Application to amend a clearing permit

Environmental Protection Act 1986, section 51KA

FORM C4

Part 1: Assessment bilateral agreement

If the amendment of a clearing permit will or is likely to impact on a matter of national environmental significance identified under the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) the original application must have been assessed in accordance with the bilateral assessment, and a variation under the EPBC Act is required prior to submitting this amendment application form.

To be assessed in this manner, the proposed clearing action must be referred to the Commonwealth under the EPBC Act and deemed a '[controlled action](#)' prior to submitting this application form.

Further information is located in *Form Annex C7* and *A guide to native vegetation clearing processes under the Assessment bilateral agreement* available at www.der.wa.gov.au/our-work/clearing-permits.

	<input type="checkbox"/>	Extend the duration of the clearing permit.	
	<input type="checkbox"/>	Vary / add / remove a permit condition relating to a matter other than the size or boundary of the area to be cleared.	
	<input type="checkbox"/>	Amend the size of the area permitted to be cleared, or add / remove a land parcel on the clearing permit.

	<input type="checkbox"/>	Make a correction to the clearing permit.	
	<input checked="" type="checkbox"/>	Other.	
<p>Provide details of the proposed change(s), and the rationale(s) for it / them.</p> <p>One ailing mature and one juvenile <i>Eucalyptus rudis</i> need to be removed to install a Gross Pollutant Trap (GPT) and its associated pipe infrastructure (see attached documentation)</p> <p>DWER revised proposed amendment to add land parcel Lot 150 on Deposited Plan 417913</p>			
<p>For an application to amend the size of the area permitted to be cleared, or add a land parcel to the clearing permit, you must have the authority of the landowner to access the land and undertake the clearing.</p>	<p>State the nature of the applicant's authority to access the land to be cleared. Evidence of authority can include e.g. a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give legal land access permission. [Attach evidence of authority. Note that a letter of authority must explicitly state the applicant has authority to clear on the land.]</p>		
<p>Provide additional property details if required – if applying to extend the size of the area to be cleared into another land parcel.</p>	<p>Land description: volume and folio number, lot or location number(s), Crown lease or reserve number, pastoral lease number, or mining tenement number of all properties.</p>		
<p>You must provide evidence that avoidance and mitigation options have been pursued to eliminate, reduce or otherwise mitigate the need for, and scale of, the proposed clearing of native vegetation.</p>	<p>Have alternatives that would avoid or minimise the need for clearing been considered and applied? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>		
	<p>If yes, provide details:</p>		
	<p>It has come to light that a single mature, but ailing <i>Eucalyptus rudis</i> requires removal to allow for the installation of a Gross Pollutant Trap (GPT) and its associated piping infrastructure.</p>		
	<p>The City has had numerous site meetings and have considered various drainage designs to try and avoid/ reduce/ minimise the need for clearing. Unfortunately, the preferred option still requires the removal of this tree. Other options could not achieve the engineering necessities, or required additional trees to be removed</p>		
	<p>Option 1 – Requires the removal of a single mature ailing <i>Eucalyptus rudis</i></p> <p>Option 2 - Although the pipe alignment in this option is between the ailing <i>Eucalyptus rudis</i> and a healthy one (photo attached), it is considered the damage to their root</p>		

Part 4: Proposed amendments	
	<p>systems due to pipe installation would be substantial, therefore the risk of losing both would be high. The smaller juvenile Eucalyptus closer to the creek line would also need to be removed. It is also considered that retaining the healthy mature tree a better option than the older ailing one</p> <p>Option 3 - Unfortunately this option is not viable due to engineering constraints</p> <p>(detailed document attached)</p>
Refer to DWER's Clearing of native vegetation offsets procedure guideline available on the DWER website, and the EPA's WA Environmental Offsets Policy and Guidelines on the EPA website for further information.	<p>Do you want to submit a clearing permit offset proposal with your application? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native vegetation offsets procedure guideline</i>.</p>
