

Department of Energy, Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type. Note: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	 □ Referral of proposed clearing (section 51DA of the EP Act) □ Application for an area permit (section 51E of the EP Act) ☑ Application for a purpose permit (section 51E of the EP Act) 	
Which department are you submitting this form to? If the clearing is for mineral and petroleum activities authorised under the <i>Mining Act 1978</i> , the various petroleum Acts, and/or a State Agreement with areas covered by either mineral or petroleum tenure granted under one of the abovementioned Acts, select 'Department of Energy, Mines, Industry Regulation and Safety'. For all other clearing activities, select 'Department of Water and Environmental Regulation'.		 □ Department of Energy, Mines, Industry Regulation and Safety ☑ Department of Water and Environmental Regulation

Part 2 – Applicant details

2.1 Applicant name

For area permits:	□ Applying as an individual – complete the following:		
If granted, the	Title	☐ Mr ☐ Mrs ☐ Ms ☐ Other:	
name(s) of (all) landowner(s) will be listed as	Name(s)		
'permit holders' on the permit.	☐ Applying as a following:	a body corporate or other entity formed at law – complete the	
For purpose permits:	Name		
If granted, the name(s) of (all) applicant(s) will	Australian Con	npany Number (ACN)	
go on the permit.		a government entity (e.g. government department, local hority, or other statutory body)	
	Name	City of Gosnells	

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	
First name	
Last name	
Position	
Company name	
Phone number	
Email address	

2.3 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1	
Address line 2	

Suburb	
State	

2.4 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

Address line 1	
Address line 2	
Suburb	
State	
Phone number	

2.5 Electronic correspondence consent

DWER/DEMIRS prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DEMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.

2.6 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER/DEMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details

If 'No' – complete the following:

Title	
Contact name	
Position (if applicable)	
Company name (if applicable)	
Phone number	

Email address		
Business or postal address line 1		
Business or postal address line 2		
Suburb		
State		

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	□ Yes – skip to Part 4	⊠ No
---	------------------------	------

If 'No' – complete the following:

Land description	Volume / Folio – 16	99/919	
Provide the following details, as applicable, for all properties:	Lot 105 Tarling Plac	e	
 volume and folio number lot or location number(s) crown lease or reserve number pastoral lease number mining tenement number 	Volume / Folio – LR Lot 3874 Kirin Way Reserve No: 41566	3096/723	
Street address – Line 1		o+ 297/ Virin W	lov
Street address – Line 1	45 Tarling Place & Lot 3874 Kirin Way		
Street address – Line 2			
Suburb	Maddington		
State	WA	Postcode	6109
Local government area(s)	Maddington, Gosnells		
Land zoning	Lot 105 Tarling Plac	e - Residential	

	Lot 3874 Kirin way - Recreation

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- · a certificate of title
- · a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
⊠ I am the landowner	
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☐ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the <i>Energy Operators (Powers) Act 1979</i>)	□ Provide relevant legislative details:

Part 5 - Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: DWER/DEMIRS will decline/return forms (as applicable) if you do not provide sufficient information for this question.

☑ An ESRI shapefile with the following properties (preferred)

- · Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude)
- Datum: GDA 2020

☑ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants may be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the
 hectare value for the total size of the area to be cleared (mark number of trees as zero)
 and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare
 footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = 0.4 hectares/4,000 m² Area of a rectangle = length x width

1 tree = 0.01 hectares/100 m² Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	0.48 hectares of clearing within a 2.07 hectare footprint
Footprint of clearing (hectares) (purpose permit only)	
Number of individual trees to be cleared	0

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing The area to be cleared is an overgrown and (e.g. road construction, grazing and pasture, hazard underperforming drainage channel and reduction, horticulture, timber harvesting etc.). retention basin, the works are required to recontour/regrade both the channel and basin If applicable, provide any additional project overview to improve drainage capacity and operation. or explain in detail the activities on the property (e.g. The project also incorporates improvements provide context of work proposed and describe how to an area of POS by providing a footpath, clearing will contribute to overall work activities including a boardwalk and rest area. The POS onsite etc.). area will retain the existing trees and vegetation to create a natural feel.

Specify what the final land use will be after clearing

Drainage channel, retention basin and POS

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	ng and Mechanical
---	-------------------

5.5 Timeframe

(e.g. 1/7/2022 to 30/8/2024)	Start date: February 2025
	End date: June 2025

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

Do you propose to	☐ Yes – complete section below Application area within Swan coastal Plair ☐ I have had a pre-application meeting with DWER/DEMIRS	
clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt bioregions?	Insert date of meeting and officer name(s):	Applicant had meeting with DWER on 27 September 2024 via Microsoft Teams
		cted DWER/DEMIRS in relation to a pre-application en advised that a meeting is unnecessary in this

Insert date of conversation and officer name(s):	
 ☐ I have not had a pre-application meeting with DWER/DEMIRS. I understand that this may increase the likelihood of requests for further information and/or delays in assessment. ☐ No – proceed to next question. 	

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated

Provide the avoidance details (e.g. retention of vegetation on property) The City intends to clear the minimum amount of vegetation to undertake the required drainage channel and retention basin maintenance improvements. Where significant earthworks are required, and trees cannot be retained due to levels, trees have been identified for clearing. These are primarily located in the watercourse diversion location at the eastern end, or on the side slopes of the watercourse where works will be undertaken. Where possible, tree retention has tried to be achieved by locating footpaths and POS infrastructure in open areas or manipulating the watercourse earthworks to avoid trees.

It's important to note that trees will be retained if they do not affect the performance of the drainage channel, trees to be retained will be protected during the works with tree protection zones.

The POS area will retain existing vegetation including 34 trees to create a natural recreation area.

Provide the mitigation details	During clearing works, tree protection zone identified for retention.	s will be installed to protect trees		
(e.g. management of weed spread, rehabilitation)	Weeds shall be treated and controlled prior to any excavation work.			
	The disturbance of areas outside of the site extents shall be kept to an absolute minimum.			
	Cleared vegetation, trees and topsoil shall be separated, stored in temporary stockpiles and carted (in covered transport) off site for disposal by material type.			
	Contaminated topsoil will not be reused on site.			
	Where suitable tree limbs and mulch from removed trees will be used in the POS.			
	Following the basin recontouring, the area will be revegetated with native plants and trees.			
6.2 Offsets				
Do you want to subn	nit a clearing offset proposal with your form?	□ Yes ⊠ No		
-	opplete and attach Appendix A of the <u>Clearing</u> offsets procedure guideline as a supporting orm.	☐ Appendix A attached		
Part 7 – Surveys	for assessments (IBSA and IMSA)			
Do you want to subn	nit marine or biodiversity surveys in ?	☐ Yes ⊠ No – skip to Part 8		
7.1 Biodiversity surv	/evs			
If you want to submit a Environmental Protective Index of Biodivers	any biodiversity surveys to support this form, tion Authority's (EPA) Instructions for the presity Surveys for Assessments (IBSA). If you define/return your form.	paration of data packages for		
been issued – in the s biodiversity survey ha are only issued once notify DWER/DEMIRS	SA number(s) – or submission number(s) if the space provided. Note that a submission number is been accepted and is not the same as an I as a survey has been accepted. Once an IBSA is Please note DWER/DEMIRS will suspendentil you provide the IBSA number(s).	per is not confirmation that a BSA number. IBSA numbers number is issued, please		
	all the biodiversity surveys that support this Biodiversity Surveys for Assessment?	☐ Yes ☐ Not applicable		
Provide an IBSA number (preferred) or a submission number(s)				

7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments* (IMSA). If you do not meet the IMSA requirements, DWER/DEMIRS will decline/return your form.

	□ Yes
accordance with the EPA's Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments?	⊠ Not applicable

Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's guidance on the assessment bilateral agreement.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?	☐ Yes ☑ No – skip to Part 9
Is your proposed clearing a controlled action? If 'Yes', please make sure you have entered all the mandatory details in the Annex C7 form	☐ Yes EPBC number: ☐ Annex C7 form attached ☒ No (DWER/DEMIRS cannot assess the application under an EPBC Act Accredited Process)
List the controlling provisions identified in the notification of the controlled action decision	

Part 9 – Other approvals

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.
