Actual clearing required is estimated to be 10.12 ha.</p> <p>The rationale behind the proposed changes is listed below:</p> <ul style="list-style-type: none"> Extending the life of the permit will allow long term mine planning and operations Increasing the amount of allowable clearing is required to provide access to the Labouchere Mining Area, from which low-grade stockpiles will be recovered and transported to the Fortnum Mill for processing. Increasing the permit boundary will provide flexibility in terms of the placement of future mining infrastructure, capture required tenure, as well as allowing avoidance measures to be implemented The proposed amendment is also intended to align with future mining act approvals (i.e. the Mining Proposal disturbance envelope will align with the clearing permit boundary). 	<input checked="" type="checkbox"/>	Extend the duration of the clearing permit.	<input type="checkbox"/>	Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.	<input checked="" type="checkbox"/>	Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.	<input type="checkbox"/>	Redescribe the boundary of the area authorised to be cleared [for an area permit only]	<input type="checkbox"/>	Make a correction to the clearing permit.	<input type="checkbox"/>	Other.
