Application to amend a clearing permit

Environmental Protection Act 1986, section 51KA

FORM C4

The clearing of native vegetation is prohibited in Western Australia unless a clearing permit has been granted for the clearing or where a permit is not required (either due to a referral determination that one is not needed or because an exemption applies). If the amendment of a clearing permit will or is likely to impact on a matter of national environmental significance identified under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) the original application must have been assessed in accordance with the bilateral assessment, and a variation under the EPBC Act is required prior to submitting this amendment application form.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a '[controlled action](#)' prior to submitting this application form.

Further information is located in *Form Annex C7* and *A guide to native vegetation clearing processes under the Assessment bilateral agreement* available at www.der.wa.gov.au/our-work/clearing-permits.

The purpose of this project is to ensure sufficient gas supply to sustain increased energy requirements of continued ramp up to full production/processing and construction.</p> <p>Both the proposed duplicated and existing gas pipeline will be located within a single services corridor located on tenements L36/189, M36/127, M36/180, M36/212, M36/371 and M36/659 with a total length of approximately 12.7 km. The gas supply transfer station and expanded power station will be located on M36/371.</p> <p>Tenements M36/212 and L36/189 are outside the existing permit boundary. ANI is proposing an amendment to the permit to redescribe the boundary to include sections of M36/212 and L36/189 to allow for clearing to widen the existing gas pipeline corridor (Figure 2 and Figure 3). Approximately 35 ha of clearing will be required to widen the services corridor and install the second gas pipeline within the amended permit boundary.</p> <p>The proposed method of clearing will be via loader and dozer.</p> <p>The purpose of the clearing is for the installation of a gas pipeline corridor.</p> <p>All other environmental and heritage approvals are in place, or have been submitted for approval.
