

Application for a clearing permit (area permit)

Environmental Protection Act 1986 s 51E

FORM C1

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

CPS No. 6568/1

Part 1 Assessment bilateral agreement

The native vegetation clearing processes under Part V of the Environmental Protection Act 1986 (EP Act) have been accredited by the Commonwealth of Australia under the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act) and can be assessed under an assessment bilateral agreement.

To be assessed under the assessment bilateral agreement, the proposed clearing action must be referred to the Commonwealth under the EPBC Act prior to submitting this application form and Annex C7 must also be completed.

For further information see Annex C7 and A guide to native vegetation clearing processes under the assessment bilateral agreement available at www.der.wa.gov.au/nvp.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?
 Yes No Proceed to Part 2

Has the proposed clearing action been referred to the Commonwealth of Australia under the EPBC Act?

Yes EPBC Number

No It cannot be assessed under an Accredited Process such as the assessment bilateral agreement until it has been referred to the Commonwealth. Proceed to Part 2.

Has a decision been made under the EPBC Act as to whether the proposed clearing action is a controlled action?

Yes No Proceed to Part 2

Is the proposed clearing action a controlled action under the EPBC Act?

No It cannot be assessed under an Accredited Process, proceed to Part 2

Yes Complete and attach the requirements of Annex C7 to this completed form

List the controlling provisions identified in the notification of the controlled action decision

Annex C7 is complete and the required supporting information is attached

Part 2 Land details

The location of the land where clearing is proposed must be accurately described.

Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number or mining tenement number or all properties

FILE REFERENCE

Part 3 Proposal

An aerial photograph or map with a north arrow must be attached, clearly marking the area proposed to be cleared or

if you have the facilities, a digital map on CDROM of the area to clear as an ESRI shapefile with the following properties:

- Geometry type: polygon shape
- Coordinate system: GDA 1994 (Geographic latitude/longitude)
- Datum: GDA 1994 (Geocentric Datum of Australia 1994)

Total area of clearing proposed (hectares)

0.65 ha

and/or number of individual trees to be removed

Proposed method of clearing

Bulldozer

Period within which clearing is proposed to be undertaken, e.g. May 2014 – June 2014

May 2015 – July 2016

If it rains too much in May, then the dam building will have to be delayed until 2016.

Purpose of clearing

To create a new dam for water supplies for stock on this location. There is not enough water to graze sheep on this location over the summer period. I want to graze underneath plantation trees and along creeklines and unplanted areas to reduce the fire hazard, but I am limited to winter grazing because of the lack of water supplies.
