

## Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the [\*Procedure: Native vegetation clearing permits\*](#).

### Part 1 – Form type

Select your form type.

**Note:** Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.

- Referral of proposed clearing (section 51DA of the EP Act)
- Application for an area permit (section 51E of the EP Act)
- Application for a purpose permit (section 51E of the EP Act)

Which department are you submitting this form to?

If the clearing is for mineral and petroleum activities authorised under the *Mining Act 1978*, the various petroleum Acts, and/or a State Agreement with areas covered by either mineral or petroleum tenure granted under one of the abovementioned Acts, select 'Department of Energy, Mines, Industry Regulation and Safety'.

- Department of Energy, Mines, Industry Regulation and Safety
- Department of Water and Environmental Regulation

For all other clearing activities, select 'Department of Water and Environmental Regulation'.

## Part 2 – Applicant details

### 2.1 Applicant name

**For area permits:**

If granted, the name(s) of (all) landowner(s) will be listed as 'permit holders' on the permit.

Applying as an individual – complete the following:

Title  Mr  Mrs  Ms  Other:

Name(s)

Applying as a body corporate or other entity formed at law – complete the following:

**For purpose permits:**

If granted, the name(s) of (all) applicant(s) will go on the permit.

Name

Australian Company Number (ACN)

Applying as a government entity (e.g. government department, local government authority, or other statutory body)

Name The Commonwealth Department - Department of Infrastructure, Transport, Regional Development, Communications, Sport and the Arts

### 2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title

First name

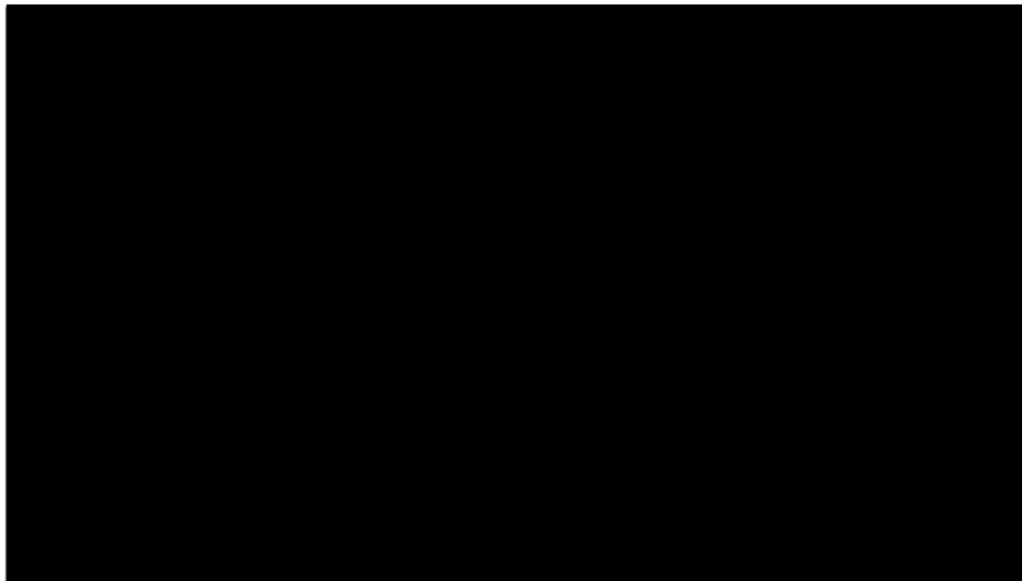

Last name

Position

Company name

Phone number

Email address

### 2.3 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1

GPO Box 594

Address line 2

Suburb Canberra

State ACT Postcode 2601

#### 2.4 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

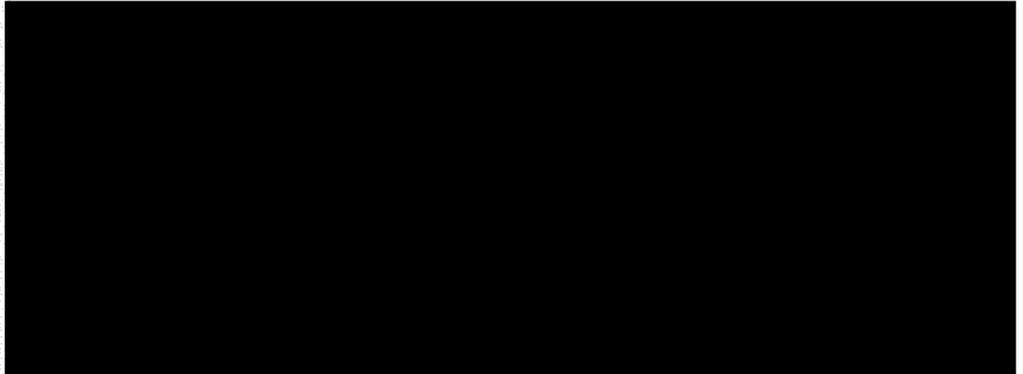

Address line 1

Address line 2

Suburb

State

Phone number

#### 2.5 Electronic correspondence consent

DWER/DEMIRS prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DEMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.  Yes  No

#### 2.6 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER/DEMIRS should liaise with (e.g. a consultant).

Same as applicant's contact details  Yes  No

If 'No' – complete the following:

Title  Mr  Mrs  Ms  Other:

Contact name

Position (if applicable)

Company name (if applicable)

Phone number

Mobile

Email address

Business or postal address  
line 1

Business or postal address  
line 2

Suburb

State

Postcode

### Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.

Yes – skip to Part 4    No

If 'No' – complete the following:

#### Land description

Provide the following details, as applicable, for all properties:

- volume and folio number
- lot or location number(s)
- crown lease or reserve number
- pastoral lease number
- mining tenement number

Murray Road Reserve – 11831914, Christmas Island

Murray Road Reserve – 11831915, Christmas Island

Murray Road Reserve – 11831916, Christmas Island

Murray Road Reserve – 11344302, Christmas Island

Lot 282 on Plan 218258, Christmas Island

Lot 415 on Plan 192160, Christmas Island

Lot 472 on Plan 219656, Christmas Island

Lot 554 on Plan 221294, Christmas Island

Lot 604 on Plan 74724, Christmas Island

Lot 606 on Plan 74724, Christmas Island

Unallocated Crown Land – 1190061, Christmas Island

[As derived from the GHD supporting document and prior permit CPS 8472/1 attached]

Street address – Line 1

Street address – Line 2

Suburb

Postcode

## Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

### Relationship to landowner

(select one of the following options)

### Complete the following

I am the landowner

Attach proof of ownership

I am lodging a form on behalf of the landowner (e.g. a consultant)

Attach proof of ownership

I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)

Attach proof of ownership

Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit

I am likely to become the landowner

Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')

I will undertake the clearing activities with the landowner's authority and will be the permit holder

Attach proof of ownership

Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)

I am a person with multiple land parcels within which clearing is proposed

Attach proof of ownership and/or

Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)

I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the *Energy Operators (Powers) Act 1979*)

Provide relevant legislative details:

Adjustments in red made during the validation phase

## Part 5 – Proposed clearing

### 5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: DWER/DEMIRS will decline/return forms (as applicable) if you do not provide sufficient information for this question.

- An ESRI shapefile with the following properties (preferred)
  - Geometry type: polygon shape
  - Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude)
  - Datum: GDA 2020
- An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

### 5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m<sup>2</sup>

1 acre = 0.4 hectares/4,000 m<sup>2</sup>

1 tree = 0.01 hectares/100 m<sup>2</sup>

Area of circle = 3.14 x radius<sup>2</sup>

Area of a rectangle = length x width

Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	<b>2.01ha</b>
Footprint of clearing (hectares) (purpose permit only)	<b>2.01 ha</b>
Number of individual trees to be cleared	

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

### 5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).

If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).

Stormwater works at the Drumsite area, above Flying Fish Cove, which was previously considered under EPBC Act Referral Decision 2019/8467 which assessed the works as 'not a controlled action'.

The general activities will be to clear the area specified to undertake geotechnical investigations and stormwater works such as drainage pipes basins to help minimise the effects of landslides affecting Flying Fish Cove below.

Specify what the final land use will be after clearing

Refer to attached *Clearing Support Document*

### 5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)

Mechanical clearing/bulldozing

### 5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)

Start date: 01/03/2026

End date: 28/02/2028

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

### 5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

<p>Do you propose to clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt bioregions?</p>	<p><input type="checkbox"/> Yes – complete section below</p> <p><input type="checkbox"/> I have had a pre-application meeting with DWER/DEMIRS</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 5px; width: 30%;">Insert date of meeting and officer name(s):</td> <td style="width: 70%;"></td> </tr> </table> <p><input type="checkbox"/> I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.</p>	Insert date of meeting and officer name(s):	
Insert date of meeting and officer name(s):			

	Insert date of conversation and officer name(s):	
<p><input type="checkbox"/> I have not had a pre-application meeting with DWER/DEMIRS. I understand that this may increase the likelihood of requests for further information and/or delays in assessment.</p> <p><input checked="" type="checkbox"/> No – proceed to next question.</p>		

## Part 6 – Mitigation hierarchy

### 6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing – e.g. engineering solutions – did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)

The project was carefully planned to minimize the clearing of native vegetation by selecting locations that already had introduced plants and previously disturbed soils, or dominated by introduced species, such as regrowth and weeds. The design prioritized retaining as much native vegetation as possible, with only small, necessary areas being cleared for infrastructure upgrades.

There will be some impacts to land use in the area, however they are considered to be positive impact. In the southern section previous extensive flooding events have caused significant damage to the school and surrounding area, including vegetation downslope. The upgraded drainage infrastructure will reduce the impacts of major rainfall events to both infrastructure and natural areas. In the northern section, the land experiences significant erosion due to the flooding. The improved infrastructure will help control the water flows, reducing risk of further erosion.

Surrounding conservation reserves and ESAs – The project will involve approximately 1.07 ha of clearing within the Natural Heritage area at the

Silver City site for the installation of a larger drainage basin and associated infrastructure. The overall impact on the Natural Heritage area is considered to be insignificant given the minimal clearing requirement (approximately 0.007% of total Natural Heritage area on CI). Additionally, the vegetation GHD | Report for Department of Infrastructure, Regional Development & Cities - Christmas Island Stormwater Remediation Works, within this area is dominated by introduced shrubs, as outlined in the vegetation and flora results in attached *Clearing Support Document*.

Provide the mitigation details (e.g. management of weed spread, rehabilitation)

To reduce and manage the impacts of necessary clearing, the project will produce a Construction Environmental Management Plan during Planning Phase to provide a structured framework and strategies to guide construction activities in an environmentally responsible manner.

## 6.2 Offsets

Do you want to submit a clearing offset proposal with your form?  Yes  No

If 'Yes' – please complete and attach Appendix A of the *Clearing of native vegetation offsets procedure* guideline as a supporting document for your form.  Appendix A attached

## Part 7 – Surveys for assessments (IBSA and IMSA)

Do you want to submit marine or biodiversity surveys in support of your form?  Yes  No – skip to Part 8

### 7.1 Biodiversity surveys

If you want to submit any biodiversity surveys to support this form, you must follow the Environmental Protection Authority's (EPA) *Instructions for the preparation of data packages for the Index of Biodiversity Surveys for Assessments* (IBSA). If you do not meet the IBSA requirements, DWER/DEMIRS will decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DEMIRS. Please note DWER/DEMIRS will suspend the assessment timeframes for your application until you provide the IBSA number(s).

Have you submitted all the biodiversity surveys that support this form to the *Index of Biodiversity Surveys for Assessment*?  Yes  Not applicable

Provide an IBSA number (preferred) or a submission number(s)

### 7.2 Marine surveys

If you want to submit any marine surveys to support this form, you must follow the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for*

Assessments (IMSA). If you do not meet the IMSA requirements, DWER/DEMIRS will decline/return your form.

Have you prepared all the marine surveys that support this form in accordance with the EPA's *Instructions for the preparation of data packages for the Index of Marine Surveys for Assessments*?  Yes  Not applicable

## Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a '**controlled action**' before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's [guidance on the assessment bilateral agreement](#).

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?  Yes  No – skip to Part 9

Is your proposed clearing a controlled action?  Yes

If 'Yes', please make sure you have entered all the mandatory details in the [Annex C7 form](#)

EPBC number: 2019-8467 (not a controlled action attached)

Annex C7 form attached

No (DWER/DEMIRS cannot assess the application under an EPBC Act Accredited Process)

List the controlling provisions identified in the notification of the controlled action decision

## Part 9 – Other approvals

### 9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DEMIRS) considers the proposal in this form is likely to constitute a 'significant

proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.

Has the proposed clearing or any related matter been referred to the EPA?

Yes

Enter details:

No – complete question below.

If 'No' – do you intend to refer the proposal to the EPA?

Yes – intend to refer (proposal is a 'significant proposal')

Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement)

No – a current valid Ministerial Statement applies

Enter Ministerial Statement number:

No – not a significant proposal

## 9.2 Other approvals – works approval, licence or registration (Part V Division 3 of the EP Act)

Have you applied or do you intend to apply for a works approval, licence, registration or an amendment to any of the above, under Part V Division 3 of the EP Act?

Yes

Application reference:

It is an offence to perform any action that would cause a premises to become a prescribed premises of a type listed in Schedule 1 of the Environmental Protection Regulations 1987, unless that action is done in accordance with a works approval, licence or registration. For further guidance, see DWER's *Procedure: Prescribed premises works approvals and licences* and *Guideline: Industry regulation guide to licensing*.

No – a valid works approval applies

No – a valid licence applies

No – a valid registration applies

No – not required

## 9.3 Water licences and permits (*Rights in Water and Irrigation Act 1914*)

Have you applied or do you intend to apply for:

Yes

- a licence or amendment to a licence to take water (surface water or groundwater)

No – a current valid licence applies

- a licence or amendment to a licence to construct wells (including bores and soaks), or

Licence number:

- a permit or amendment to a permit to interfere with the bed and banks of a watercourse?

Not applicable

For further guidance on water licences and permits under the *Rights in Water and Irrigation*

Act 1914, see DWER's Procedure: Water licences and permits.

#### 9.4 Planning and other approvals

Has the proposal obtained all relevant planning approvals and/or have you applied for all relevant planning approvals (e.g. Development Approval, Extractive Industry Licence, etc.)?

Yes

Enter details:

No – planning approval is not required

Enter details:

Not applicable
