## Application for a clearing permit (purpose permit)

*Environmental Protection Act 1986, section 51E*

### FORM C2

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications, refer to the [Procedure: Native vegetation clearing permits](#) on DWER's website.

#### Part 1: Assessment bilateral agreement

The native vegetation clearing processes under Part V of the *Environmental Protection Act 1986* (WA) (EP Act) have been accredited by the Commonwealth of Australia under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) and can be assessed under an assessment bilateral agreement.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a 'controlled action' prior to submitting this application form.

For further information see *Form Annex C7* and *A guide to native vegetation clearing processes under the assessment bilateral agreement* available at [www.der.wa.gov.au/our-work/clearing-permits](http://www.der.wa.gov.au/our-work/clearing-permits).

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process such as the assessment bilateral agreement?

Part 4: Proposed clearing			
<p>An aerial photograph and/or map with a north arrow must be attached, clearly marking the area proposed to be cleared</p> <p>or</p> <p>if you have the facilities, a digital map on a suitable portable digital storage device of the area to clear as an ESRI shapefile with the following properties:</p> <ul style="list-style-type: none"> <li>• Geometry type: Polygon shape</li> <li>• Coordinate system: GDA 1994 (Geographic latitude/longitude)</li> <li>• Datum: GDA 1994 (Geocentric Datum of Australia 1994).</li> </ul> <p>An ESRI shapefile must be provided if the application requires an assessment under an EPBC Act accredited process.</p>	Total <b>area</b> of clearing proposed (hectares)	Total clearing area is 0.104 ha (total development envelope area is 0.121 ha)	
	and/or		
	number of individual <b>trees</b> to be removed		
	Proposed method of clearing:		
	Western Power is undertaking the clearing works on behalf of DevelopmentWA. Mechanical shallow scrape to remove vegetation.		
	Purpose of clearing:		
	DevelopmentWA has requested that Western Power relocate a 66kV overhead power line and replace it with a new underground line to support the Shoreline, North Coogee development. This will involve undergrounding a large portion of the existing overhead line and related assets on Bennet Avenue, North Coogee. A temporary deviation of the overhead power line is required to maintain the existing power supply during the construction of the new underground line. The clearing is required to remove the existing wooden pole and replace it with a stay pole in an adjacent position and then the installation of a new steel transition pole. The stay pole will be removed once the new transition pole has been installed and is up and running		
	Period within which clearing is proposed to be undertaken, e.g. May 2020 to June 2020 (taking note of the published assessment timeframes for DWER / DMIRS, as applicable)		
From	22/10/2020	to	22/04/2021
Final land use:			
As the clearing is for works associated with undergrounding a Western Power electrical transmission line, there will be no change to final land use.			
<p>You must provide evidence that avoidance and mitigation options have been pursued to eliminate, reduce or otherwise mitigate the need for, and scale of, the proposed clearing of native vegetation.</p>	Have alternatives that would avoid or minimise the need for clearing been considered and applied?		<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
	<p>If yes, provide details:</p> <p>Alternative development envelopes that utilise existing cleared areas or areas with sparser vegetation were considered. The development envelope of the central transmission pole was altered from original plans to exploit areas of previously cleared land and minimise further clearing. For logistical site access reasons, the north and south development envelopes were unable to be changed.</p>		
<p>Refer to DWER's <a href="#">Clearing of native vegetation offsets procedure guideline</a> available on the DWER website, and the Environmental Protection Authority's (EPA) <a href="#">WA Environmental Offsets Policy and Guidelines</a> on the EPA website for further information.</p>	Do you want to submit a clearing permit offset proposal with your application?		<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	<p>If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure guideline</i>.</p>
