Application for an amendment to a clearing permit

Environmental Protection Act 1986, section 51M

FORM C4

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications (including amendments to existing permits), refer to the [Procedure: Native vegetation clearing permits](#) on DWER's website.

Part 1: Assessment bilateral agreement

If the amendment of a clearing permit will or is likely to impact on a matter of national environmental significance identified under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) the original application must have been assessed in accordance with the bilateral assessment, and a variation under the EPBC Act is required prior to submitting this amendment application form.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' prior to submitting this application form.

Further information is located in *Form Annex C7* and *A guide to native vegetation clearing processes under the Assessment bilateral agreement* available at www.der.wa.gov.au/our-work/clearing-permits.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?

☐ Yes EPBC number:

☒ No Proceed to Part 2

List the controlling provisions identified in the notification of the controlled action decision.

☐ *Form Annex C7* is complete and the required supporting information is attached.

Part 2: Clearing permit details

Amendments can only be made to active clearing permits.

Applications must be made more than 90 working days prior to the existing permit expiring to ensure there is adequate time to assess the amendment.

PART 4. PROPOSED CHANGES.

MT

Amendments required for Michael Eric Teasdale clearing permit.

We only wish to clear as we go. The sand is only sold as required, so it may take many years to sell it on. Therefore we have cleared approximately half of the area and we wish to leave the other half of the area in its natural state until it is required.

Due to the change in direction we would also like to change the permit dates.

Duration of the permit.....From 31 August 2026 to 31 August 2034

Period of clearing.....From 31 August 2021 to 31 August 2030

These dates allow us to clear as required and help to protect the environment.

Revegetate and rehabilitation....From 31 July 2022 to 31 August 2034

We require the Revegetate and rehabilitation dates to be changed as the site is very long and skinny.

We still need to access the site and to turn around road trains in the site.

At the moment we have pushed the vegetative material off the top towards the north and south sides of the site.

We then pushed the topsoil off in a similar manner stopping just short of the vegetative material so that they are stored separate and can be pushed back in when required. This has also reduced the area we have to move around in. (see attached drawing)

We will be removing the sand from the middle of the site.
