Clearing Permit Decision Report

Government of Western Australia
Department of Environment Regulation

1. Application details

1.1. Permit application details

Permit application No.: 5483/2
Permit type: Area Permit

1.2. Proponent details

Proponent's name: Allan John Deane

1.3. Property details

Property: LOT 15 ON PLAN 75677 (WANDERING 6308)
Local Government Area: Shire of Wandering
Colloquial name:

1.4. Application

Clearing Area (ha)	No. Trees	Method of Clearing	For the purpose of:
2.31		Mechanical Removal	Horticulture, Grazing & Pasture, Hazard reduction or fire control
0.1		Mechanical Removal	Horticulture, Grazing & Pasture, Hazard reduction or fire control

1.5. Decision on application

Decision on Permit Application: Grant
Decision Date: 13 February 2014

2. Site Information

2.1. Existing environment and information

2.1.1. Description of the native vegetation under application

Vegetation Description	Clearing Description	Vegetation Condition	Comment
Mapped Beard vegetation association 352: Medium woodland; York gum (Shepherd et al, 2001) Mattiske vegetation complex Michibin (Mi): Open woodland of Eucalyptus wandoo over Acacia acuminata with some Eucalyptus loxophleba on valley slopes, with low woodland of Allocasuarina huegeliana on or near shallow granite outcrops in arid and perarid zones (Mattiske and Havel, 1998).	The proposal is for clearing of 2.41 hectares for the purpose of orchard, grazing and fire protection zone within Lot 15 on Deposited Plan 75677, Wandering within the Shire of Wandering.	Degraded: Structure severely disturbed; regeneration to good condition requires intensive management (Keighery 1994)	The application is to clear 2.31 hectares for the purpose of orchards, grazing and a fire protection zone. The vegetation under application comprises mainly of Wandoo woodland with very little understory and ground cover. The vegetation under application has been impacted upon from grazing and is considered to be in a degraded (Keighery, 1994) condition. The condition of the vegetation under application was obtained via aerial imagery and photos submitted with the clearing permit application.

3. Assessment of application against clearing principles

Comments

This amendment has been made to increase the clearing footprint and clearing size by 0.1 hectare, extend the permit duration until May 2018 and update the land description.

The assessment against the clearing principles has not changed and can be found in Decision Report CPS 5483/1.

Methodology

Planning instrument, Native Title, Previous EPA decision or other matter.

Comments

The assessment against Planning and Other Matters has not changed and can be found in Decision Report CPS 5483/1.
