Part 4: Proposed clearing	
<p>mitigate the need for, and scale of, the proposed clearing of native vegetation.</p>	<p>A desktop assessment, followed by a site inspection by environment and landcare officers, have been undertaken of the road reserve, and a report is provided at Attachment 1.</p> <p>The vegetation in the road reserve is in degraded condition, with annual and perennial weeds dominating the site, where they have largely outcompeted native understorey species. Three marri trees between 30cm and 50cm DBH are proposed for removal, and four smaller jarrah trees (10cm to 20cm DBH) are proposed for removal. The presence of unhealthy and dead trees indicates that the site is heavily affected by marri canker fungus. Based on crown inspections, it is unlikely that any of the trees are of adequate size to support hollows that may be used for breeding by black cockatoo species.</p> <p>The Shire of Augusta Margaret River will implement the following measures to ensure that impacts are minimised wherever possible.</p> <ul style="list-style-type: none"> <li>• Clearing of native vegetation will be minimised wherever possible. Retrenchment pruning of large branches will be undertaken as an alternative to tree removal where branches pose a safety hazard. The road works have been designed to avoid a large marri tree on the eastern side of the road.</li> <li>• Drainage will be designed and managed to ensure that there is no erosion and runoff of sediment as a result of earth works.</li> <li>• Dieback and weed control measures will be implemented during operations.</li> </ul>
<p>Refer to DWER's <a href="#">Clearing of native vegetation offsets procedure guideline</a> available on the DWER website, and the Environmental Protection Authority's (EPA) <a href="#">WA Environmental Offsets Policy and Guidelines</a> on the EPA website for further information.</p>	<p>Do you want to submit a clearing permit offset proposal with your application? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure guideline</i>.</p>
