

To support our clearing application we have supplied some photographs of the area which shows two semi large trees which would be utilised for fence posts or cut into planks if suitable to be used on site. We are not going to completely clear the area.

We have picked this location as it is next to the main driveway, reasonably flat and partly cleared. It is also not susceptible to flooding or salinity. We are looking at clearing .5 hectare for house and shed construction and fire break area.

We have marked on the map an offset on the south facing slope that will be revegetated when the Blue gums have been harvested to minimise soil erosion (about 5 hectares) with native understorey species as you can see the total offset is much larger than the area we would like to clear.

Map included Loc no; 3881, 1498 Muir highway Manjimup

Yours faithfully

Keith & Sharon Miller
