

Department of Energy, Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type. Note: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	 □ Referral of proposed clearing (section 51DA of the EP Act) ☑ Application for an area permit (section 51E of the EP Act) □ Application for a purpose permit (section 51E of the EP Act) 	
Which department are you submitted If the clearing is for mineral and pet authorised under the <i>Mining Act 19</i> petroleum Acts, and/or a State Agre areas covered by either mineral or petroleum egranted under one of the about the compact of the energy, Regulation and Safety'. For all other clearing activities, select of Water and Environmental Regulation	roleum activities 78, the various eement with petroleum ovementioned Mines, Industry ct 'Department	 □ Department of Energy, Mines, Industry Regulation and Safety ☑ Department of Water and Environmental Regulation

Part 2 – Applicant details

2.1 Applicant name

For area permits:	□ Applying as an individual – complete the following:			
If granted, the	Title	☐ Mr ☐ Mrs ☐ Ms ☐ Other:		
name(s) of (all) landowner(s) will be listed as	Name(s)			
'permit holders' on the permit.	☐ Applying as a following:	☐ Applying as a body corporate or other entity formed at law – complete the following:		
For purpose permits:	Name			
If granted, the name(s) of (all) applicant(s) will	Australian Company Number (ACN)			
go on the permit.	 ⊠ Applying as a government entity (e.g. government department, local government authority, or other statutory body) 			
	Name	City of Wanneroo		

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	
First name	
Last name	
Position	
Company name	
Phone number	
Email address	

2.3 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1	
Address line 2	

Suburb		
State		

2.4 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

2.5 Electronic correspondence consent

DWER/DEMIRS prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

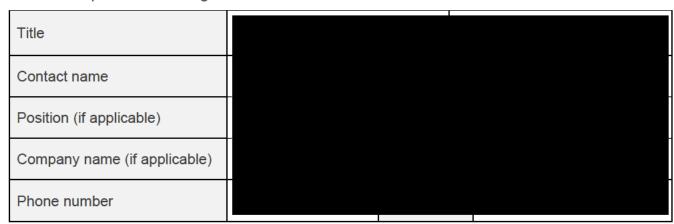

I consent that all written correspondence between myself (the applicant) and DWER/DEMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.

2.6 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER/DEMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details	⊠ No
-------------------------------------	------

If 'No' – complete the following:

Email address		
Business or postal address line 1		
Business or postal address line 2		
Suburb		
State		

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No
---	------------------------	------

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number	 Volume: LR3166 Folio: 930 Lot 521 on Deposited Plan 406005 Reserve Number 12439 Volume: LR3166 on Deposited Plan 931 Lot 522 on Deposited Plan 406005 Reserve Number 12439 Road Reserve: PIN 12186401 Land Type Road 	
Street address – Line 1	1 Brazier Road	
Street address – Line 2		
Suburb	YANCHEP	
State	WA Postcode 6035	
Local government area(s)	City of Wanneroo	

Land zoning	MRS Zoning as Parks and Recreation
,	

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- · a certificate of title
- · a pastoral or mining lease
- · public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
⊠ I am the landowner	⊠ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☐ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the <i>Energy Operators (Powers) Act 1979</i>)	□ Provide relevant legislative details:

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: DWER/DEMIRS will decline/return forms (as applicable) if you do not provide sufficient information for this question.

☑ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude)
- Datum: GDA 2020

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants may be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the
 hectare value for the total size of the area to be cleared (mark number of trees as zero)
 and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare
 footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = 0.4 hectares/4,000 m² Area of a rectangle = length x width

1 tree = 0.01 hectares/100 m² Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	0.1693 hectares	
Footprint of clearing (hectares) (purpose permit only)	N/A Note: During validation of the application the total area of	
Number of individual trees to be cleared	N/A clearing proposed (hectares) was amended to 0.19 hectares	

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).

If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.). The City plans to construct a footpath and parallel parking bays to link the existing footpath on Yanchep Road to the beachfront. This connection, extending from Yanchep Road to Brazier Road, aims to enhance pedestrian safety, provide additional parking for visitors to the shore, and improve overall connectivity for the Yanchep community.

The City proposes to temporarily clear approximately **0.132 hectares** of native vegetation to accommodate construction activities. Upon completion, this area will be fully revegetated.

An additional 0.0374 hectares of vegetation will be permanently cleared to facilitate the installation of parallel parking bays, and a footpath. The construction process will include locating underground services, excavation and filling, subgrade preparation with compaction, laying and compacting a 200mm limestone sub-base, installing drainage lintels, asphalt works, pram ramps, and the final installation of the parallel car park and footpath.

Specify what the final land use will be after clearing

Final land use will be to provide pedestrians access to the foreshore and provide extra parking for motorists visiting the shore.

5.4 Method

Proposed method of clearing
(i.e. burning, cutting, draining, flooding, grazing,
mechanical clearing/bulldozing or other – specify)

Mechanical

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)

Start date: 1/06/2026

End date: 31/12/2026

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

	☐ Yes – complete section below ☐ I have had a pre-application meeting with DWER/DEMIRS			
Do you propose to clear native vegetation within the Swan Coastal	Insert date of meeting and officer name(s):			
	☐ I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.			
Plain or Avon Wheatbelt bioregions?	Insert date of conversation and officer name(s):			
	☐ I have not had a pre-application meeting with DWER/DEMIRS. I understand that this may increase the likelihood of requests for further information and/or delays in assessment.			
	understand that this may increase the likelihood of requests for further			

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on

This location was chosen to improve safety and connectivity, meet community demand, and align strategically with future development plans while minimizing environmental impact. To ensure minimal disturbance to native vegetation, the City's Design Team carefully selected the alignment

property) for the footpath and parallel parking, prioritizing areas with the least native vegetation. Additionally, the City recognizes that the adjacent land is a Class A reserve and will primarily conduct works within the road reserve. For further details.

Provide the mitigation details (e.g. management of weed spread, rehabilitation)

The City will ensure that, prior to any clearing, all vehicles and personnel adhere to appropriate dieback management protocols in accordance with *The City and DBCA (2020) Phytophthora Dieback Management Manual.*

including images of the proposed impact area, please refer to Attachment 3-

The City will minimize the clearing of native vegetation by conducting works exclusively in already degraded or cleared areas along Brazier Road. The City will not encroach into the foreshore area that is classed as a class reserve.

In addition, once construction is complete the City will install a conservation fence to deter people form walking on the footpath into the A Class Reserve. Giving the reserve more protection from the public.

Once construction of the footpath and the car park is completed, the City will undertake revegetation of the temporary cleared area (0.132 hectares). The City is committed to revegetate the area with native species already existing within the permanently and temporarily cleared areas.

The species to be propagated have been carefully selected to mitigate and rehabilitate the site without compromising the installed infrastructure. Once revegetation has been established onsite, then the City's Trees and Conservation team will take over management of the revegetation, which includes pruning, watering and weed control.

Species to be propagated and planted after construction are:

Austrostipa flavescens

Conostylis sp

Clearing Plan.

Dianella revoluta

Ficinia nodosa

Hardenbergia comptoniana

Leptomeria preissiana

Olearia axillaris

Olearia axillaris

Rhagodia b. subsp. Baccata

Scaevola t. subsp. Thesioides

Scaevola t. subsp. Thesioides

Spyridium globulosum

6.2 Offsets	
Do you want to submit a clearing offset proposal with your form?	☐ Yes ☒ No
If 'Yes' – please complete and attach Appendix A of the <u>Clearing</u> <u>of native vegetation offsets procedure</u> guideline as a supporting document for your form.	☐ Appendix A attached
Part 7 – Surveys for assessments (IBSA and IMSA)	
Do you want to submit marine or biodiversity surveys in support of your form?	☐ Yes ⊠ No – skip to Part 8
7.1 Biodiversity surveys	
If you want to submit any biodiversity surveys to support this form, Environmental Protection Authority's (EPA) <u>Instructions for the prethe Index of Biodiversity Surveys for Assessments</u> (IBSA). If you do requirements, DWER/DEMIRS will decline/return your form.	paration of data packages for
Please provide the IBSA number(s) – or submission number(s) if the been issued – in the space provided. Note that a submission number biodiversity survey has been accepted and is not the same as an II are only issued once a survey has been accepted. Once an IBSA reporting DWER/DEMIRS. Please note DWER/DEMIRS will suspend to for your application until you provide the IBSA number(s).	er is not confirmation that a BSA number. IBSA numbers number is issued, please
Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment?	☐ Yes ☑ Not applicable
Provide an IBSA number (preferred) or a submission number(s)	
7.2 Marine surveys	
If you want to submit any marine surveys to support this form, you <u>Instructions for the preparation of data packages for the Index of Massessments</u> (IMSA). If you do not meet the IMSA requirements, Edecline/return your form.	larine Surveys for

Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data</i>	□ Yes
, ,	⊠ Not applicable

Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's guidance on the assessment bilateral agreement.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?	☐ Yes ☑ No – skip to Part 9
Is your proposed clearing a controlled action?	□ Yes
If 'Yes', please make sure you have entered all the mandatory details in the	EPBC number:
Annex C7 form	☐ Annex C7 form attached
	☐ No (DWER/DEMIRS cannot assess the application under an EPBC Act Accredited Process)
List the controlling provisions identified in the notification of the controlled action decision	

Part 9 – Other approvals

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DEMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.

Has the proposed clearing or any	□ Yes
