

Application for a clearing permit (purpose permit)

Environmental Protection Act 1986 s 51E

FORM C2

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

Date stamp

Part 1 Land details

The location of the land where clearing is proposed must be accurately described.

Land description: Volume and Folio number; Lot or location number(s), Crown Lease or Reserve number, Pastoral Lease number or Mining Tenement number of all properties where clearing is proposed.

Volume: LR3154 Folio: 888
Lot 331 on Deposited Plan 57505
Part Reserve 49363 for the purpose of Conservation Park
83 Nicholson Road Ferndale

FILE REFERENCE

Local government area

City of Canning

Part 2 Proposal

An aerial photograph or map with a north arrow **must** be attached, clearly marking the area proposed to be cleared. **or** If you have the facilities, a digital map on CDROM of the area to clear in **one** of the following formats:

- ESRI Shapefile** with the following properties:
 - Geometry Type:** Polygon shape
 - Coordinate System:** GCS GDA 1994 (Geographic latitude/longitude)
 - Datum:** GDA 1994 (Geocentric Datum of Australia 1994).
- Autocad 2000** or earlier; or
- Microstation 8** or earlier.

Total area of clearing proposed (hectares)

less than 8m2 of sedges plus impact on two trees (non-lethal root damage expected)

Proposed method of clearing

excavator to lift and transplant 4-8m2 of sedges. 2 trees will sustain some root damage (non-lethal) during digging of trench by excavator plus pruning by chainsaw (where reqd).

Period within which clearing is proposed to be undertaken, e.g. May 2010–June 2010

March to June 2014

Purpose of clearing

The Swan River Trust are installing a river oxygenation plant at this location. Intake and discharge pipework will be laid through the riverbank. The path for the pipes was chosen to minimise damage to the limited riparian vegetation and as such the trench (2m wide by 1m deep) for the pipes will pass between two Melaleuca trees, exiting the riverbank through some sparse sedges, predominantly Typha. The sedges will be transplanted nearby. The trenching for the pipes will impact on the roots of the two trees, plus their branches may require minor (non-lethal) pruning to enable a crane arm access for pipe placement in the river. Pruning will be avoided if possible.

Part 3 Applicant

To apply for a permit you must either be:

- the landowner; or
- have the authority of the landowner to access the land and undertake the clearing.

If granted, the permit will be issued in the name of the applicant.

Are you applying as an individual, a company or an incorporated body? – Enter details for one only (**please print**).

An individual – applicant's given names, Family name and title (Mr, Mrs, Ms, etc)

A company or incorporated body name (Note: companies **must** supply an Australian Company Number - ACN)

Swan River Trust ABN: 35439318953

Ownership of land

- A landowner can be:
- a person who holds the Certificate of Title;
 - a person who is the lessee of Crown land, or
 - a public authority that is responsible for care of the land.

Full name of **all** landowners as they appear on the Certificate of Title (**please print**)

(1) Primary Holder: Conservation Commission of WA
Responsible Agency: Department of Parks and Wildlife

(2)

If more than one Certificate of Title, please include details on a separate sheet.
