

Department of Water and Environmental Regulation (DWER)
Department of Mines, Industry Regulation and Safety (DMIRS)

Application for a clearing permit (area permit)

Environmental Protection Act 1986, section 51E

FORM C1

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

CPS No.

Date stamp

Part 1: Assessment bilateral agreement

The native vegetation clearing processes under Part V of the *Environmental Protection Act 1986* (WA) (EP Act) have been accredited by the Commonwealth of Australia under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) and can be assessed under an assessment bilateral agreement.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' prior to submitting this application form.

For further information see *Form Annex C7* and *A guide to native vegetation clearing processes under the assessment bilateral agreement* available at www.der.wa.gov.au/our-work/clearing-permits.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?

☐ Yes EPBC Number

☒ No Proceed to Part 2

List the controlling provisions identified in the notification of the controlled action decision.

☐ *Form Annex C7* is complete and the required supporting information is attached.

Part 2: Land details

The location of the land where clearing is proposed must be accurately described.

Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number, or mining tenement number of all properties.

Rottnest Island Reserve

Reserve No. 16713 in the records of Department of Land Administration

A Class Reserve

Part 3: Applicant details**Ownership of land**

A landowner can be:

- a person who holds the certificate of title;
- a person who is the lessee of Crown land;
- or
- a public authority that is responsible for care of the land.

Form of ownership:

☐Certificate of title. *[Attach a copy of the certificate and all associated encumbrances with the application – available from Landgate]*☐Pastoral lease.
[Attach a copy of the lease and all associated encumbrances]☐

Mining lease.

☒

Public authority that has care, control, or management of the land.

☐

Other form of lease, land tenure, or specific arrangement.

Please state:

Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with concerning this clearing application.

Where contact details differ to those of the applicant, complete the below section:

Contact person (and position, if applicable)

Company name (if applicable)

Postal / business address

Phone (fixed line)

Email address

Part 4: Proposed clearing

An aerial photograph or map with a north arrow must be attached, clearly marking the area proposed to be cleared

or

if you have the facilities, a digital map on a suitable portable digital storage device of the area to clear as an ESRI shapefile with the following properties:

Geometry type: Polygon shape

Coordinate system: GDA 1994

(Geographic latitude/longitude)

Datum: GDA 1994 (Geocentric

Datum of Australia 1994).

An ESRI shapefile must be provided if the application requires an assessment under an EPBC Act accredited process.

Total area of clearing proposed (hectares)

0.8 ha

and/or

number of individual trees to be removed

Proposed method of clearing

Mechanical slashing or removal

Period within which clearing is proposed to be undertaken, e.g. May 2018 – June 2018

From

August 2019

to

October 2021

Purpose of clearing

For construction of new ablution facilities, recreational amenities (shelter, bins, bike racks, seating, signage) with pedestrian accessways and viewing platform at the West End node. The project includes siting facilities and buildings within currently disturbed area within the site where practicable, and to minimise impact to vegetation when new construction is required.
