

Department of Energy, Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type. Note: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	 □ Referral of proposed clearing (section 51DA of the EP Act) ☑ Application for an area permit (section 51E of the EP Act) □ Application for a purpose permit (section 51E of the EP Act) 		
Which department are you submitting of the clearing is for mineral and pet authorised under the <i>Mining Act 19</i> petroleum Acts, and/or a State Agres areas covered by either mineral or petroleum egranted under one of the about tenure granted under one of the about Acts, select 'Department of Energy, Regulation and Safety'. For all other clearing activities, select of Water and Environmental Regulation	croleum activities 78, the various eement with petroleum ovementioned Mines, Industry	 □ Department of Energy, Mines, Industry Regulation and Safety ☑ Department of Water and Environmental Regulation 	

Part 2 – Applicant details

2.1 Applicant name

2.1 Applicant nan	IC	
For area permits:	☐ Applying as	an individual – complete the following:
If granted, the	Title	□ Mr □ Mrs □ Ms □ Other:
name(s) of (all) landowner(s) will be listed as	Name(s)	
'permit holders' on the permit.	☐ Applying as following:	a body corporate or other entity formed at law – complete the
For purpose permits:	Name	
If granted, the name(s) of (all)	Australian Co	mpany Number (ACN)
applicant(s) will go on the permit.		a government entity (e.g. government department, local uthority, or other statutory body)
	Name	City of Canning
Title		
	details for the ac	pove (primary contact).
First name		
Last name		
Position		
Company name		
Phone number		
Email address		
2.3 Applicant con	tact postal de	tails
Provide the postal ac authority (primary co		pove individual, body corporate or local government

State	Postcode	

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No	
---	------------------------	------	--

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number	City of Canning Drainage Easement Lot 4089 on Plan 2188 LR3107/561 Crown Land, Owner is State of Western Australia Reserve number 44594		
Street address – Line 1	33 Woodloes St		
Street address – Line 2			
Suburb	Cannington		
State	Western Australia	Postcode	6107
Local government area(s)	City of Canning		
Land zoning	R30, Residential. LPS Special Area SCA1 – Perth Airport Buffer Special Control Area.		

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
⊠ I am the landowner	⊠ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☐ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the <i>Energy Operators (Powers) Act 1979</i>)	□ Provide relevant legislative details:

Part 5 - Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: DWER/DEMIRS will decline/return forms (as applicable) if you do not provide sufficient information for this question.

☑ An ESRI shapefile with the following properties (preferred)

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude)
- Datum: GDA 2020

⊠ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius² 1 acre = $0.4 \text{ hectares/}4,000 \text{ m}^2$ Area of a rectangle = length x width 1 tree = $0.01 \text{ hectares/}100 \text{ m}^2$ Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	
Footprint of clearing (hectares) (purpose permit only)	
Number of individual trees to be cleared	5 trees

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).

If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.). Drainage easement is to be upgraded and open drain filled in, to improve public safety and safety during maintenance to reduce weeds and overgrowth in the area. This will also improve water quality as a sediment trap will be installed.

The existing open drain has trees growing on its banks that need to be removed to:

- Allow safe access the end of the drain to remove building and construction waste
- Safely lay the new stormwater drain pipe and backfill

The original design involved removing all trees from the site and leaving a grassed area for weed control and mowing.

After discussions with the designer and conservation teams at the City of Canning, the design has been adjusted to retain 8 trees including the largest ones, for habitat.

The area also has *Schinus terebinthifolius* growing and out-competing native vegetation. The upgraded drain will improve control of this weed species.

Further information on the project and trees can be found in attachment "Woodloes Drainage Upgrade Additional information for Form NV-F01".

Specify what the final land use will be after clearing

Drainage easement for stormwater.

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)

Cutting individual trees.

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)

Start date: 20/8/2025

End date: 1/2/2027

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

				
	Insert date of meeting and officer name(s):			
Do you propose to clear native vegetation within the Swan Coastal	☑ I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.			
Plain or Avon Wheatbelt bioregions?	Insert date of conversation and officer name(s):	1 May 2025, Thushani Rathnayaka, A/Senior Environmental Officer, Native Vegetation Regulation, Statewide Delivery		
	 □ I have not had a pre-application meeting with DWER/DEMIRS. I understand that this may increase the likelihood of requests for further information and/or delays in assessment. □ No – proceed to next question. 			

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by

DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)	This design allows for the smallest number of trees to be removed to safely install the new pipe and create an accessible drainage easement for maintenance purposes. The majority of native trees on the property will be retained. The trees to be retained include the largest and most mature trees on the site.
Provide the mitigation details (e.g. management of weed spread, rehabilitation)	Ongoing weed management and observation of the retained vegetation. Pepper tree is a severe issue in this area of the Canning River and the clearing and upgraded drainage easement will allow ongoing control of this species. This will allow native vegetation to repopulate the area.

6.2 Offsets

Do you want to submit a clearing offset proposal with your form?	☐ Yes ☒ No
If 'Yes' – please complete and attach Appendix A of the <u>Clearing</u> of native vegetation offsets procedure guideline as a supporting document for your form.	☐ Appendix A attached

Part 7 – Surveys for assessments (IBSA and IMSA)

Do you want to submit marine or biodiversity surveys in support of your form?	☐ Yes ⊠ No – skip to Part 8

7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) *Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments* (IBSA). If you do not meet the IBSA requirements, DWER/DEMIRS will decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DEMIRS. Please note DWER/DEMIRS will suspend the assessment timeframes for your application until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the Index of Biodiversity Surveys for Assessment?	☐ Yes☒ Not applicable
Provide an IBSA number (preferred) or a submission number(s)	

7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments* (IMSA). If you do not meet the IMSA requirements, DWER/DEMIRS will decline/return your form.

Have you prepared all the marine surveys that support this form in	□ Yes
accordance with the EPA's Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments?	⊠ Not applicable

Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a '**controlled action**' before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's guidance on the assessment bilateral agreement.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?	☐ Yes ☑ No – skip to Part 9	
Is your proposed clearing a controlled action?	□ Yes	
If 'Yes', please make sure you have entered all the mandatory details in the Annex C7 form	EPBC number:	
	☐ Annex C7 fo	rm attached
	`	EMIRS cannot assess the an EPBC Act Accredited Process)
List the controlling provisions identified in the notification of the controlled action decision		

Part 9 – Other approvals

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DEMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.

,	,			
Has the proposed clearing or any related matter been referred to the EPA?	□ Yes Enter details: □ No – complete question below.			
If 'No' – do you intend to refer the proposal to the EPA?	 ☐ Yes – intend to refer (proposal is a 'significant proposal') ☐ Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement) ☐ No – a current valid Ministerial Statement applies Enter Ministerial Statement number: ☑ No – not a significant proposal 			
9.2 Other approvals – works approval, licence or registration (Part V Division 3 of the EP Act) Have you applied or do you intend to apply for a works approval, licence, registration or an amendment to any of the above, under Part V				
It is an offence to perform any action that would cause a premises to become a prescribed premises of a type listed in Schedule 1 of the Environmental Protection Regulations 1987, unless that action is done in accordance with a works approval, licence or registration. For further guidance, see DWER's <i>Procedure: Prescribed premises works approvals and licences</i> and <i>Guideline: Industry regulation guide to licensing</i> .		Application reference: ☐ No – a valid works approval applies ☐ No – a valid licence applies ☐ No – a valid registration applies ☐ No – not required		
9.3 Water licences and permits (Rights in Water and Irrigation Act 1914)				
a licence or amer water (surface waa licence or amer	do you intend to apply for: ndment to a licence to take ater or groundwater) ndment to a licence to ncluding bores and soaks),	 ☐ Yes ☐ No – a current valid licence applies Licence number: ☑ Not applicable 		
	dment to a permit to bed and banks of a	M 140t applicable
