Airlie Island activities to support ongoing care and maintenance including monitoring commitments to meet lease conditions are currently covered under the <i>Varanus Island Hub Operations Environment Plan (Version 6, EA-60-RI-00186)</i>. Part 4: Proposed amendments	
<p>mitigate the need for, and scale of, the proposed clearing of native vegetation.</p>	<p>Alternatives to avoid or minimise clearing would be considered and applied, as part of an activity specific Environment Plan prepared for future activities that involve clearing on Airlie Island. This Environment Plan is submitted to DMIRS for approval and reviewed by DBCA who provide advice to DMIRS. Impacts and risks associated with the proposed activity will be reviewed through a formal, independently-facilitated hazard identification workshop with the participation of Quadrant Energy personnel, contractors for the activities, if required subject matter experts (reptile and seabird specialists) and invited representatives from DMIRS and DBCA (if they are able to attend). Identified hazards arising from planned and unplanned events are then assessed for the risk they may pose to the environment in consideration of the controls required to reduce the impact or risk to as low as reasonably practicable. Key controls specific to minimise vegetation clearing include:</p> <ul style="list-style-type: none"> <li>• Use of pre-existing infrastructure footprint and access tracks to minimise vegetation disturbance</li> <li>• Pre-activity clearance of weeds in activity areas and vehicle access paths.</li> </ul>
<p>Refer to DWER's <a href="#">Clearing of native vegetation offsets procedure guideline</a> available on the DWER website, and the EPA's <a href="#">WA Environmental Offsets Policy and Guidelines</a> on the EPA website for further information.</p>	<p>Do you want to submit a clearing permit offset proposal with your application? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure</i> guideline.</p> <p>Offset not required.</p>
