

CLEARING PERMIT

Granted under section 51E of the Environmental Protection Act 1986

PERMIT DETAILS

Purpose Permit Number: 1018 / 1
File Number: A0316/200601
Duration of Permit: From 2 September 2010 to 30 September 2015

PERMIT HOLDER

BHP Billiton Iron Ore Pty Ltd

LAND ON WHICH CLEARING IS TO BE DONE

Iron Ore (Mount Newman) Agreement Act 1964, Mineral Lease 244 SA (AML 70/244);
Miscellaneous Licence 47/92;

General Purpose Leases: G52/37, G52/38, G52/56, G52/57, G52/58, G52/70, G52/71, G52/72, G52/73, G52/77, G52/78, G52/90, G52/91, G52/92, G52/93, G52/94, G52/95, G52/97, G52/98, G52/110, G52/111, G52/112, G52/113, G52/114, G52/125, G52/126, G52/127, G52/128, G52/129, G52/130, G52/146, G52/153, G52/154, G52/161, G52/162, G52/168, G52/169, G52/170, G52/176, G52/177, G52/178, G52/184, G52/185, G52/186, G52/191, G52/192, G52/193, G52/199, G52/200, G52/201, G52/206, G52/207, G52/208, G52/214, G52/215, G52/216, G52/217, G52/222, G52/223, G52/224, G52/225, G52/226, G52/231, G52/232, G52/233, G52/234, G52/235, G52/236, G52/237, G52/238, G52/239, G52/240, G52/259, G52/262, G52/276, G52/277, G52/279.

PURPOSE FOR WHICH THE CLEARING MAY BE DONE

1. Clearing for the purposes of general mining activities including (but not limited to) access roads, overburden storage areas, topsoil stockpiles, and increasing the capacity of the existing tailings storage facility.

CONDITIONS

Type of clearing authorised

1. The Permit Holder must not clear more than 1200.95 hectares of native vegetation. All clearing must be within the area cross-hatched yellow on attached Plan 1018/1.
2. The Permit Holder shall not clear native vegetation unless the purpose for which the clearing is authorised is enacted within 6 months of the authorised clearing being undertaken.

Avoid, minimise etc clearing

3. In determining the amount of native vegetation to be cleared authorised under this Permit, the Permit Holder must have regard to the following principles, set out in order of preference:
 - (a) avoid the clearing of native vegetation;
 - (b) minimise the amount of native vegetation to be cleared; and
 - (c) reduce the impact of clearing on any environmental value.

Retain and spread vegetative material and topsoil

4. The Permit Holder shall:
 - (a) retain the vegetative material and topsoil removed by clearing authorised under this Permit and stockpile the vegetative material and topsoil within the area cross-hatched yellow on attached Plan 1018/1.

- (b) within 24 months following completion of clearing authorised under this permit, revegetate and rehabilitate the areas that are no longer required for the purpose for which they were cleared under this Permit by:
 - (i) re-shaping the surface of the land so that it is consistent with the surrounding 5 metres of uncleared land; and
 - (ii) laying the vegetative material and topsoil retained under Condition 4(a).
- (c) within 4 years of undertaking *revegetation* and *rehabilitation* in accordance with Condition 4(b) of this Permit:
 - (i) engage an *environmental specialist* to determine the species composition, structure and density of the area *revegetated* and *rehabilitated*; and
 - (ii) where, in the opinion of an *environmental specialist*, the composition structure and density determined under Condition 4(c)(i) of this Permit will not result in a similar species composition, structure and density to that of pre-clearing vegetation types in that area, *revegetate* the area by deliberately *planting* and/or *direct seeding* native vegetation that will result in a similar species composition, structure and density of native vegetation to pre-clearing vegetation types in that area and ensuring only *local provenance* seeds and propagating material are used.

Records to be kept

5. The Permit Holder must maintain the following records for activities done pursuant to this Permit:

- (a) In relation to the clearing of native vegetation authorised under this Permit:
 - (i) the location where the clearing occurred, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings;
 - (ii) the date that the area was cleared;
 - (iii) the size of the area cleared (in hectares); and
 - (iv) purpose for which clearing was undertaken.
- (b) In relation to the *revegetation* and *rehabilitation* of areas pursuant to Condition 4 of this Permit:
 - (i) the location of any areas *revegetated* and *rehabilitated*, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings;
 - (ii) a description of the *revegetation* and *rehabilitation* activities undertaken;
 - (iii) the size of the area *revegetated* and *rehabilitated* (in hectares); and
 - (iv) the species composition, structure and density of *revegetation* and *rehabilitation*.

Reporting

6. (a) The Permit Holder shall provide a report to the Director, Environment Division, Department of Mines and Petroleum by 1 September each year for the life of this permit, demonstrating adherence to all conditions of this permit, and setting out the records required under Condition 5 of this permit in relation to clearing carried out between 1 July and 30 June of the previous financial year.

(b) Prior to 30 September 2015, the Permit Holder must provide to the Director, Environment Division, Department of Mines and Petroleum a written report of records required under Condition 5 of this Permit where these records have not already been provided under Condition 6(a) of this Permit.

Definitions

The following meanings are given to terms used in this Permit:

direct seeding means a method of re-establishing vegetation through the establishment of a seed bed and the introduction of seeds of the desired plant species;

environmental specialist means a person who is engaged by the Permit Holder for the purpose of providing environmental advice, who holds a tertiary qualification in environmental science or

equivalent, and has experience relevant to the type of environmental advice that an environmental specialist is required to provide under this Permit;

local provenance means native vegetation seeds and propagating material from natural sources within 50 kilometres of the area cleared;

planting means the re-establishment of vegetation by creating favourable soil conditions and planting seedlings of the desired species;

regenerate/ed/ion means *revegetation* that can be established from in situ seed banks contained either within the topsoil or seed-bearing mulch;

rehabilitate/ed/ion means actively managing an area containing native vegetation in order to improve the ecological function of that area;

revegetate/ed/ion means the re-establishment of a cover of *local provenance* native vegetation in an area using methods such as *regeneration*, *direct seeding* and/or *planting*, so that the species composition, structure and density is similar to pre-clearing vegetation types in that area.
