The vegetatin under application consists of scattered native shrubs and ground covers (Shire of Roebourne 2012).	Degraded: Structure severely disturbed; regeneration to good condition requires intensive management (Keighery 1994).

## 3. Assessment of application against clearing principles, planning instruments and other relevant matters

**Comments** Consideraton has been given to impacts to biodiversity, significant fauna habitat, rare flora, threatend ecological communities, remnant vegetation values, wetlands, watercourses, land degradation, surface water quality, groundwater quality, and flooding. The assessment has found that the clearing under application is not likely to be at variance to all clearing principles.

The clearing is for the purpose of extending water and sewer lines. No submissions have been received.
