Application for an amendment to a clearing permit

Environmental Protection Act 1986, section 51M

FORM C4

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), refer to the [Procedure: Native vegetation clearing permits](#) on DWER's website.

Part 4: Proposed amendments													
<p>Additional information to support the assessment of your application to amend may be attached.</p> <p>Please ensure you have included the following as part of your application:</p> <ul style="list-style-type: none"> a photocopy of the granted clearing permit, with proposed changes highlighted, <i>and</i> payment of the prescribed fee. <p>When providing details of the proposed change(s), if any additional clearing is proposed, include details of:</p> <ul style="list-style-type: none"> the proposed method of the clearing; the purpose of the clearing; the period within which the clearing is proposed to be undertaken (taking note of the published minimum assessment timeframes for DWER / DMIRS, as applicable); <i>and</i> the final land use. 	<p>Indicate the types of proposed change(s) to your clearing permit by selecting the relevant box(es):</p> <table border="1"> <tr> <td><input checked="" type="checkbox"/></td> <td>Extend the duration of the clearing permit.</td> </tr> <tr> <td><input type="checkbox"/></td> <td>Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.</td> </tr> <tr> <td><input type="checkbox"/></td> <td>Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.</td> </tr> <tr> <td><input type="checkbox"/></td> <td>Redescribe the boundary of the area authorised to be cleared <i>[for an area permit only]</i></td> </tr> <tr> <td><input type="checkbox"/></td> <td>Make a correction to the clearing permit.</td> </tr> <tr> <td><input type="checkbox"/></td> <td>Other.</td> </tr> </table> <p>Provide details of the proposed change(s), and the rationale for it / them.</p> <p>Hanson Construction Materials Pty Ltd (Hanson) operates the Tick Road Sand Mine, which is located on mining lease M70/776, as a joint venture with Boral Resources (Western Australia) Limited (Boral). This mining lease is held by Boral.</p> <p>The approved clearing footprint, shown in Figure A, was historically cleared to establish the Gnangara Pine Plantation. These pines were cleared progressively from 2010 to 2014.</p> <p>The vegetation condition of the clearing footprint was assessed in 2014 and found to be 'Degraded' to 'Completely Degraded' (RPS 2014). The approved clearing footprint is located more than 100 metres from the nearest Conservation Category Wetland (UFI 8,408) and Bush Forever Site (No. 399) (Figure A).</p> <p>Hanson are proposing to extend the duration of the existing clearing permit (CPS 7140/1) to allow the staged clearing of native vegetation to continue until 2031 (10 years). This will reduce the subsequent paperwork for future years and will extend to cover the remaining term of the screening licence (L6752/1995/11) (28 February 2030).</p> <p>Clearing for the purpose of sand mining is directly proportional to the demand for the sand resource, which is primarily driven by population growth or significant infrastructure projects. Approximately 3.03 ha of the approved clearing footprint (93.78 ha) has been cleared thus far, as the demand for sand resources to date has not been sufficient to warrant continuous sand mining. However, this scenario can readily change.</p> <p>Furthermore, the additional time frame allows Hanson to continue to utilise the native vegetation:</p> <ul style="list-style-type: none"> as a buffer for noise, dust, and visual amenity to reducing the open area and significantly decreasing the potential weed load from outside sources to increase the long-term landform stability of the surrounding areas <p>The proposed change is highlighted in a copy of the granted clearing permit, provided in Attachment 1.</p>	<input checked="" type="checkbox"/>	Extend the duration of the clearing permit.	<input type="checkbox"/>	Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.	<input type="checkbox"/>	Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.	<input type="checkbox"/>	Redescribe the boundary of the area authorised to be cleared <i>[for an area permit only]</i>	<input type="checkbox"/>	Make a correction to the clearing permit.	<input type="checkbox"/>	Other.
