Part 2 Proposed changes

Additional Information to support the assessment of your application to amend may be attached.

If you are applying on behalf of the Permit Holder, please attach your agent's authority expressly authorising you to act on behalf of the Permit Holder.

Please ensure you have included the following as part of your application:

- A completed application form that is signed and dated by the permit holder,
- A photocopy of the granted Clearing Permit, with proposed changes highlighted; and
- Payment

Please tick below the proposed change(s) to your Clearing Permit:

- ☒ extend the duration of the permit;
- ☒ vary a due date of complying with a permit condition;
- ☒ amend the size of the area permitted to be cleared, or remove a land parcel listed on the permit;
- ☒ correct a clerical error or make an administrative change; or
- ☒ other.

Details of proposed changes:

Alter the requirement of condition 4(c) to fence the area hatched blue (area of retained vegetation) on Plan 5029/1a. Koppers Wood Products request that fencing not be constructed around the entirety of the area of retained vegetation. It is proposed that fencing be constructed on the boundaries that lie adjacent to the operational areas of the wood processing facility, namely Lot 520 on Plan 301384 and Lot 5054 on Plan 173762 (see attached figure). Fencing would not be constructed on the boundary that lies adjacent to Lot 103 on Plan 1961 in order to provide a more effective ecological linkage between the area of retained vegetation and the proposed rehabilitation area required under this Clearing Permit.
