Part 4: Proposed amendments	
mitigate the need for, and scale of, the proposed clearing of native vegetation.	The road design is unable to be altered to accommodate the retention of this tree safely. The tree is located less than 100m from the proposed roundabout with Eighth Road) and existing intersection at Nesbit Drive. This does not give the required space to divert the road around the tree. The tie in will be too severe and the retention of the tree will be a road side hazard in the clear zone in the roundabout approach.
