1. Application details

1.1. Permit application details

Permit application No.: CPS 5156/1
 Permit type: Area Permit

1.2. Proponent details

Proponent's name: Shire of Serpentine Jarrahdale

1.3. Property details

Property: ROAD RESERVE (BYFORD 6122)
 Local Government Area: Shire of Serpentine Jarrahdale
 Colloquial name: Abernethy Road

1.4. Application

Clearing Area (ha)	No. Trees	Method of Clearing	For the purpose of:
0.02		Mechanical Removal	Road construction or maintenance

1.5. Decision on application

Decision on Permit Application: Grant
 Decision Date: 30 August 2012

2. Site Information

2.1. Existing environment and information

2.1.1. Description of the native vegetation under application

Vegetation Description	Mapped Beard vegetation association 968 is described as 'Medium woodland; jarrah, marri & wandoo' (Sheperd et al. 2001).	Vegetation Condition	Degraded: Structure severely disturbed; regeneration to good condition requires intensive management (Keighery 1994).
-------------------------------	--	-----------------------------	---

3. Assessment of application against clearing principles, planning instruments and other relevant matters

Comments Consideration has been given to impacts to biodiversity, significant fauna habitat, rare flora, threatened ecological communities, remnant vegetation values, wetlands, watercourses, land degradation, surface water quality, groundwater quality, and flooding. The assessment has found that the clearing under application is not likely to be at variance to all clearing principles.

The clearing is for the purpose of Road reconstruction and the construction of a round about. No submissions have been received.
