

# Application for a clearing permit (area permit)

Environmental Protection Act 1986 s 51E

## FORM C1

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

DEPARTMENT OF ENVIRONMENT REGULATION	8 JAN 2016
State Information Section	Date stamp

### Part 1 Assessment bilateral agreement

The native vegetation clearing processes under Part V of the *Environmental Protection Act 1986* (EP Act) have been accredited by the Commonwealth of Australia under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) and can be assessed under an assessment bilateral agreement.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?  
 Yes  No Proceed to Part 2

Has the proposed clearing action been referred to the Commonwealth of Australia under the EPBC Act?  
 Yes EPBC Number   
 No It cannot be assessed under an Accredited Process such as the assessment bilateral agreement until it has been referred to the Commonwealth. Proceed to Part 2.

Has a decision been made under the EPBC Act as to whether the proposed clearing action is a controlled action?  
 Yes  No Proceed to Part 2

Is the proposed clearing action a controlled action under the EPBC Act?  
 No It cannot be assessed under an Accredited Process, proceed to Part 2  
 Yes Complete and attach the requirements of Annex C7 to this completed form

List the controlling provisions identified in the notification of the controlled action decision

Annex C7 is complete and the required supporting information is attached

To be assessed under the assessment bilateral agreement, the proposed clearing action must be referred to the Commonwealth under the EPBC Act prior to submitting this application form and Annex C7 must also be completed.

For further information see Annex C7 and *A guide to native vegetation clearing processes under the assessment bilateral agreement* available at [www.der.wa.gov.au/nvp](http://www.der.wa.gov.au/nvp).

### Part 2 Land details

The location of the land where clearing is proposed must be accurately described.

Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number or mining tenement number of all properties

VOLUME 2660 FOLIO 187  
 LOT 19 ON DEPOSITED PLAN 46437

Street address

LOT 19 HAMERSLEY ROAD DONGARA WA

FILE REFERENCE

### Part 3 Proposal

An aerial photograph or map with a north arrow must be attached, clearly marking the area proposed to be cleared or

if you have the facilities, a digital map on CDROM of the area to clear as an ESRI shapefile with the following properties:

- Geometry type: polygon shape
- Coordinate system: GDA 1994 (Geographic latitude/longitude)
- Datum: GDA 1994 (Geocentric Datum of Australia 1994)

Total area of clearing proposed (hectares) and/or number of individual trees to be removed

2.00 hectares ← (2,000 sq metres)

Proposed method of clearing

Pushing over Acacia sp. with a loader and piling debris on site on bare sand.

Period within which clearing is proposed to be undertaken, e.g. May 2014 – June 2014

March 2016 to May 2016

Purpose of clearing

Allow access to additional sand reserves; improve safety around existing loading ramp.

Has this clearing application or any related matter been referred to the Environmental Protection Authority (EPA)  Yes  No

Dear Sir / Madam

**RE: RENEWAL OF EXTRACTIVE INDUSTRY LICENSE (LIME SAND) ON LOT 19  
HAMERSELY ROAD, DONGARA**

Please be advised that the Shire of Irwin has considered your statement against the Extractive Industries Local Law (2000) and the documentation submitted, and hereby determines to grant renewal of the Extractive Industry License at the above mentioned premises. The license is now valid until 31<sup>st</sup> of December 2016.

Should you have any queries or require any further information please do not hesitate to contact Planning Services on 9927 0000

Yours sincerely

**Doug Fotheringham**

## **Attachment to Application for Clearing Permit**

**Kaleen Holdings Pty Ltd ("Kaleen")**

**Victoria Location 3489, Shire of Irwin**

Kaleen is seeking a clearing permit for a small area of regrowth Acacia species on an existing sand mine on Lot 3489 (a copy of the 2016 Extractive Industries licence from the Shire of Irwin is attached). The site has been used as a sand mine for many years, although not to any great extent in the past three years, and as a result Acacia sp. (mainly the locally named "Black wattle") have recolonised the edges of the sand mine, including both edges of the existing loading ramp.

The small area of clearing sought is firstly to improve operator and machine safety in the constraints of the loading ramp, and secondly to allow access to an additional small sand resource that was cleared several years ago.

Kaleen has attached a photograph showing a sample of the vegetation, and has other representative photographs that could be provided to DER electronically if required by request to Cameron Schuster.
