

CLEARING PERMIT

Granted under section 51E of the Environmental Protection Act 1986

PERMIT DETAILS

Area Permit Number: 1685/1

File Number: DEC 1608

Duration of Permit: From 8 July 2007 to 8 July 2009

PERMIT HOLDER

Mark William Giles

LAND ON WHICH CLEARING IS TO BE DONE

LOT 23 ON PLAN 25332

AUTHORISED ACTIVITY

- 1 Clearing of up to 1.03 hectares of native vegetation within the area shaded yellow on attached Plan 1685/1(a) and Plan 1685/1(b).

CONDITIONS

1 Revegetation

The Permit Holder must *revegetate* all the area shaded red on Plan 1685/1(a) in accordance with the following:

- (a) The *revegetation* is to commence before July 2008 and be completed by September 2008 except for any reseeded required because of plant failure. The permit holder must *revegetate* the area by:
 - (i) Deliberately planting and/or seeding native vegetation that will result in a similar species composition, structure, density and condition of native vegetation to pre-clearing vegetation types in that area;
 - (ii) Ensuring only local provenance seeds and propagating material from within 10km of the area cleared are used to *revegetate* the area;
- (b) Within one year of undertaking *revegetation* in accordance with condition 1(a), the Permit Holder must:
 - (i) Determine the species composition, structure, density and condition of the area revegetated; and
 - (ii) Where, in the opinion of an *flora specialist*, the composition structure, density and condition determined under condition (b)(i) will not result in a similar species composition, structure and density to pre-clearing vegetation types in that area the Permit Holder must undertake additional planting or seeding of native vegetation in accordance with the requirements of condition 1(a).

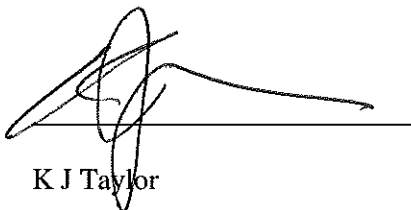

- (c) The Permit Holder must construct a fence enclosing the area cross-hatched red on attached Plan 1685/1(a). The fence shall be constructed and maintained so as to be adequate to exclude stock access. Construction of the fence shall be completed prior to undertaking any *revegetation*.

2 Definitions

The following meanings are given to terms used in this Permit:

flora specialist means a person with specific training and/or field experience (including good identification and taxonomy skills) in the ecology and taxonomy of Western Australian flora;

revegetation means the re-establishment of a cover of native vegetation in an area such that the species composition, structure and density is similar to pre-clearing vegetation types in that area, and can involve regeneration, direct seeding and/or planting;

A handwritten signature in black ink, appearing to read 'K J Taylor', is written over a horizontal line.
