

CLEARING PERMIT

Granted under section 51E of the Environmental Protection Act 1986

Purpose Permit number:	6689/4
Duration of Permit:	From 24 October 2015 to 31 December 2030
Permit Holder:	Robe River Limited

The Permit Holder is authorised to clear native vegetation subject to the following conditions of this Permit.

PART I - CLEARING AUTHORISED

- 1. Land on which clearing is to be done**
Iron Ore (Robe River) Agreement Act 1964, Mineral Lease 248SA (AML 70/248)
- 2. Purpose for which clearing may be done**
Clearing for the purposes of mineral exploration, a construction camp, hydrogeological and geotechnical investigations, mine support infrastructure, environmental investigations and associated works.
- 3. Area of Clearing**
The Permit Holder must not clear more than 620 hectares of native vegetation. All clearing must be within the areas shaded green, shaded red or cross-hatched yellow on attached Plans 6689/4A, 6689/4B, 6689/4C, 6689/4D, 6689/4E and 6689/4F.
- 4. Type of Clearing Authorised**
The Permit Holder shall not clear native vegetation unless the purpose of which the clearing is authorised is enacted within 6 months of the authorised clearing being undertaken.
- 5. Restricted Clearing – Fauna habitat management**
The Permit Holder shall only clear native vegetation within the areas shaded red on attached Plans 6689/4A, 6689/4C, 6689/4D, 6689/4E and 6689/4F for the purpose of access tracks.
- 6. Restricted Clearing – Priority ecological community management**
The Permit Holder shall not clear more than 222 hectares of native vegetation within the areas shaded green on attached Plans 6689/4A, 6689/4B, 6689/4C, 6689/4D, 6689/4E and 6689/4F.
- 7. Restricted Clearing – Fauna management**
The Permit Holder shall not clear any native vegetation within the areas shaded blue on attached Plans 6689/4A, 6689/4C and 6689/4D.
- 8. Period in which clearing is authorised**
The Permit Holder shall not clear any native vegetation after 31 December 2025.
- 9. Application**
This Permit allows the Permit Holder to authorise persons, including employees, contractors and agents of the Permit Holder, to clear native vegetation for the purposes of this Permit subject to compliance with the conditions of this Permit and approval from the Permit Holder.

PART II - MANAGEMENT CONDITIONS

10. Weed control

When undertaking any clearing or other activity authorised under this Permit, the Permit Holder must take the following steps to minimise the risk of the introduction and spread of *weeds*:

- (i) clean earth-moving machinery of soil and vegetation prior to entering and leaving the area to be cleared;
- (ii) ensure that no *weed*-affected soil, *mulch*, *fill* or other material is brought into the area to be cleared; and
- (iii) restrict the movement of machines and other vehicles to the limits of the areas to be cleared.

11. Vegetation management

- (a) Where practicable the Permit Holder shall avoid clearing *riparian vegetation*; and
- (b) Where a *watercourse* is to be impacted by clearing, the Permit Holder shall maintain the existing surface flow.

12. Retain and spread vegetative material and topsoil

The Permit Holder shall:

- (a) retain the vegetative material and topsoil removed by clearing authorised under this Permit and stockpile the vegetative material and topsoil in an area that has already been cleared.
- (b) within 12 months following completion of clearing authorised under this Permit, *revegetate* and *rehabilitate* the areas that are no longer required for the purpose for which they were cleared under this Permit by:
 - (i) re-shaping the surface of the land so that it is consistent with the surrounding 5 metres of uncleared land; and
 - (ii) laying the vegetative material and topsoil retained under Condition 12(a) on the cleared area.
- (c) within 4 years of laying the vegetative material and topsoil on the cleared area in accordance with Condition 12(b) of this Permit:
 - (i) engage an *environmental specialist* to determine the species composition, structure and density of the area *revegetated* and *rehabilitated*; and
 - (ii) where, in the opinion of an *environmental specialist*, the composition structure and density determined under Condition 12(c)(i) of this Permit will not result in a similar species composition, structure and density to that of pre-clearing vegetation types in that area, *revegetate* the area by deliberately *planting* and/or *direct seeding* native vegetation that will result in a similar species composition, structure and density of native vegetation to pre-clearing vegetation types in that area and ensuring only *local provenance* seeds and propagating material are used.

13. Retain and spread vegetative material and topsoil

The Permit Holder shall:

- (a) Revegetate and rehabilitate all areas of temporary disturbance cleared prior to 24 October 2015 within the areas shaded green, shaded red and crossed-hatched yellow on attached Plans 6689/4A, 6689/4B, 6689/4C, 6689/4D, 6689/4E and 6689/4F by:
 - (i) laying vegetative material and topsoil previously retained within the areas shaded green, shaded red and cross-hatched yellow on attached Plans 6689/4A, 6689/4B, 6689/4C, 6689/4D, 6689/4E and 6689/4F, on the cleared areas; and
 - (ii) ripping the ground on the contour to remove soil compaction.
- (b) Within 4 years of undertaking revegetation and rehabilitation in accordance with Condition 13(a) of this Permit:
 - (i) engage an environmental specialist to determine the species composition, structure and density of the area revegetated and rehabilitated; and
 - (ii) where, in the opinion of an environmental specialist, the composition structure and density determined under Condition 13(b)(i) of this Permit will not result in a similar species composition, structure and density to that of pre-clearing vegetation types in that area, revegetate the area by deliberately planting and/or direct seeding native vegetation that will result in a similar species composition, structure and density of native vegetation to pre-clearing vegetation types in that area and ensuring only local provenance seeds and propagating material are used.

PART III - RECORD KEEPING AND REPORTING

14. Records to be kept

The Permit Holder must maintain the following records for activities done pursuant to this Permit:

- (a) In relation to the clearing of native vegetation authorised under this Permit:
 - (i) the location where the clearing occurred, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings or decimal degrees;
 - (ii) the date that the area was cleared;
 - (iii) the size of the area cleared (in hectares); and
 - (iv) purpose for which clearing was undertaken.
- (b) In relation to the *revegetation* and *rehabilitation* of areas pursuant to Condition 12 and 13 of this Permit:
 - (i) the location of any areas *revegetated* and *rehabilitated*, recorded using a Global Positioning System (GPS) unit set to Geocentric Datum Australia 1994 (GDA94), expressing the geographical coordinates in Eastings and Northings or decimal degrees;
 - (ii) a description of the *revegetation* and *rehabilitation* activities undertaken; and
 - (iii) the size of the area *revegetated* and *rehabilitated* (in hectares).

15. Reporting

- (a) The Permit Holder shall provide a report to the Director Operations, Environment, Department of Mines, Industry Regulation and Safety by 30 June each year for the life of this permit, demonstrating adherence to all conditions of this permit, and setting out the records required under Condition 14 of this permit in relation to clearing carried out between 1 January and 31 December of the previous calendar year.
- (b) Prior to 31 December 2030, the Permit Holder must provide to the Director Operations, Environment, Department of Mines, Industry Regulation and Safety a written report of records required under Condition 14 of this Permit where these records have not already been provided under Condition 15(a) of this Permit.

DEFINITIONS

The following meanings are given to terms used in this Permit:

CEO means the Chief Executive Officer of the Department of Water and Environmental Regulation or an officer with delegated authority under Section 20 of the *Environmental Protection Act 1986*;

direct seeding means a method of re-establishing vegetation through the establishment of a seed bed and the introduction of seeds of the desired plant species;

environmental specialist means a person who holds a tertiary qualification in environmental science or equivalent, and has experience relevant to the type of environmental advice that an environmental specialist is required to provide under this Permit, or who is approved by the *CEO* as a suitable environmental specialist;

fill means material used to increase the ground level, or fill a hollow;

local provenance means native vegetation seeds and propagating material from natural sources within 200 kilometres and the same Interim Biogeographic Regionalisation for Australia (IBRA) subregion of the area cleared;

mulch means the use of organic matter, wood chips or rocks to slow the movement of water across the soil surface and to reduce evaporation;

planting means the re-establishment of vegetation by creating favourable soil conditions and planting seedlings of the desired species;

regenerate/ed/ion means re-establishment of vegetation from in situ seed banks and propagating material (such as lignotubers, bulbs, rhizomes) contained either within the topsoil or seed-bearing *mulch*;

rehabilitate/ed/ion means actively managing an area containing native vegetation in order to improve the ecological function of that area;

revegetate/ed/ion means the re-establishment of a cover of *local provenance* native vegetation in an area using methods such as natural *regeneration*, *direct seeding* and/or *planting*, so that the species composition, structure and density is similar to pre-clearing vegetation types in that area;

riparian vegetation has the meaning given to it in Regulation 3 of the Environmental Protection (Clearing of Native Vegetation) Regulations 2004;

watercourse has the meaning given to it in section 3 of the *Rights in Water and Irrigation Act 1914*;

weed/s means any plant -

- (a) that is declared under the section 22 of the *Biosecurity and Agriculture Management Act 2007*; or
- (b) published in a Department of Parks and Wildlife Regional Weed Summary, regardless of ranking; or
- (c) not indigenous to the area concerned.
