number of individual trees to be removed	30 approx. small trees and shrubs, as well as low level grasses.
Proposed method of clearing	
<p>It is proposed to use a grader to clear the site of existing vegetation, in order to level the ground and prepare burial plot allocation.</p> <p>All cleared vegetation will be removed from site using a front end loader and carted to the nearby Wyndham landfill facility for disposal into landfill.</p>	
Period within which clearing is proposed to be undertaken, e.g. May 2018 – June 2018	
From	March 2019
to	November 2019
Purpose of clearing	
<p>The clearing works on this parcel of land are required to allow for future development of the Wyndham cemetery site to accommodate future burial plots.</p> <p>The current facility is within 12 – 24 months of reaching capacity, depending on volume of future burial requests.</p> <p>The remaining 2.7ha of unused cemetery zoned land needs to be cleared and levelled, using a Grader, in order to allocate future burial plots for Wyndham residents. Vegetation and soil shall be removed from site using a loader and tipper truck, and disposed of at the nearby Wyndham landfill facility.</p> <p>The proposed area will provide an additional 50+ years of future burial plots, based on current burial request volumes.</p>	
Final land use:	
<p>The land is required to be used as a cemetery site now and into the long term future. The site is currently zoned as a cemetery site.</p>
