### 5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, “clearing of 5 hectares”.
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, “clearing of 10 trees”. If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m <sup>2</sup>	Area of circle = 3.14 x radius <sup>2</sup>
1 acre = 0.4 hectares/4,000 m <sup>2</sup>	Area of a rectangle = length x width
1 tree = 0.01 hectares/100 m <sup>2</sup>	Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	<b>0.41 hectares</b>	area revised to 0.33 hectares on digitising
Footprint of clearing (hectares) (purpose permit only)		
Number of individual trees to be cleared	<b>0</b>	

Note: Calculate the area of a tree based on the area encompassed by the tree’s drip line; that being the outermost circumference of the tree’s canopy.

### 5.3 Purpose

<p>Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.).</p> <p>If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).</p>	<p>The Shire has obtained Blackspot road funding to improve safety at the Evaside Rd / Stephans Rd intersection. The Blackspot project includes a Road Safety Inspection (RSI). Critical safety hazards, including obstructed sight lines and non-standard signage, necessitate the realignment of the Stephans Rd approach to Evaside Rd which requires vegetation removal. The clearing activities aim to facilitate road construction and improve safety conditions for road users.</p>
<p>Specify what the final land use will be after clearing</p>	<p>Road infrastructure corridor</p>

### 5.4 Method

<p>Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)</p>	<p>Mechanical Clearing</p>
--	----------------------------

### 5.5 Timeframe

<p>Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)</p>	<p>Start date: 01/03/2026. End date: 01/02/2028.</p>
--	--

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

### 5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt [Interim Biogeographic Regionalisation for Australia](#) (IBRA) bioregions has been extensive. DWER/DEMIRS strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

<p>Do you propose to clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt bioregions?</p>	<input type="checkbox"/> Yes – complete section below	
	<input type="checkbox"/> I have had a pre-application meeting with DWER/DEMIRS	
	<p>Insert date of meeting and officer name(s):</p>	
	<input type="checkbox"/> I have contacted DWER/DEMIRS in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.	

	Insert date of conversation and officer name(s):	
<input type="checkbox"/> I have not had a pre-application meeting with DWER/DEMIRS. I understand that this may increase the likelihood of requests for further information and/or delays in assessment.		
<input checked="" type="checkbox"/> No – proceed to next question.		

## Part 6 – Mitigation hierarchy

### 6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing – e.g. engineering solutions – did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DEMIRS will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DEMIRS as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)	<p>Realignment of the Stephans Rd approach to Evaside Rd was identified in the Road Safety Inspection (RSI) to provide an improved level of safety for vehicle movements through the intersection. The requirement for clearing is a consequence of realigning Stephans Rd to the west to ensure it intersects Evaside Rd at 90 deg. Any realignment to the west will involve clearing.</p> <p>The length of realignment has been mitigated by choosing a smaller horizontal curve. If a larger horizontal curve was incorporated into the Stephans Rd realignment, this would result in a large length of realignment which would result in a larger amount of clearing.</p> <p>Consideration was given to realigning Stephans Rd to the east through the private paddock which is already cleared. However, this would require a significant increase in the length of road realignment and result in a less desirable road alignment.</p>
--	--

Provide the mitigation details (e.g. management of weed spread, rehabilitation)	<p>The realignment of the Stephans Rd approach to Evaside Rd has been designed by the Shire's engineering consultant. Based on the road design model, only sufficient pavement has been detailed to ensure safe movement of vehicles through the intersection.</p> <p>Based on the detailed road design model, the minimum amount of clearing has been determined. The limits of clearing will be set out onsite by an engineering surveyor which will ensure that only the minimum amount of clearing is undertaken.</p>

If you do not meet the IBSA requirements, DWER/DEMIRS will decline/return your form.

Please provide the IBSA number(s) – or submission number(s) if the IBSA number has not yet been issued – in the space provided. Note that a submission number is not confirmation that a biodiversity survey has been accepted and is not the same as an IBSA number. IBSA numbers are only issued once a survey has been accepted. Once an IBSA number is issued, please notify DWER/DEMIRS. Please note DWER/DEMIRS will suspend the assessment timeframes for your application until you provide the IBSA number(s).

### Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a '**controlled action**' before you submit this form. DWER/DEMIRS will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's [guidance on the assessment bilateral agreement](#).

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No – skip to Part 9

### Part 9 – Other approvals

#### 9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DEMIRS) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.

<p>Has the proposed clearing or any related matter been referred to the EPA?</p>	<p><input type="checkbox"/> Yes</p> <p>Enter details: <input type="text"/></p> <p><input checked="" type="checkbox"/> No – complete question below.</p>
<p>If 'No' – do you intend to refer the proposal to the EPA?</p>	<p><input type="checkbox"/> Yes – intend to refer (proposal is a 'significant proposal')</p> <p><input type="checkbox"/> Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement)</p> <p><input type="checkbox"/> No – a current valid Ministerial Statement applies</p> <p>Enter Ministerial Statement number: <input type="text"/></p> <p><input checked="" type="checkbox"/> No – not a significant proposal</p>

### 9.2 Other approvals – works approval, licence or registration (Part V Division 3 of the EP Act)

<p>Have you applied or do you intend to apply for a works approval, licence, registration or an amendment to any of the above, under Part V Division 3 of the EP Act?</p> <p>It is an offence to perform any action that would cause a premises to become a prescribed premises of a type listed in Schedule 1 of the Environmental Protection Regulations 1987, unless that action is done in accordance with a works approval, licence or registration. For further guidance, see DWER's <a href="#">Procedure: Prescribed premises works approvals and licences</a> and <a href="#">Guideline: Industry regulation guide to licensing</a>.</p>	<p><input type="checkbox"/> Yes</p> <p>Application reference: <input type="text"/></p> <p><input type="checkbox"/> No – a valid works approval applies</p> <p><input type="checkbox"/> No – a valid licence applies</p> <p><input type="checkbox"/> No – a valid registration applies</p> <p><input checked="" type="checkbox"/> No – not required</p>
