

Department of Energy, Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type. Note: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	 □ Referral of proposed clearing (section 51DA of the EP Act) □ Application for an area permit (section 51E of the EP Act) ☑ Application for a purpose permit (section 51E of the EP Act) 		
Which department are you submitting this form to? If the clearing is for mineral and petroleum activities authorised under the <i>Mining Act 1978</i> , the various petroleum Acts, and/or a State Agreement with areas covered by either mineral or petroleum tenure granted under one of the abovementioned Acts, select 'Department of Energy, Mines, Industry Regulation and Safety'. For all other clearing activities, select 'Department of Water and Environmental Regulation'.		 ☑ Department of Energy, Mines, Industry Regulation and Safety ☐ Department of Water and Environmental Regulation 	

Part 2 – Applicant details

2.1 Applicant name

<u> </u>					
For area permits:	☐ Applying as an individual – complete the following:				
If granted, the	Title		□ Mr □ Mrs □ Ms	□ Other:	
name(s) of (all) landowner(s) will be listed as	Name(s)			
'permit holders' on the permit.					
For purpose permits:	Name		Dampier Salt Limited		
If granted, the name(s) of (all) applicant(s) will	Australia	Australian Company Number (ACN) 008 706 590			
go on the permit.	☐ Applying as a government entity (e.g. government department, local government authority, or other statutory body)				
	Name				
2.2 Applicant con	tact deta	ils			

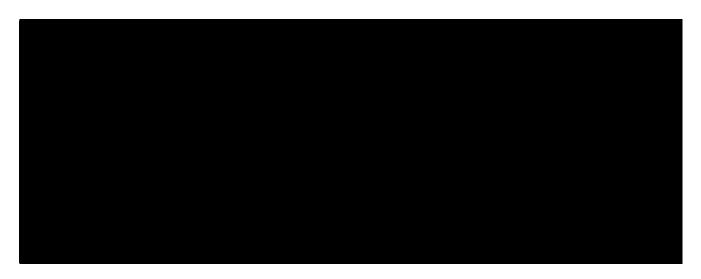

Provide the contact details for the above (primary contact).

2.3 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

2.4 Applicant contact – registered business address		
If applying as a company, incorporated body, local government authority or public authority please also supply the registered business office address.	rity,	
2.5 Electronic correspondence consent		
DWER/DEMIRS prefer to send all correspondence via email. We request that you conserved receiving all correspondence relating to instruments and notices under Part V of the EP email. Please indicate your consent in this section of the form.		а
I consent that all written correspondence between myself (the applicant) and DWER/DEMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	'es	□ No
2.6 Contact details for enquiries If different from the applicant's contact details, enter the contact details of a person with DWER/DEMIRS should liaise with (e.g. a consultant).	whom	n
Same as applicant's contact details	es	□No
If 'No' – complete the following:		

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4 ⊠ No
---	-------------------------------

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number	Mining Tenements ML242SA		
Street address – Line 1	DSL Port Hedland Operations		
Street address – Line 2			
Suburb	Port Hedland		
State	WA	Postcode	6721
Local government area(s)	Shire of Port Hedland		
Land zoning			

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
☐ I am the landowner	☐ Attach proof of ownership
⋈ I am lodging a form on behalf of the landowner (e.g. a consultant)	
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☐ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the <i>Energy Operators (Powers) Act 1979</i>)	□ Provide relevant legislative details:

Part 5 - Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: DWER/DEMIRS will decline/return forms (as applicable) if you do not provide sufficient information for this question.

☐ An ESRI shapefile with the following properties (preferred)

- · Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude)
- Datum: GDA 2020

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity* Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = $0.4 \text{ hectares/4,000 m}^2$ Area of a rectangle = length x width

1 tree = 0.01 hectares/100 m² Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	0.71
Footprint of clearing (hectares) (purpose permit only)	0.71
Number of individual trees to be cleared	

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).	Access to around the seawater
If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).	previousl

Access to, and removal of vegetation regrowth around the intake infrastructure to improve seawater flow. The area is considered as previously disturbed.

Specify what the final land use will be after clearing

The intake infrastructure will remain insitu for the duration of the DSL Port Hedland Operations.

Rehabilitation of cleared areas that are no longer required for the purpose for which they were cleared, will be carried out on completion of the authorised activity

As per the current closure plan, post-mining land uses are defined in the current closure plan.

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)

Clearing will be done using mechanical methods, most likely with a hydraulic excavator equipped with a clam shell bucket attachment.

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)

Start date: 01/06/2025

End date: 31/05/2027

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

Do you propose to clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt

Yes – complete section below

The Have had a pre-application meeting with DWER/DEMIRS

bioregions?	Insert date of meeting and officer name(s):			
	☐ I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.			
	Insert date of conversation and officer name(s):			
	 □ I have not had a pre-application meeting with DWER/DEN understand that this may increase the likelihood of requests f information and/or delays in assessment. ☑ No – proceed to next question. 			

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)

The proposed works will be managed and executed through DSL's internal Environment Permit System. Vegetation clearing has been carefully planned to minimise impact. Recognizing the importance of mangroves, only vegetation affecting the seawater intake infrastructure will be removed. Existing work areas and access tracks will be used, and ramps may be installed to reach lower areas.

For more details, please refer to the assessment against the 10 clearing

	principles		
Provide the mitigation details (e.g. management of weed spread, rehabilitation)	Internal land management procedures will mitigation for soil and overburden	oe followed	to ensure appropriate
6.2 Offsets			
Do you want to subr	nit a clearing offset proposal with your form?	□ Yes	⊠ No
-	nplete and attach Appendix A of the <u>Clearing</u> offsets procedure guideline as a supporting orm.	□ Appe	ndix A attached
Part 7 – Surveys	for assessments (IBSA and IMSA)		
Do you want to subr	nit marine or biodiversity surveys in ?	⊠ Yes □	No – skip to Part 8
the Index of Biodivers requirements, DWER Please provide the IB been issued – in the s biodiversity survey ha are only issued once notify DWER/DEMIRS	etion Authority's (EPA) Instructions for the presity Surveys for Assessments (IBSA). If you do /DEMIRS will decline/return your form. SA number(s) – or submission number(s) if the space provided. Note that a submission number as been accepted and is not the same as an interest as survey has been accepted. Once an IBSA is. Please note DWER/DEMIRS will suspendentil you provide the IBSA number(s).	o not meet he IBSA nu per is not co BSA numb number is i	imber has not yet onfirmation that a er. IBSA numbers ssued, please
