## Application to amend a clearing permit

*Environmental Protection Act 1986, section 51KA*

### FORM C4

The clearing of native vegetation is prohibited in Western Australia unless a clearing permit has been granted for the clearing or where a permit is not required (either due to a referral determination that one is not needed or because an exemption applies). A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), see the [Procedure: Native vegetation clearing permits](#) on DWER's website.

#### Part 1: Assessment bilateral agreement

If the amendment of a clearing permit will or is likely to impact on a matter of national environmental significance identified under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) the original application must have been assessed in accordance with the bilateral assessment, and a variation under the EPBC Act is required prior to submitting this amendment application form.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a '[controlled action](#)' prior to submitting this application form.

Further information is located in *Form Annex C7* and *A guide to native vegetation clearing processes under the Assessment bilateral agreement* available at [Native vegetation clearing permits | Western Australian Government](#)

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?

Part 4: Proposed amendments	
<p>Additional information to support the assessment of your application to amend may be attached.</p> <p>Please ensure you have included the following as part of your application:</p> <ul style="list-style-type: none"> <li>a photocopy of the granted clearing permit, with proposed changes highlighted, <i>and</i></li> <li>payment of the prescribed fee.</li> </ul> <p>When providing details of the proposed change(s), if any additional clearing is proposed, include details of:</p> <ul style="list-style-type: none"> <li>the proposed method of the clearing;</li> <li>the purpose of the clearing;</li> <li>the period within which the clearing is proposed to be undertaken (taking note of the published minimum assessment timeframes for DWER / DMPE, as applicable); <i>and</i></li> <li>the final land use.</li> </ul>	<p>Indicate the types of proposed change(s) to your clearing permit by selecting the relevant box(es):</p> <p><input type="checkbox"/> Extend the duration of the clearing permit.</p>
	<p><input type="checkbox"/> Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.</p>
	<p><input checked="" type="checkbox"/> Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.</p>
	<p><input type="checkbox"/> Redescribe the boundary of the area authorised to be cleared <i>[for an area permit only]</i></p>
	<p><input type="checkbox"/> Make a correction to the clearing permit.</p>
	<p><input type="checkbox"/> Other.</p>
	<p>Provide details of the proposed change(s), and the rationale(s) for it / them.</p> <p>To enable delivery of wind turbine blades from the Port of Bunbury to the Project Site, four patches of native vegetation totalling 0.031 ha are required to be cleared at the intersection of Raymond Road and South-West Highway. This intersection is located 120km West of the Project Site, and was not included in the original NVCP application as transport modelling at the time indicated clearing would not be required.</p> <p>The purpose of this amendment is to expand the Purpose Permit boundary to include the four patches of native vegetation clearing at this intersection. There will be no change to the current NVCP clearing limit of 7.61 ha.</p>
<p>For an application to amend the size of the area permitted to be cleared, or add a land parcel to the clearing permit, you must have the authority of the landowner to access the land and undertake the clearing.</p>	<p>State the nature of the applicant's authority to access the land to be cleared. Evidence of authority can include e.g. a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give legal land access permission.</p> <p><i>[Attach evidence of authority. Note that a letter of authority must explicitly state the applicant has authority to clear on the land.]</i></p> <p>The additional land to be cleared is under the authority of Main Roads Western Australia (MRWA). A letter of authority explicitly stating permission to undertake clearing has been sought from MRWA and will be provided to support this application once received.</p>
<p>Provide additional property details if required – if applying to extend the size of the area to be cleared into another land parcel.</p>	<p>Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number, or mining tenement number of all properties.</p> <p>Additional native vegetation clearing is required across three parcels of land managed by MRWA. As such, parcels do not have Certificates of Title and therefore have been identified using their 'Polygon Identification Number' or 'PIN'(as described in the 'polygon_number' column of the Cadastre [LGATE – 217] spatial layer). PINs for the additional areas are:</p> <ul style="list-style-type: none"> <li>- 1176507</li> <li>- 1361585</li> <li>- 11738415.</li> </ul>
<p>You must provide evidence that avoidance and mitigation options have been pursued to eliminate, reduce or otherwise mitigate the need for, and scale of, the proposed clearing of native vegetation.</p>	<p>Have alternatives that would avoid or minimise the need for clearing been considered and applied? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, provide details:</p> <p>The following considerations have been identified to <b>avoid</b> potential impacts:</p> <ul style="list-style-type: none"> <li>- Road modifications are also required at the intersection of Forrest Highway and Raymond Road for the delivery of turbine blades to site. This intersection was also surveyed on 31 March 2026, and based on the original road modification design, it was determined that the vegetation required to be cleared is primarily native. Ground disturbance will now be restricted to the previously cleared median strip.</p> <ul style="list-style-type: none"> <li>- Avoidance of larger areas of intact native vegetation.</li> </ul> <p>To <b>minimise</b> potential impacts, the Construction Environmental Management Plan (CEMP) procedures developed for the Narrogin Wind Farm project site will be applied to the management of the additional clearing areas, where relevant. This will minimise unnecessary native vegetation clearing, prevent the spread of weeds, reduce generation of dust, mitigate and manage erosion and sedimentation, as well as potential bushfire impacts.</p>
Refer to DWER's <a href="#">Clearing of native vegetation offsets procedure guideline</a> available on the DWER website, and the EPA's <a href="#">WA Environmental Offsets Policy and Guidelines</a> on the EPA website for further information.	<p>Do you want to submit a clearing permit offset proposal with your application? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure guideline</i>.</p>
