

## CLEARING PERMIT

*Granted under section 51E of the Environmental Protection Act 1986*

**Purpose Permit number:** 4594/2  
**Duration of Permit:** From 07 January 2012 to 31 July 2021  
**Permit Holder:** Hamersley Iron Pty Ltd

The Permit Holder is authorised to clear native vegetation subject to the following conditions of this Permit.

### PART I - CLEARING AUTHORISED

1. **Land on which clearing is to be done**  
*Iron Ore (Hamersley Range) Agreement Act 1968, Mineral Lease 246SA (AML 70/246)*
2. **Purpose for which clearing may be done**  
Clearing for the purpose of mineral exploration and geotechnical investigations.
3. **Area of Clearing**  
The Permit Holder must not clear more than 220 hectares of native vegetation. All clearing must be within the area cross-hatched yellow on attached Plan 4594/2.
4. **Period in which clearing is authorised**  
The Permit Holder shall not clear any native vegetation after 31 July 2016.
5. **Clearing not authorised**  
The Permit Holder shall not clear any native vegetation within the area shaded red on attached Plan 4594/2.
6. **Application**  
This Permit allows the Permit Holder to authorise persons, including employees, contractors and agents of the Permit Holder, to clear native vegetation for the purposes of this Permit subject to compliance with the conditions of this Permit and approval from the Permit Holder.

### PART II - MANAGEMENT CONDITIONS

7. **Weed control**  
When undertaking any clearing or other activity authorised under this Permit, the Permit Holder must take the following steps to minimise the risk of the introduction and spread of *weeds*:
  - (i) clean earth-moving machinery of soil and vegetation prior to entering and leaving the area to be cleared;
  - (ii) ensure that no *weed*-affected soil, *mulch*, *fill* or other material is brought into the area to be cleared; and
  - (iii) restrict the movement of machines and other vehicles to the limits of the areas to be cleared.

## 8. Flora management

Where *Aluta quadrata* have been identified and their written locations provided to the CEO, the Permit Holder shall ensure that:

- (i) No clearing of identified *Aluta quadrata* occurs and no clearing occurs within 10 metres of identified *Aluta quadrata*, unless approved by the CEO.

## 9. Fauna management

- (a) Prior to undertaking any clearing authorised under this Permit, the Permit holder shall engage a *fauna specialist* to identify habitat suitable for:

- (i) *Dasyurus hallucatus* (Northern Quoll) dens;
- (ii) *Rhinionictes aurantius* (Pilbara Orange Leaf-nosed Bat roost caves and adits); and
- (iii) *Macroderma gigas* (Ghost Bat) roost caves.

- (b) Prior to undertaking any clearing within or within 50 metres of habitat considered suitable for dens or roosts as identified in relation to Condition 9(a) of this Permit, the areas shall be inspected by a *fauna specialist* for the presence of *Dasyurus hallucatus* (Northern Quoll) dens, *Rhinionictes aurantius* (Pilbara Orange Leaf-nosed Bat) roost caves and adits or *Macroderma gigas* (Ghost Bat) roost caves.

- (c) Where *Dasyurus hallucatus* (Northern Quoll) dens, *Rhinionictes aurantius* (Pilbara Orange Leaf-nosed Bat) roost caves and adits or *Macroderma gigas* (Ghost Bat) roost caves are identified in relation to Condition 9(b) of this Permit, the Permit Holder shall ensure that no clearing occurs within 50 metres of the identified *Dasyurus hallucatus* (Northern Quoll) dens, *Rhinionictes aurantius* (Pilbara Orange Leaf-nosed Bat) roost caves and adits or *Macroderma gigas* (Ghost Bat) roost caves, unless approved by the CEO.

## 10. Retain vegetative material and topsoil, revegetation and rehabilitation

The Permit Holder shall:

- (a) retain the vegetative material and topsoil removed by clearing authorised under this Permit and stockpile the vegetative material and topsoil in an area that has already been cleared;

- (b) within 12 months following completion of clearing authorised under this permit, *revegetate* and *rehabilitate* the areas that are no longer required for the purpose for which they were cleared under this Permit by:

- (i) re-shaping the surface of the land so that it is consistent with the surrounding 5 metres of uncleared land;
- (ii) ripping the ground on the contour to remove soil compaction; and
- (iii) laying the vegetative material and topsoil retained under Condition 10(a) on the cleared area.

- (c) within 4 years of undertaking *revegetation* and *rehabilitation* in accordance with Condition 10(b) of this Permit:

- (i) engage an *environmental specialist* to determine the species composition, structure and density of the area *revegetated* and *rehabilitated*; and
- (ii) where, in the opinion of an *environmental specialist*, the composition structure and density determined under Condition 10(c)(i) of this Permit will not result in a similar species composition, structure and density to that of pre-clearing vegetation types in that area, *revegetate* the area by deliberately *planting* and/or *direct seeding* native vegetation that will result in a similar species composition, structure and density of native vegetation to pre-clearing vegetation types in that area and ensuring only *local provenance* seeds and propagating material are used.

### **PART III - RECORD KEEPING AND REPORTING**

#### **11. Records to be kept**

The Permit Holder must maintain the following records for activities done pursuant to this Permit:

- (a) In relation to the clearing of native vegetation authorised under this Permit,
  - (i) the location where the clearing occurred, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings or decimal degrees;
  - (ii) the date that the area was cleared;
  - (iii) the size of the area cleared (in hectares); and
  - (iv) purpose for which clearing was undertaken.
- (b) In relation to fauna management pursuant to Condition 9 of this Permit:
  - (i) the location of each habitat identified recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings or decimal degrees;
  - (ii) the species name of fauna reasonably likely to utilise, or that have been observed utilising the habitat; and
  - (iii) a copy of the *fauna specialist's* report.
- (c) In relation to the revegetation and rehabilitation of areas pursuant to Condition 10 of this Permit:
  - (i) the location of any areas *revegetated* and *rehabilitated*, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings or decimal degrees;
  - (ii) a description of the *revegetation* and *rehabilitation* activities undertaken; and
  - (iii) the size of the area *revegetated* and *rehabilitated* (in hectares).

#### **12. Reporting**

- (a) The Permit Holder shall provide a report to the Director Operations, Environment, Department of Mines and Petroleum by 31 July each year for the life of this permit, demonstrating adherence to all conditions of this permit, and setting out the records required under Condition 11 of this permit in relation to clearing carried out between 1 July and 30 June of the previous financial year.
- (b) Prior to 31 July 2021, the Permit Holder must provide to the Director Operations, Environment, Department of Mines and Petroleum a written report of records required under Condition 11 of this Permit where these records have not already been provided under Condition 12(a) of this Permit.

### **DEFINITIONS**

The following meanings are given to terms used in this Permit:

*CEO* means the Chief Executive Officer of the Department of Environment Regulation or an officer with delegated authority under Section 20 of the *Environmental Protection Act 1986*.

*fauna specialist* means a person who holds a tertiary qualification specialising in environmental science or equivalent, and has a minimum of 2 years work experience in fauna identification and surveys of fauna native to the region being inspected or surveyed, or who is approved by the *CEO* as a suitable fauna specialist for the bioregion, and who holds a valid fauna licence issued under the *Wildlife Conservation Act 1950*;

*direct seeding* means a method of re-establishing vegetation through the establishment of a seed bed and the introduction of seeds of the desired plant species;

*environmental specialist* means a person who is engaged by the Permit Holder for the purpose of providing environmental advice, who holds a tertiary qualification in environmental science or equivalent, and has experience relevant to the type of environmental advice that an environmental specialist is required to provide under this Permit;

*fill* means material used to increase the ground level, or fill a hollow;

*local provenance* means native vegetation seeds and propagating material from natural sources within 200 kilometres and the same Interim Biogeographic Regionalisation for Australia (IBRA) subregion of the area cleared;

*mulch* means the use of organic matter, wood chips or rocks to slow the movement of water across the soil surface and to reduce evaporation;

*planting* means the re-establishment of vegetation by creating favourable soil conditions and planting seedlings of the desired species;

*regenerate/ed/ion* means re-establishment of vegetation from in situ seed banks and propagating material (such as lignotubers, bulbs, rhizomes) contained either within the topsoil or seed-bearing *mulch*;

*rehabilitate/ed/ion* means actively managing an area containing native vegetation in order to improve the ecological function of that area;

*revegetate/ed/ion* means the re-establishment of a cover of *local provenance* native vegetation in an area using methods such as natural *regeneration*, *direct seeding* and/or *planting*, so that the species composition, structure and density is similar to pre-clearing vegetation types in that area;

*weeds* means any plant -

- (a) that is declared pest under the section 22 of the *Biosecurity and Agriculture Management Act 2007*; or
- (b) published in the Department of Parks and Wildlife Regional Weed Rankings Summary, regardless of ranking; or
- (c) not indigenous to the area concerned.
