5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, “clearing of 5 hectares”.
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, “clearing of 10 trees”. If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m ²	Area of circle = 3.14 x radius ²
1 acre = 0.4 hectares/4,000 m ²	Area of a rectangle = length x width
1 tree = 0.01 hectares/100 m ²	Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	1 Hectare
Footprint of clearing (hectares) (purpose permit only)	1 Hectare
Number of individual trees to be cleared	

Note: Calculate the area of a tree based on the area encompassed by the tree’s drip line; that being the outermost circumference of the tree’s canopy.

5.3 Purpose

<p>Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).</p> <p>If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).</p>	<p>Lot 389 Mitchell Avenue, Waroona is a reserve under management order for the purpose of a cemetery known as the Drakesbrook Cemetery, as outlined in the certificate of title.</p> <p>Currently the site is reaching capacity especially within the Catholic section. An expansion plan was developed which would accommodate an additional 804 new sites, facilities, and carpark. The site is heavily vegetated with native flora, therefore the Shire raised the need for a full flora and fauna survey.</p> <p>In financial year 2022/23 the Shire set aside funds to outsource a flora and fauna survey. The results of this survey provide a better insight into the native vegetation onsite as well as the impact of noxious weeds. Following the report the Shire opted to not proceed with the development plan and instead decided to look at alternative options which would still achieve the best possible outcome for the Waroona community and Shire. These options consisted of the following;</p> <ol style="list-style-type: none">1. Investigate and look at alternative sites for a new cemetery.2. Investigate and look at acquiring land that adjoins to the current site to expand.3. Investigate the option of reducing the clearing impact to expand onsite. <p>All options have been investigated and given the limited funds and suitable land options the Shire decided to proceed with expanding onsite and reduce the clearing impact by removing of vegetation (ground cover/ shrubs) within the established trees within areas mapped as completely degraded and degraded under Figure 15 of the Detailed and Targeted Flora and Vegetation Survey (Section 10 of the clearing index). This will allow the Shire to design plots within the tree coverage and create a picturesque vision to the cemetery which embraces the native vegetation and flora which is unique to this site.</p> <p>To clarify no established trees including banksias or grass trees will be cleared. The application is for clearing of ground cover and native shrubs.</p>

Specify what the final land use will be after clearing	Cemetery expansion

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical Clearing being Ground cover mulching using a possi track.
--	--

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Start date: 1/07/2024 End date: 31/12/2024
--	---

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt [Interim Biogeographic Regionalisation for Australia](#) (IBRA) bioregions has been extensive.

DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

Do you propose to clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt bioregions?	<input checked="" type="checkbox"/> Yes – complete section below	
	<input type="checkbox"/> I have had a pre-application meeting with DWER/DEMIRS	
	Insert date of meeting and officer name(s):	
	<input type="checkbox"/> I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.	
	Insert date of conversation and officer name(s):	
<input checked="" type="checkbox"/> I have not had a pre-application meeting with DWER/DEMIRS. I understand that this may increase the likelihood of requests for further information and/or delays in assessment.		
<input type="checkbox"/> No – proceed to next question.		

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing – e.g. engineering solutions – did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)	Following the development of the cemetery development plan officers reviewed the vegetation onsite and obtained a Detailed and Targeted Flora and Fauna survey. This assisted with the proposal of reducing the clearing impact to ground cover and shrubs, which will leave the mature native vegetation onsite which is beneficial to a number of native fauna.
Provide the mitigation details (e.g. management of weed spread, rehabilitation)	In addition to the above by clearing of the ground cover which does consist of a large volume of dead debris (sticks and leaves), the Shire will be reducing the fire hazard and will be able to mitigate the weeds within the site. In addition to that the Shire will be able to expand the cemetery by adding additional plots within the larger trees creating a natural cemetery which embraces the site and surrounds.

6.2 Offsets

Do you want to submit a clearing offset proposal with your form?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If 'Yes' – please complete and attach Appendix A of the Clearing of native vegetation offsets procedure guideline as a supporting document for your form.	<input type="checkbox"/> Appendix A attached

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) [Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments](#) (IBSA). If you do not meet the IBSA requirements, DWER/DEMIRS will decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DEMIRS. Please note DWER/DEMIRS will suspend the assessment timeframes for your application until you provide the IBSA number(s).

Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a ‘**controlled action**’ before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER’s [guidance on the assessment bilateral agreement](#).

Part 9 – Other approvals

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DEMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.
