

GOVERNMENT OF
WESTERN AUSTRALIA

CLEARING PERMIT

Granted under section 51E of the Environmental Protection Act 1986

PERMIT DETAILS

Purpose Permit Number: 3581 / 1
File Number: A0335/201001
Duration of Permit: From 1 May 2010 to 1 May 2015

PERMIT HOLDER

Beadell Resources Limited

LAND ON WHICH CLEARING IS TO BE DONE

Exploration Licence 69/2066
Exploration Licence 69/2067

PURPOSE FOR WHICH THE CLEARING MAY BE DONE

1. Clearing for the purposes of mineral exploration.

CONDITIONS

Type of clearing authorised

1. The Permit Holder must not clear more than 4.5 hectares of native vegetation. All clearing must be within the area cross-hatched yellow on attached Plan 3581/1.

Avoid, minimise etc clearing

2. In determining the amount of native vegetation to be cleared authorised under this Permit, the Permit Holder must have regard to the following principles, set out in order of preference:
 - (i) avoid the clearing of native vegetation;
 - (ii) minimise the amount of native vegetation to be cleared; and
 - (iii) reduce the impact of clearing on any environmental value.

Weed control

3. When undertaking any clearing or other activity authorised under this Permit, the Permit Holder must take the following steps to minimise the risk of the introduction and spread of *weeds*:
 - (i) clean earth-moving machinery of soil and vegetation prior to entering and leaving the area to be cleared;
 - (ii) ensure that no weed-affected soil, *mulch*, *fill* or other material is brought into the area to be cleared; and
 - (iii) restrict the movement of machines and other vehicles to the limits of the areas to be cleared.

Fauna management

4. (a) Prior to undertaking any clearing authorised under this Permit, the area(s) shall be inspected by a *fauna specialist* for the presence of *Macrotis lagotis* (Bilby) burrows; *Dasycerus cristicauda* (Mulgara) burrows; and *Leipoa ocellata* (Malleefowl) mounds.

(b) Where mounds and burrows are identified in relation to Condition 4(a) of this Permit, the Permit Holder shall ensure that no clearing occurs within 50 metres of the identified mounds and burrows.

5. (a) Prior to undertaking any clearing authorised under this Permit, the area(s) shall be inspected by a *fauna specialist*, in accordance with *Guidance Statement No 56*, for the presence of fauna listed in the *Wildlife Conservation (Specially Protected Fauna) Notice 2010*.
- (b) Prior to clearing, the Permit Holder shall engage a *fauna clearing person* to remove and relocate fauna identified under Condition 5(a).

Flora management

6. (a) Prior to undertaking any clearing authorised under this Permit, the Permit Holder shall engage a *botanist*, in accordance with *Guidance Statement No 51*, to inspect that area for the presence of rare flora listed in the *Wildlife Conservation (Rare Flora) Notice 2010* and *priority flora*.
- (b) Where rare flora and *priority flora* are identified in relation to Condition 6(a) of this Permit, the Permit Holder shall ensure that:
- (i) all records of rare flora and *priority flora* are submitted to the Director, Environment Division, Department of Mines and Petroleum;
 - (ii) no clearing occurs within 50 metres of identified rare flora, unless approved by the Director, Environment Division, Department of Mines and Petroleum; and
 - (iii) no clearing occurs with 10 metres of identified *priority flora*, unless approved by the Director, Environment Division, Department of Mines and Petroleum.

Records to be kept

7. The Permit Holder must maintain the following records for activities done pursuant to this Permit:
- (a) In relation to the clearing of native vegetation authorised under this Permit:
- (i) the location where the clearing occurred, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings;
 - (ii) the date that the area was cleared;
 - (iii) the size of the area cleared (in hectares); and
 - (iv) purpose for which clearing was undertaken.
- (b) In relation to fauna management pursuant to Condition 4 of this Permit, the location of each *Macrotis lagotis* (Bilby) burrow; *Dasycerus cristicauda* (Mulgara) burrow; and *Leipoa ocellata* (Malleefowl) mound recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings.
- (c) In relation to fauna management pursuant to Condition 5 of this Permit:
- (i) the location of each species of fauna identified, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings; and
 - (ii) the species name of each taxa identified.
- (d) In relation to flora management pursuant to Condition 6 of this Permit:
- (i) the location of each rare flora and *priority flora* recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings; and
 - (ii) the species name of each rare flora and *priority flora* identified.

Reporting

8. (a) The Permit Holder shall provide a report to the Director, Environment Division, Department of Mines and Petroleum by 31 July each year for the life of this permit, demonstrating adherence to all conditions of this permit, and setting out the records required under Condition 7 of this permit in relation to clearing carried out between 1 July and 30 June of the previous financial year.
- (b) Prior to 1 May 2015, the Permit Holder must provide to the Director, Environment Division, Department of Mines and Petroleum a written report of records required under Condition 7 of this Permit where these records have not already been provided under Condition 8(a) of this Permit.

Definitions

The following meanings are given to terms used in this Permit:

botanist means a person with specific training and/or experience in the ecology and taxonomy of Western Australian flora;

Guidance Statement No. 51 means the Environmental Protection Authority Guidance Statement No 51, Guidance for the Assessment of Environmental Factors - Terrestrial Flora and Vegetation Surveys for Environmental Impact Assessment in Western Australia (2004);

Guidance Statement No 56 means Guidance for the Assessment of Environmental Factors: Terrestrial Fauna Surveys for Environmental Impact Assessment in Western Australia. Guidance Statement No 56, Environmental Protection Authority (2004).

fauna clearing person means a person who has obtained a licence from the *Department of Environment and Conservation*, issued pursuant to the *Wildlife Conservation Regulations 1970* authorising them to take fauna;

fauna specialist means a person with training and specific work experience in fauna identification or faunal assemblage surveys of Western Australian fauna;

fill means material used to increase the ground level, or fill a hollow;

mulch means the use of organic matter, wood chips or rocks to slow the movement of water across the soil surface and to reduce evaporation;

priority flora taxa means those plant taxa that described as priority flora classes 1, 2, 3 or 4 in the *Department of Environment and Conservations Declared Rare and Priority Flora List for Western Australia* (as amended);

weed means a species listed in Appendix 3 of the "Environmental Weed Strategy" published by the Department of Conservation and Land Management (1999), and plants declared under section 37 of the *Agriculture and Related Resources Protection Act 1976*.
