Application to amend a clearing permit

Environmental Protection Act 1986, section 51KA

FORM C4

The clearing of native vegetation is prohibited in Western Australia unless a clearing permit has been granted for the clearing or where a permit is not required (either due to a referral determination that one is not needed or because an exemption applies). A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), see the [Procedure: Native vegetation clearing permits](#) on DWER's website.

Part 1: Assessment bilateral agreement

If the amendment of a clearing permit will or is likely to impact on a matter of national environmental significance identified under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) the original application must have been assessed in accordance with the bilateral assessment, and a variation under the EPBC Act is required prior to submitting this amendment application form.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a '[controlled action](#)' prior to submitting this application form.

Further information is located in *Form Annex C7* and *A guide to native vegetation clearing processes under the Assessment bilateral agreement* available at [Native vegetation clearing permits | Western Australian Government](#)

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?

Part 4: Proposed amendments													
Additional information to support the assessment of your application to amend may be attached. Please ensure you have included the following as part of your application: - a photocopy of the granted clearing permit, with proposed changes highlighted, and - payment of the prescribed fee. When providing details of the proposed change(s), if any additional clearing is proposed, include details of: - the proposed method of the clearing; - the purpose of the clearing; - the period within which the clearing is proposed to be undertaken (taking note of the published minimum assessment timeframes for DWER / DMPE, as applicable); and - the final land use.	Indicate the types of proposed change(s) to your clearing permit by selecting the relevant box(es): <table border="1"> <tbody> <tr> <td>☒</td> <td>Extend the duration of the clearing permit.</td> </tr> <tr> <td>☒</td> <td>Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.</td> </tr> <tr> <td>☒</td> <td>Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.</td> </tr> <tr> <td>☐</td> <td>Redescribe the boundary of the area authorised to be cleared [for an area permit only]</td> </tr> <tr> <td>☐</td> <td>Make a correction to the clearing permit.</td> </tr> <tr> <td>☐</td> <td>Other.</td> </tr> </tbody> </table> Provide details of the proposed change(s), and the rationale(s) for it / them. Clearing will be undertaken mechanically (earthmoving equipment) Purpose of increased clearing is further development of the approved Youanmi Gold Project. This amendment proposes to increase total clearing to 223 ha (an additional 100.1 ha) to allow for further development of the project (including solar array, topsoil stockpiles, waste water treatment plan and infrastructure corridors). Clearing in the additional areas is proposed to be undertaken from 1 September 2026. An extended duration of an additional four years is proposed (ending 29 August 2034) to coincide with the increased life of mine. It is proposed to remove condition 8 from the permit, <i>Calytrix hislopii</i> (P3) individuals within the disturbance footprint have been previously approved for disturbance by DMPE. The remaining individuals are not currently proposed to be cleared, however, should this be required in the future, impact to the species overall would be minimal. Further information is included in the Attachment 1 – Supporting information. The final land use will be predominantly pastoral activity. There are several reserves (vested with the Department of Planning, Lands and Heritage) that are located within the project area, most of which surround the historical town of Youanmi, which also occurs within the NVCP Disturbance Envelope. Consultation regarding post mining land use of the Youanmi town-site will be discussed with DPLH in the future. The existing granted clearing permit, with proposed changes highlighted is included with this application.	☒	Extend the duration of the clearing permit.	☒	Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.	☒	Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.	☐	Redescribe the boundary of the area authorised to be cleared [for an area permit only]	☐	Make a correction to the clearing permit.	☐	Other.
