australia unless a clearing permit has been granted for the clearing or where a permit is not required (either due to a referral determination that one is not needed or because an exemption applies). A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), see the [Procedure: Native vegetation clearing permits](#) on DWER's website.

PHCC was then told that these project areas could not be included in the application due to crown land licences not yet being granted. (Note that crown land enquiry forms had already been submitted to DPLH at the time and took nearly two years to recently result in Section 91 licences.) Now that crown land licences have been received for the Williams and Quindanning project sites, they once again need to be included in the purpose permit for removal of invasive Typha sp. for ongoing environmental restoration.</p>
	<p>For an application to amend the size of the area permitted to be cleared, or add a land parcel to the clearing permit, you must have the authority of the landowner to access the land and undertake the clearing.</p> <p>State the nature of the applicant's authority to access the land to be cleared. Evidence of authority can include e.g. a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give legal land access permission. <i>[Attach evidence of authority. Note that a letter of authority must explicitly state the applicant has authority to clear on the land.]</i></p> <p>Crown land licences and MoUs with landholders attached.</p>
	<p>Provide additional property details if required – if applying to extend the size of the area to be cleared into another land parcel.</p> <p>Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number, or mining tenement number of all properties.</p> <p>See attached.</p>
	<p>You must provide evidence that avoidance and mitigation options have been pursued to eliminate, reduce or otherwise mitigate the need for, and scale of, the proposed clearing of native vegetation.</p> <p>Have alternatives that would avoid or minimise the need for clearing been considered and applied? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, provide details:</p> <p>The only vegetation that will be removed is invasive Typha sp. This is for the purpose of environmental restoration, through ongoing revegetation and weed control.</p>
	<p>Refer to DWER's <a href="#">Clearing of native vegetation offsets procedure guideline</a> available on the DWER website, and the EPA's <a href="#">WA Environmental Offsets Policy and Guidelines</a> on the EPA website for further information.</p> <p>Do you want to submit a clearing permit offset proposal with your application? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure guideline</i>.</p>
