

# Department of Water and Environmental Regulation Department of Mines, Industry Regulation and Safety

# Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

☐ Referral of proposed clearing (s.51DA of the EP Act)

☐ Application for an area permit (s.51E of the EP Act)

□ Application for a purpose permit (s.51E of the EP Act)

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

# Part 1 – Form type

Select your form type.

form, and unless stated

and 'applicant' also mean 'referral' and 'referrer'

respectively.

NOTE: Where appropriate in this

otherwise, the terms 'application'

Part 2 – Applicant details						
2.1 Applicant n	2.1 Applicant name					
For area permits:						
If granted, the name(s) of (all)	Title	☐ Mr ☐ Mrs ☐ Ms ☐ Other:				
landowner(s) will be listed as	Name(s)					
'permit holders' on the permit.	□ Applying as a body corporate or other entity formed at law – complete the following:					
For purpose permits:	Mobile Concreting Solutions Pty Ltd					
If granted, the name(s) of (all)	Australian Com	pany Number (ACN) 130 398 266				
applicant(s) will go on the permit.	☐ Applying as a government entity (e.g. government department, local government authority, or other statutory body)					
	Name					

## 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

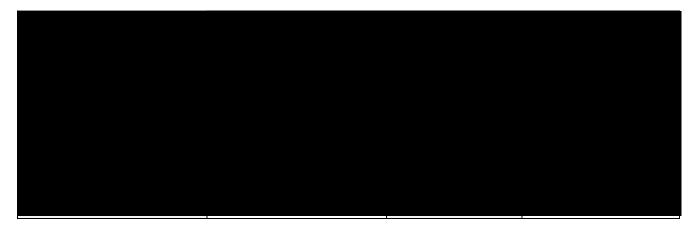

# 2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

# 2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

#### 2.4 Electronic correspondence consent

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	⊠ Yes	□ No
---	-------	------

#### 2.5 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details	⊠ Yes	□No

If 'No' – complete the following:

# Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

#### 3.1 Property details

Land zoning

I have a large number of properties and have relevant details in an attached supporting doc	☐ Yes – skip	to Part 4	⊠ No	
If 'No' – complete the following:				
<ul> <li>Land description</li> <li>Provide the following details, as applicable, for all properties:</li> <li>volume and folio number</li> <li>lot or location number(s)</li> </ul>	Mining Lease 45/1232			
<ul> <li>crown lease or reserve number</li> <li>pastoral lease number</li> <li>mining tenement number</li> </ul>				
Street address – Line 1	Indee Road			
Street address – Line 2				
Suburb	Indee			
State	WA	Postcode	6721	
Local government area(s)	Town of Port Hedland			

# Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

### Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following		
☐ I am the landowner	☐ Attach proof of ownership		
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership		
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Complete and attach an 'Acting on behalf and jointly responsible' letter		
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')		
☑ I will undertake the clearing activities with the landowner's authority and will be the permit holder	<ul> <li>         □ Attach proof of ownership         □ Complete and attach an 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)     </li> </ul>		
☐ A person with multiple land parcels	☐ Attach proof of ownership ☐ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)		

# Part 5 - Proposed clearing

#### 5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

☐ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude / longitude)
- Datum: GDA 2020

☑ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

#### Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

#### 5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
  - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for purpose permit applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare =  $10,000 \text{ m}^2$  Area of circle =  $3.14 \text{ x radius}^2$ 1 acre = 0.4 hectares /  $4,000 \text{ m}^2$  Area of a rectangle = length x width 1 tree = 0.01 hectares /  $100 \text{ m}^2$  Area of a triangle =  $\frac{1}{2}$  length x perpendicular height

Total area of clearing proposed (hectares)	102.00	
Footprint of clearing (hectares) (purpose permit only)	102.00	
Number of individual trees to be removed	native vegetation less than 2 metres in height, measured from the base of the vegetation	

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

#### 5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	Clearing for the purpose of mineral production and associated activities.		
Specify what the final land use will be after clearing	The final landforms will consist of naturally restored riverbed and revegetated laydown working area and roads.		

#### 5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical removal
mechanical clearing/bulldozing or other – specify)	

#### 5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Start date: 01/03/2024
	End date: 01/03/2034

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

#### 5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and	Only a very small amount of riparian vegetation will be cleared within the amended permit area.
mitigation details	MCS proposes to mine sand in the Turner River in approximately 2.5 hectare extraction campaigns during dry periods.
	Where the river channel is dry, excavation will not occur within 0.5m above the

	level of the water table at the time of mining. If the river is not completely dry, excavation will occur observing a minimum width buffer of five meters on either side of the excavation area.			
	Clearing will be conducted on a staged manner to manage impacts from erosion and associated mining activities.			
	A total of four permanent photographic monitoring points have been set up from the middle of the river bed in 500 meters intervals, South to North or Upstream to Downstream to capture changes in the river and surrounding environment throughout the life of the mine.

form? For more <a href="DWER's website">DWER's website</a>	submit a clearing offset proposal with your information on environmental offsets, refer to a and <i>Fact Sheet 11: Environmental offsets</i> ation clearing permits.	□ Y	es ⊠ No	
If 'Yes' – please complete and attach Appendix A of the <a href="#">Clearing of native vegetation offsets procedure</a> guideline as a supporting document for your form.			ppendix A attached	
Part 7 – Surveys for assessments (IBSA and IMSA)				
Do you want to s support of your f	submit marine or biodiversity surveys in orm?	□ Y	es ⊠ No – skip to Part 8	
7.1 Biodiversity	survevs			
If you want to sub Environmental Pr the Index of Bioda requirements, DV	omit any biodiversity surveys to support this form of the positive surveys for Assessments (IBSA). If you VER/DMIRS (as applicable) may decline/return SA, refer to <a href="https://dww.dwenzes.com/DWER/swebsite">DWER/swebsite</a> .	repara do no	ation of data packages for ot meet the IBSA	
Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER / DMIRS (as applicable). Please note DWER / DMIRS will suspend the assessment timeframes for your form until you provide the IBSA number(s).		s not confirmation that a A number. IBSA numbers ber is issued, please Ill suspend the		
_	tted all the biodiversity surveys that support this portal, via ibsasubmissions.dwer.wa.gov.au?	6	<ul><li>☐ Yes</li><li>☐ Not applicable</li></ul>	
Provide an IBSA	number (preferred) or a submission number(s	)		

#### 7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments* (IMSA). If you do not meet the IMSA requirements, DWER may decline / return your form. For more information on IMSA, refer to <u>DWER's website</u>.

Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments</i> ?	<ul><li>☐ Yes</li><li>☐ Not applicable</li></ul>
