

Department of Energy, Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type. Note: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	☐ Application fo	oposed clearing (section 51DA of the EP Act) r an area permit (section 51E of the EP Act) or a purpose permit (section 51E of the EP Act)
Which department are you submitting of the clearing is for mineral and pet authorised under the <i>Mining Act 19</i> petroleum Acts, and/or a State Agree areas covered by either mineral or petroleum egranted under one of the about Acts, select 'Department of Energy, Regulation and Safety'. For all other clearing activities, select of Water and Environmental Regulation	roleum activities 78, the various eement with petroleum ovementioned Mines, Industry	 □ Department of Energy, Mines, Industry Regulation and Safety ☑ Department of Water and Environmental Regulation

Part 2 – Applicant details

2.1 Applicant name

For area permits:	☐ Applying as a	n individual – complete the following:	
If granted, the	Title	□ Mr □ Mrs □ Ms □ Other:	
name(s) of (all) landowner(s) will be listed as	Name(s)	'	
'permit holders' on the permit.	☐ Applying as a following:	Applying as a body corporate or other entity formed at law – complete the owing:	
For purpose permits:	Name		
If granted, the name(s) of (all) applicant(s) will	Australian Company Number (ACN)		
go on the permit.		a government entity (e.g. government department, local hority, or other statutory body)	
	Name	Name Electricity Networks Corporation trading as Western Power, ABN 18 540 492 861	

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

2.3 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

2.4 Applicant contact – registered business address If applying as a company, incorporated body, local government authority or public a please also supply the registered business office address.	authority,	
2.5 Electronic correspondence consent		
DWER/DEMIRS prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.		
I consent that all written correspondence between myself (the applicant) and DWER/DEMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	⊠ Yes	□ No
2.6 Contact details for enquiries If different from the applicant's contact details, enter the contact details of a person DWER/DEMIRS should liaise with (e.g. a consultant).	with whor	n
Same as applicant's contact details	□ Yes	⊠ No
If 'No' – complete the following:		

Part 3 - Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	⊠ Yes – skip to Part 4	□ No
If 'No' – complete the following:		

Land description
Provide the following details, as applicable, for all properties:

- volume and folio number
- lot or location number(s)
- crown lease or reserve number
- pastoral lease number
- mining tenement number

Street address – Line 1

Street address – Line 2

Suburb

State

Postcode

Local government area(s)

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- · a certificate of title
- a pastoral or mining lease
- · public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
□ I am the landowner	☐ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☑ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the Energy Operators (Powers) Act 1979)	□ Provide relevant legislative details: s.28 and s.49 of the Energy Operators (Powers) Act 1979

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: DWER/DEMIRS will decline/return forms (as applicable) if you do not provide sufficient information for this question.

☑ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude)
- Datum: GDA 2020

☐ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants may be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the
 hectare value for the total size of the area to be cleared (mark number of trees as zero)
 and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare
 footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = 0.4 hectares/4,000 m² Area of a rectangle = length x width

1 tree = 0.01 hectares/100 m² Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	2.56 ha
Footprint of clearing (hectares) (purpose permit only)	2.56 ha of clearing within a 26 ha Project Area
Number of individual trees to be cleared	

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).

If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.). Western Power is proposing to construct a new 132 kilovolt (kV) wooden pole transmission line between an existing transmission line running between Northern Terminal in Malaga to Northam, northwards along Drumpellier Drive to the Henley Brook Substation, which is located on Starflower Road, Henley Brook. The transmission line will run approximately 4 kilometres (km) long.

The purpose of the project is to upgrade the existing network to enable future connections of large-scale renewable energy generation and load in the Northern region of the Southwest Interconnected System (SWIS), in support of the State Government decarbonisation strategy. A future ready transmission network is critical to deliver Western Australia's wind and solar resources to major loads.

A recent SWIS demand assessment concluded that the location of the renewable resources at the fringe of the grid, coupled with the substantial footprint of the SWIS, means substantial upgrading of the network is required to meet industry demand for greener energy.

The project comprises:

- Installation of 132 kV overhead conductors, grounding wires and communication wires and wooden poles
- Construction of a 4 metre (m) wide permanent maintenance access track, where the line is not running within public road reserve
- Establishment of a vegetation clearance zone up to 16 m wide (8 m either side of the line route), with maximum vegetation height in this zone being 3 m.

In addition, the proposed works will include the following temporary construction activities:

- Construction access track
- Break and winch sites spaced along the line for stringing conductors

	Clearing where necessary for turnaround areas, laydown/storage areas, laying of conductors and other construction activities.
Specify what the final land use will be after clearing	The current land use will remain the same (Public Purposes). Following clearing and construction, the transmission line and vegetation clearance zone will be managed as per Western Power's standard operation and maintenance requirements.

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical clearing/bulldozing
3 3 1 77	

5.5 Timeframe

(e.g. 1/7/2022 to 30/8/2024)	Start date: 1 January 2026 End date: 31 December 2027

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

✓ Yes – complete section below ✓ I have had a pre-application meeting with DWER/DEMIRS Do you propose to 12 August 2025: An overview of the Clean Energy clear native Insert date of Link program, which includes this project, was vegetation within meeting and provided to the DWER Green Energy team, the Swan Coastal officer name(s): attended by Plain or Avon Wheatbelt bioregions? ☐ I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.

Insert date of conversation and officer name(s):	
understand that	ad a pre-application meeting with DWER/DEMIRS. I this may increase the likelihood of requests for further for delays in assessment.

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)	See supporting document CEL North Henley Brook Tee-off Project – NVCP Supporting Document Rev 0 for avoidance details.
Provide the mitigation details (e.g. management of weed spread, rehabilitation)	See supporting document CEL North Henley Brook Tee-off Project – NVCP Supporting Document Rev 0 for mitigation details.

6.2 Offsets

Do you want to submit a clearing offset proposal with your form? ☐ Yes ☒ No

If 'Yes' – please complete and attach Appendix A of the <u>Clearing</u> of native vegetation offsets procedure guideline as a supporting document for your form.	☐ Apper	ndix A attached		
Part 7 – Surveys for assessments (IBSA and IMSA)				
Do you want to submit marine or biodiversity surveys in support of your form?		Yes □ No – skip to Part 8		
7.1 Biodiversity surveys				
If you want to submit any biodiversity surveys to support this form, Environmental Protection Authority's (EPA) <u>Instructions for the prethe Index of Biodiversity Surveys for Assessments</u> (IBSA). If you derequirements, DWER/DEMIRS will decline/return your form.	paration of	data packages for		
Please provide the IBSA number(s) – or submission number(s) if the been issued – in the space provided. Note that a submission number biodiversity survey has been accepted and is not the same as an II are only issued once a survey has been accepted. Once an IBSA notify DWER/DEMIRS. Please note DWER/DEMIRS will suspend for your application until you provide the IBSA number(s).	er is not co BSA numben number is is	onfirmation that a er. IBSA numbers ssued, please		
Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment?		☑ Yes☐ Not applicable		
Provide an IBSA number (preferred) or a submission number(s)	IBSA-2025-0044			
7.2 Marine surveys				
If you want to submit any marine surveys to support this form, you <u>Instructions for the preparation of data packages for the Index of Massessments</u> (IMSA). If you do not meet the IMSA requirements, Edecline/return your form.	larine Surv	eys for		
Have you prepared all the marine surveys that support this form in accordance with the EPA's <i>Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments?</i>	☐ Yes☒ Not applicable			

Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's guidance on the assessment bilateral agreement.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?	□ Yes ☑ No – skip to Part 9			
Is your proposed clearing a controlled action?	□ Yes			
If 'Yes', please make sure you have entered all the mandatory details in the	EPBC number:			
Annex C7 form	 □ Annex C7 form attached □ No (DWER/DEMIRS cannot assess the application under an EPBC Act Accredited Process) 			
List the controlling provisions identified in the notification of the controlled action decision				

Part 9 – Other approvals

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DEMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.

Has the proposed clearing or any related matter	□ Yes			
been referred to	Enter details:			
the EPA?	⊠ No – complete question below.			
If 'No' – do you intend to refer the	☐ Yes – intend to refer (proposal is a 'significant proposal')			
proposal to the EPA?	☐ Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement)			
	□ No – a current valid Ministerial Statement applies			
	Enter Ministerial Statement number:			

9.2 Other approvals – works approval, licence or registration (Part V Division 3 of the EP Act)					
Have you applied or do you into works approval, licence, registry amendment to any of the above Division 3 of the EP Act? It is an offence to perform any a cause a premises to become a premises of a type listed in Schen Environmental Protection Regulation is done in act works approval, licence or regist guidance, see DWER's Proceed premises works approvals and Guideline: Industry regulation of	ation or an e, under Part V action that would prescribed ledule 1 of the lations 1987, cordance with a stration. For further lure: Prescribed licences and	 Yes Application reference: No – a valid works approval applies No – a valid licence applies No – a valid registration applies No – not required 			
9.3 Water licences and pern	nits (<i>Rights in W</i>	/ater and Irrigation Act 1914)			
 a licence or amendment to a water (surface water or grout a licence or amendment to a construct wells (including both or a permit or amendment to a interfere with the bed and be watercourse?
