Department of Mines, Industry Regulation and Safety (DMIRS)

Application for a clearing permit (purpose permit)

Environmental Protection Act 1986, section 51E

FORM C2

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications, refer to the $\underline{\textit{Procedure: Native vegetation clearing permits}}$ on DWER's website.

Part 3: Applicant details (continued)							
Authority to access land							
To apply for a permit you must be the landowner, or have the authority of the landowner to access the land and undertake the clearing.	State the nature of the applicant's authority to access the land to be cleared. [Attach evidence of authority. Note that a letter of authority must explicitly state that the applicant has authority to clear on the land and must be signed by a person with authority to give land access permission.]						
Evidence of authority can include, for example, a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give land access permission.							
Landowner's ownership of land							
A landowner can be:	The landowner's form of ownership is:						
a person who holds the certificate of title;	Certificate of title [Attach a copy of the certificate and all associated encumbrances with the application – available from Landgate].						
a person who is the lessee of Crown land; or	Pastoral lease [Attach a copy of the lease and all associated encumbrances].						
a public authority that is responsible for care of the land.	Mining lease.						
	□ Public authority that has care, control or management of the land.						
	Other form of lease, land tenure or specific arrangement.						
	Please state:

	Phone (fixed line) Phone (mobile)						
	Email address						

Part 4: Proposed clearing									
An aerial photograph and/or map with a north arrow must be attached, clearly marking the area proposed to be cleared or	Total area of clearing proposed (hectares) and/or number of individual trees to be removed								
if you have the facilities, a digital map on a suitable portable digital storage device of the area to clear as an ESRI shapefile with the following properties:	Proposed method of clearing: Selected trees and understorey along impacted area to be felled and chipped offsite. Stumps and roots to be removed mechanically with loader or excavator.								
 Geometry type: Polygon shape Coordinate system: GDA 1994 (Geographic latitude/longitude) Datum: GDA 1994 	Purpose of clearing: To enable the installation of a new crossing of the Jane Brook and extension of Brooking Road from Owen Rd to Richardson Rd and new connection with Falls Rd.								
(Geocentric Datum of Australia 1994).	Period within which clearing is proposed to be undertaken, e.g. May 2020 to June 2020 (taking note of the published assessment timeframes for DWER / DMIRS, as applicable)								
An ESRI shapefile must be provided if the application requires an assessment under an EPBC Act accredited process.	From July 2022 to June 2023 Final land use: The area will be a public road. Clearing works will be limited to only what is required for the construction of the public road and associated earthworks. Provision and management of stormwater runoff to be incorporated into the overall design and footprint.								
You must provide evidence that avoidance and mitigation		lave alternatives that would avoid or minimise the need or clearing been considered and applied?						No	
options have been pursued to eliminate, reduce or otherwise mitigate the need for, and scale	If yes, provide details:								
of, the proposed clearing of native vegetation.	The vertical design will seek to follow existing longitudinal gradients for the new road to limit fill above the new culvert crossing located in a sag curve. The new culvert to have insitu-concrete wing walls to limit the impacts of fill and locally stabilise the batters at Jane Brook. Batters and disturbed areas will be stabilised with seeded hydro-mulch (native mix).
