February 2014

Purpose of clearing

To allow for the construction of a 20,000 m3 dam. The dam will fill from the existing rock catchment in close proximity. The dam is required to further drought proof the Pingaring area and townsite as at present, following a low rainfall season, farmers and residents place undue pressure on the comprehensive water supply standpipe located to the west in the Pingaring townsite.

Both Water Corporation and the Department of Water fully support the dam construction.

Part 3 Applicant

To apply for a permit you must either be:

- the landowner; or
- have the authority of the landowner to access the land and undertake the clearing.

If granted, the permit will be issued in the name of the applicant.

Are you applying as an individual, a company or an incorporated body? – Enter details for one only (**please print**).
