

Department of Water and Environmental Regulation Department of Mines, Industry Regulation and Safety

# Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

# Part 1 – Form type

Select your form type.	$\Box$ Referral of proposed clearing (s.51DA of the EP Act)
NOTE: Where appropriate in this form, and unless stated	$\Box$ Application for an area permit (s.51E of the EP Act)
otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	☑ Application for a purpose permit (s.51E of the EP Act)

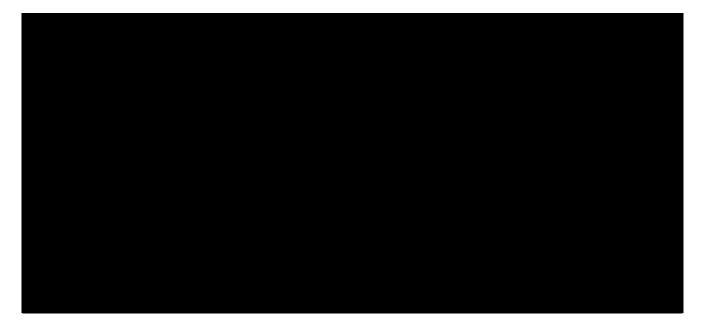

# Part 2 – Applicant details

## 2.1 Applicant name

For area	□ Applying as an individual – complete the following:			
permits: If granted, the	Title	□ Mr □ Mrs □ Ms	□ Other:	
name(s) of (all) landowner(s) will be listed as	Name(s)			
'permit holders' on the permit.	Applying as a following:	as a body corporate or other entity formed at law – complete the		
For purpose	Name	Enmic Pty Ltd		
permits: If granted, the	Australian Company Number (ACN) 066 882 291		066 882 291	
name(s) of (all) applicant(s) will go on the	□ Applying as a government entity (e.g. government department, local government authority, or other statutory body)			
permit.	Name			

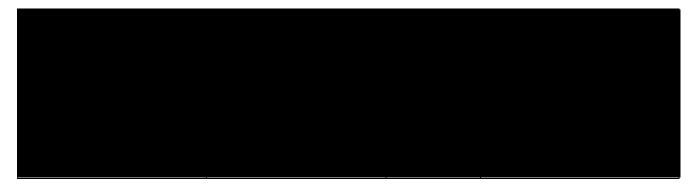

# 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

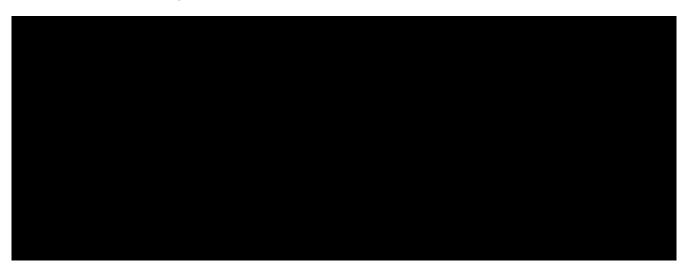

# 2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

# 2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

## 2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	⊠ Yes	□ No
---	-------	------

## 2.5 Contact details for enquiries

Г

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details	⊠ Yes	⊠ No
-------------------------------------	-------	------

If 'No' - complete the following:

# Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

#### 3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	□ Yes – skip to Part 4 ⊠	⊠ No
---	--------------------------	------

T

## If 'No' – complete the following:

Land description			
Provide the following details, as applicable, for all properties:	M 70/1302 located on Reserve 30656, Caves Road Boranup		
<ul> <li>volume and folio number</li> <li>lot or location number(s)</li> <li>crown lease or reserve number</li> <li>pastoral lease number</li> <li>mining tenement number</li> </ul>			56, Caves Road
Street address – Line 1			
Street address – Line 2			
Suburb	Boranup		
State		Postcode	
Local government area(s)	Shire of Augusta – Margaret River		
Land zoning	Reserve, vested in r Margaret River.	mining to the Sh	ire of Augusta

# Part 4 - Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

#### Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
□ I am the landowner	□ Attach proof of ownership
☑ I am lodging a form on behalf of the landowner (e.g. a consultant)	⊠ Attach proof of ownership
□ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	<ul> <li>Attach proof of ownership</li> <li>Complete and attach an 'Acting on behalf and jointly responsible' letter</li> </ul>
□ I am likely to become the landowner	<ul> <li>Attach the Certificate of Title</li> <li>Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')</li> </ul>
□ I will undertake the clearing activities with the landowner's authority and will be the permit holder	<ul> <li>Attach proof of ownership</li> <li>Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)</li> </ul>
□ A person with multiple land parcels	<ul> <li>Attach proof of ownership</li> <li>Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)</li> </ul>

# Part 5 – Proposed clearing

#### 5.1 Maps and/or spatial data

Select which map	An ESRI shapefile with the following properties (preferred)
type(s) you will attach with your form.	Geometry type: polygon shape
Note: We will decline / return forms (as	<ul> <li>Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude / longitude)</li> </ul>
applicable) if you do	Datum: GDA 2020
not provide sufficient information for this question.	$\boxtimes$ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area
	Note:
	<ul> <li>An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj</li> </ul>
	• You must provide an ESRI shapefile if the form requires an assessment under an <i>Environment Protection and Biodiversity Conservation Act 1999</i> (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

#### 5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).

Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.

- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for purpose permit applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m <sup>2</sup>	Area of circle = $3.14 \text{ x}$ radius <sup>2</sup>
1 acre = 0.4 hectares / $4,000 \text{ m}^2$	Area of a rectangle = length $x$ width
1 tree = 0.01 hectares / 100 $m^2$	Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	25.62 hectares
Footprint of clearing (hectares) (purpose permit only)	25.62 hectares
Number of individual trees to be removed	

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

## 5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	Continued extraction of limesand for mitigating soil acidity on broad acre rural land and viticulture and for neutralisation of acid sulfate conditions. See Mining Proposal and Mine Closure Plan REG ID 118177.
Specify what the final land use will be after clearing	Return to local native vegetation

## 5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical clearing, retention of vegetation and topsoil for use in revegetation.
---	---

#### 5.5 Timeframe

, I I	Start date: November 2023	
(e.g. 1/7/2022 to 30/8/2024)	End date: October 2033	

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

## 5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and mitigation details	The area for clearing contains a limesand resource that is recognized by Reserve 30656 vested in the Shire of Augusta– Margaret River for the purpose of limesand mining. The site is also recognized as partly being covered by State Planning Policy 2.4 and a Geological Significant Basic Raw Material and adjoining a Mining Act 1978 Section 19 Area for the retention and staged use of limesand for agriculture
	limesand for agriculture.

In the 1970's almost the whole area was a bare limesand dune as shown by Figure 2 of the Mining Proposal and has since been colonized by local coastal heathland vegetation.
The pit was commenced on the bare limesand dune in the north east with the resource heading west which is the area applied for. This application is an extension of an existing limesand operation that supplies local and regional agricultural lime to prevent soil acidification.
The thickest limesand resource is chosen by the application as this provides a greater total of limesand per area cleared, rather than clearing larger areas where the limesand is more shallow to achieve the same volume of resource. That minimizes the clearing footprint.
The least significant and weakest areas of vegetation have been selected for mining and therefore clearing with only the apple anticipated to be required within 10 plus years applied for. The area incorporates the cleared area of CPS 5804/1.
Progressive closure and revegetation are to follow mining; as new land is opened, excavated land will be closed.
Enmic and its associated companies Lime Industries and Lime Nominees have a good track record with revegetation excavated and closed limesand pits in particular at Lancelin in similar coastal vegetation as described in Section 5.2 of the Mine Closure Plan and Figures 13, 14, 15, a7 and 17 of that Closure Plan.

# Part 6 – Offset

Do you want to submit a clearing offset proposal with your form? For more information on environmental offsets, refer to <u>DWER's website</u> and <u>Fact Sheet 11: Environmental offsets</u> for native vegetation clearing permits.	□ Yes ⊠ No
If 'Yes' – please complete and attach Appendix A of the <u><i>Clearing of native vegetation offsets procedure</i></u> guideline as a supporting document for your form.	□ Appendix A attached

# Part 7 – Surveys for assessments (IBSA and IMSA)

Do you want to submit marine or biodiversity surveys in	⊠ Yes □ No – skip to Part 8	
support of your form?		

# 7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) <u>Instructions for the preparation of data packages for</u> <u>the Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do not meet the IBSA

requirements, DWER/DMIRS (as applicable) may decline/return your form. For further information on IBSA, refer to <u>DWER's website</u>.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER / DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the IBSA portal, via <u>ibsasubmissions.dwer.wa.gov.au</u> ?	<ul><li>Yes</li><li>Not applicable</li></ul>
Provide an IBSA number (preferred) or a submission number(s)	IBSA-2023-0433

#### 7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments* (IMSA). If you do not meet the IMSA requirements, DWER may decline / return your form. For more information on IMSA, refer to <u>DWER's website</u>.

Have you prepared all the marine surveys that support this form in	□ Yes
accordance with the EPA's Instructions for the preparation of data	
packages for the Index of Marine Surveys for Assessments?	$\boxtimes$ Not applicable
