

CLEARING PERMIT

Granted under section 51E of the Environmental Protection Act 1986

Purpose Permit number:	CPS 5733/1
Permit Holder:	Shire of Boyup Brook
Duration of Permit:	12 October 2013 – 12 October 2018

The Permit Holder is authorised to clear native vegetation subject to the following conditions of this Permit.

1. Purpose for which clearing may be done

Clearing for the purpose of road widening (reconstruction).

2. Land on which clearing is to be done

Jayes Road reserve (PIN 11478309)

3. Area of Clearing

The Permit Holder must not clear more than 8 native trees within the area hatched yellow on attached Plan 5733/1.

4. Application

This Permit allows the Permit Holder to authorise persons, including employees, contractors and agents of the Permit Holder, to clear native vegetation for the purposes of this Permit subject to compliance with the conditions of this Permit and approval from the Permit Holder.

5. Type of clearing authorised

This Permit authorises the Permit Holder to clear native vegetation for the activities described in condition 1 of this Permit to the extent that the Permit Holder has the power to carry out works involving clearing for those activities under the *Local Government Act 1995* or any other written law.

M Warnock
MANAGER
NATIVE VEGETATION CONSERVATION BRANCH

*Officer delegated under Section 20
of the Environmental Protection Act 1986*

12 September 2013

1. Application details

1.1. Permit application details

Permit application No.: CPS 5733/1
Permit type: Purpose

1.2. Proponent details

Proponent's name: Shire of Boyup Brook

1.3. Property details

Property: JayesRoad Reserve (PIN 11478309), Boyup Brook

Local Government Area: Boyup Brook

Colloquial name: Jayes Road Reserve

1.4. Application

Clearing Area (ha)	No. Trees	Method of Clearing	For the purpose of:
	8	Mechanical	Road widening (reconstruction)

1.5. Decision on application

Decision on Permit Application: Grant

Decision Date: 12 September 2013

2. Site Information

2.1. Existing environment and information

2.1.1. Description of the native vegetation under application

Vegetation Description

The vegetation under application is mapped as Beard vegetation association 992 (Bridgetown) which is described as Medium forest; jarrah & wandoo (*Eucalyptus wandoo*).

Vegetation Condition

Good: Structure significantly altered by multiple disturbance; retains basic structure/ability to regenerate (Keighery 1994)

3. Assessment of application against clearing principles, planning instruments and other relevant matters

Comments Consideration has been given to impacts to biodiversity, significant fauna habitat, rare flora, threatened ecological communities, remnant vegetation values, wetlands, watercourses, land degradation, surface water quality, groundwater quality, and flooding. The assessment has found that the clearing under application is not likely to be at variance to all clearing principles.

The proposal is to clear 8 native trees to facilitate road widening. The proposal does not exceed the recommendations set out under the Australian Road Standards for road widths and recovery zones (Austroads Guide to Road Design, Part 6: Roadside Design, Safety and Barriers (2009)).

No submissions have been received on this application to clear.
