Application for an amendment to a clearing permit

Environmental Protection Act 1986 s 51M

FORM C4

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

Part 2 Proposed changes

Additional information to support the assessment of your application to amend may be attached.

If you are applying on behalf of the Permit Holder, please attach your agent's authority expressly authorising you to act on behalf of the Permit Holder.

Please ensure you have included the following as part of your application:

- A completed application form that is signed and dated by the permit holder,
- A photocopy of the granted Clearing Permit, with proposed changes highlighted; and

Please tick below the proposed change(s) to your Clearing Permit:

- extend the duration of the permit;
- vary a due date of complying with a permit condition;
- amend the size of the area permitted to be cleared, or remove a land parcel listed on the permit;
- correct a clerical error or make an administrative change; or
- other.

Details of proposed changes:

Extend the duration of the existing clearing permit to facilitate the continued excavation of sand from the site. It is proposed that the clearing permit is extended for a further 5 years.

Expand the area where clearing is permitted to the north of the existing permit area. The increase in the size in the permit area will increase the area of the clearing permit by approximately 3.6ha. The increase in the size will facilitate the extraction of additional sand resources from the site.
