Part 4: Proposed clearing				
<p>An aerial photograph and/or map with a north arrow must be attached, clearly marking the area proposed to be cleared</p> <p>or</p> <p>if you have the facilities, a digital map on a suitable portable digital storage device of the area to clear as an ESRI shapefile with the following properties:</p> <p>Geometry type: Polygon shape</p> <p>Coordinate system: GDA 1994 (Geographic latitude/longitude)</p> <p>Datum: GDA 1994 (Geocentric Datum of Australia 1994).</p> <p>An ESRI shapefile must be provided if the application requires an assessment under an EPBC Act accredited process.</p>	Total area of clearing proposed (hectares)	24 ha		
	and/or	number of individual trees to be removed	No trees	
	Proposed method of clearing:			
	Cutting and wiping, hand pulling and chemical control			
	Purpose of clearing:			
	Remove Typha to create habitat more suited to native animals			
Period within which clearing is proposed to be undertaken, e.g. May 2018 – June 2018				
from November 2019 to November 2024				
Final land use:				
Reserves, wetlands and lakes for fauna and flora				
<p>You must provide evidence that avoidance and mitigation options have been pursued to eliminate, reduce or otherwise mitigate the need for, and scale of, the proposed clearing of native vegetation.</p>	Have alternatives that would avoid or minimise the need for clearing been considered and applied?		<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
	<p>If yes, provide details:</p> <p>Up until recently <i>Typha orientalis</i> was considered a non- native species. Whether native or not it is highly invasive and overtakes other native species and reduces biodiversity. Removal is to allow other native species an opportunity to naturally recruit and or be deliberately planted in target areas to create a more diverse ecosystem and provide habitat for native fauna. Typha has been known to choke open water bodies. It reduces public access and amenity in natural areas. Its removal will encourage a greater appreciation of these areas and provide amenity as well as provide a more diverse natural ecosystem for fauna and visitors alike.</p>			
<p>Refer to DWER's Clearing of native vegetation offsets procedure guideline available on the DWER website, and the Environmental Protection Authority's (EPA) WA Environmental Offsets Policy and Guidelines on the EPA website for further information.</p>	Do you want to submit a clearing permit offset proposal with your application?		<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
