Application to amend a clearing permit

Environmental Protection Act 1986, section 51KA

FORM C4

The clearing of native vegetation is prohibited in Western Australia unless a clearing permit has been granted for the clearing or where a permit is not required (either due to a referral determination that one is not needed or because an exemption applies). A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), see the [Procedure: Native vegetation clearing permits](#) on DWER's website.

Part 1: Assessment bilateral agreement

If the amendment of a clearing permit will or is likely to impact on a matter of national environmental significance identified under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) the original application must have been assessed in accordance with the bilateral assessment, and a variation under the EPBC Act is required prior to submitting this amendment application form.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a '[controlled action](#)' prior to submitting this application form.

Further information is located in *Form Annex C7* and *A guide to native vegetation clearing processes under the Assessment bilateral agreement* available at www.der.wa.gov.au/our-work/clearing-permits.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?

Part 4: Proposed amendments		
<p>Additional information to support the assessment of your application to amend may be attached.</p> <p>Please ensure you have included the following as part of your application:</p> <ul style="list-style-type: none"> a photocopy of the granted clearing permit, with proposed changes highlighted, <i>and</i> payment of the prescribed fee. <p>When providing details of the proposed change(s), if any additional clearing is proposed, include details of:</p> <ul style="list-style-type: none"> the proposed method of the clearing; the purpose of the clearing; the period within which the clearing is proposed to be undertaken (taking note of the published minimum assessment timeframes for DWER / DMIRS, as applicable); <i>and</i> the final land use. 	<p>Indicate the types of proposed change(s) to your clearing permit by selecting the relevant box(es):</p> <p><input checked="" type="checkbox"/> Extend the duration of the clearing permit.</p> <p><input type="checkbox"/> Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.</p> <p><input checked="" type="checkbox"/> Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.</p> <p><input type="checkbox"/> Redescribe the boundary of the area authorised to be cleared <i>[for an area permit only]</i></p> <p><input type="checkbox"/> Make a correction to the clearing permit.</p> <p><input type="checkbox"/> Other.</p> <p>Provide details of the proposed change(s), and the rationale(s) for it / them.</p> <p>A dieback survey has identified ~0.271ha of the recently approved CP amendment (CPS 8101/3) is dieback infested. The proponent is unable to utilise the resource from a dieback infested area. This amendment is to remove the dieback infested area and replace it with an equivalent dieback free area (~0.205ha) of same environmental value. The new clearing area (0.934ha) is slightly reduced from the previously approved 1ha. The area remains along the southern extend of the existing clearing permit area (Figure 1), and it is required for an extension of the existing gravel extraction area.</p> <p>A Basic Vertebrate Fauna and Targeted Black-Cockatoo Habitat Survey has been undertaken, and the clearing footprint has been determined to avoid habitat trees containing hollow/s potentially suitable for cockatoos, with a 25m radius buffer applied to further protect these trees. A further Black-Cockatoo Habitat Tree Review survey took place in July 2023 by a fauna expert using a drone, and trees previously identified as having hollow/s potentially suitable for black cockatoos (Figure 1) have been reassessed and found as not suitable for black cockatoos (survey report attached).</p> <p>A targeted and reconnaissance flora and vegetation survey of the proposed clearing area found no TEC, PEC or flora of conservation significance.</p> <p>Clearing will be undertaken using mechanical means.</p> <p>Clearing is proposed to be undertaken between August 2023 and February 2025, as such an extension of the duration of the CP is also requested to 2025.</p> <p>The land will be rehabilitated back to native species, in accordance with the mine closure plan, utilising species suitable to promote Black Cockatoo habitat.</p>	
	<p>For an application to amend the size of the area permitted to be cleared, or add a land parcel to the clearing permit, you must have the authority of the landowner to access the land and undertake the clearing.</p>	<p>State the nature of the applicant's authority to access the land to be cleared. Evidence of authority can include e.g. a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give legal land access permission. <i>[Attach evidence of authority. Note that a letter of authority must explicitly state the applicant has authority to clear on the land.]</i></p> <p>Letter of Authority from Mining Lessee</p>
	<p>Provide additional property details if required – if applying to extend the size of the area to be cleared into another land parcel.</p>	<p>Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number, or mining tenement number of all properties.</p> <p>Mining tenement M70/733</p>
	<p>You must provide evidence that avoidance and mitigation options have been pursued to eliminate, reduce or otherwise</p>	<p>Have alternatives that would avoid or minimise the need for clearing been considered and applied? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
		<p>If yes, provide details:</p>

Part 4: Proposed amendments	
mitigate the need for, and scale of, the proposed clearing of native vegetation.	The initial additional area sought for clearing was 2.60ha (the southern extend of NOI approvals, which coincide with the extend of the M70/406 dead tenement boundary), however the proposed clearing footprint has been determined to avoid habitat trees containing hollow/s potentially suitable for cockatoos, with a 25m radius buffer applied to further protect these trees (Figure 1). In line with the avoidance principle, this has resulted in a decrease in the proposed additional clearing area of 1.67ha (from 2.60ha to 0.934ha).
Refer to DWER's Clearing of native vegetation offsets procedure guideline available on the DWER website, and the EPA's WA Environmental Offsets Policy and Guidelines on the EPA website for further information.	Do you want to submit a clearing permit offset proposal with your application? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure guideline</i> .

Part 5: Other DWER approvals

Instructions:

- If your application is to be submitted to DMIRS, complete Section A and then skip to Part 6 of this form.
- If your application is to be submitted to DWER, complete both Sections A and B.

Section A: Environmental Impact Assessment

Environmental Impact Assessment (Part IV of the EP Act)

Has this clearing application or any related matter been referred to the Environmental Protection Authority?	<input type="checkbox"/> Yes – provide details []
	<input checked="" type="checkbox"/> No
Do you intend to refer the proposal to the Environmental Protection Authority?	<input type="checkbox"/> Yes – intend to refer (proposal is a 'significant proposal')
Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER or DMIRS) considers that the proposal in this application is likely to constitute a 'significant proposal', they are required under section 38(5) of the EP Act to refer the proposal to the EPA for assessment under Part IV, if such a referral has not already been made. If a relevant Ministerial Statement already exists, please provide the MS number in the space provided.	<input type="checkbox"/> Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement) MS []
	<input type="checkbox"/> No – a current valid Ministerial Statement applies: MS []
	<input checked="" type="checkbox"/> No – not a 'significant proposal'
