Application for a clearing permit (purpose permit)

Environmental Protection Act 1986, section 51E

FORM C2

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

CPS No.	
Date stamp	

Part 1: Assessment bilateral agr	eement.	
The native vegetation clearing processes under Part V of the	Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?	
Environmental Protection Act 1986 (WA) (EP Act) have been accredited by the Commonwealth of Australia under the	☐ Yes EPBC Number:	
Environment Protection and Biodiversity Conservation Act	No Proceed to Part 2	
1999 (Cth) (EPBC Act) and can be assessed under an assessment bilateral agreement.	List the controlling provisions identified in the notification of the controlled action decision.	
To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' prior to submitting this application form. For further information see Form Annex C7 and A guide to native vegetation clearing processes under the assessment bilateral agreement available at		
www.der.wa.gov.au/our- work/clearing-permits.	Form Annex C7 is complete and the required supporting information is attached.	
Part 2: Land details		
The location of the land where clearing is proposed must be accurately described.	Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number or mining tenement number of all properties. Orange Springs Road road reserve between Cowalla Road and Brand Highway intersections.	
FILE REFERENCE	Street address Orange Springs Road, Orange Spring W.A.	
	Local government area Shire of Gingin	

Part 4: Proposed clearing	
An aerial photograph and/or map with a north arrow must be attached, clearly marking the area proposed to be cleared or	Total area of clearing proposed (hectares) and/or number of individual trees to be removed
if you have the facilities, a digital map on a suitable portable digital storage device of the area to clear as an ESRI shapefile with the following properties:	Proposed method of clearing: Mechanical with excavator or other appropriate earth moving equipment.
Geometry type: Polygon shape Coordinate system: GDA 1994 (Geographic latitude/longitude)	Purpose of clearing: Proposed safety upgrades to Orange Springs Road, which is an integral transport link for lime to the wider agricultural region of WA.
Datum: GDA 1994 (Geocentric Datum of Australia 1994). An ESRI shapefile must be provided if the application requires an assessment under an EPBC Act accredited process.	Period within which clearing is proposed to be undertaken, e.g. May 2018 – June 2018 from May 2019 to April 2024 Final land use: Road transport corridor
You must provide evidence that avoidance and mitigation	Have alternatives that would avoid or minimise the need for clearing been considered and applied?
options have been pursued to eliminate, reduce or otherwise mitigate the need for, and scale of, the proposed clearing of native vegetation.	If yes, provide details: Yes, see attached clearing permit supporting documentation.
Refer to DWER's <u>Clearing of</u> native vegetation offsets	Do you want to submit a clearing permit offset proposal with your application?
procedure guideline available on the DWER website, and the Environmental Protection Authority's (EPA) WA Environmental Offsets Policy and Guidelines on the EPA website for further information.	If yes, provide details, and complete and attach Appendix A of the Clearing of native vegetation offsets procedure guideline.
