Department of Water and Environmental Regulation (DWER) Department of Mines, Industry Regulation and Safety (DMIRS)

# Application for a clearing permit (area permit)

Environmental Protection Act 1986, section 51E

FORM C1

Clearing of native vegetation is prohibited in Western Australia except where a clearing permit has been granted or an exemption applies. A person who causes or allows unauthorised clearing commits an offence.

For further information on the stages of assessment for clearing permit applications, refer to the <u>Procedure: Native vegetation clearing permits</u> on DWER's website.

Part 4: Proposed clearing						
An aerial photograph or map with a north arrow must be attached,	Total <b>area</b> of clearing proposed (hectares)	0.23 ha				
clearly marking the area proposed to be cleared	and/or					
or if you have the facilities, a digital map on a suitable portable digital storage device of the area to clear as an ESRI shapefile with the following properties: • Geometry type: Polygon shape • Coordinate system: GDA 1994 (Geographic latitude/longitude)	number of individual <b>trees</b> to be removed	Vegetation consists of: 31 trees 8 <i>Corymbia calophylla</i> (Marri) 4 <i>Eucalyptus marginata</i> (Jarrah) 16 <i>Agonis flexuosa</i> , (Peppermint) 2 <i>Acacia sp.</i> (Dead Wattle) 1 <i>Xylomelum occidentale</i> , (Woody Pear) 167m <sup>2</sup> of <i>Xanthorrhoea brunonis</i> 140m <sup>2</sup> of <i>Jacksonia furcellata</i>				
Datum: GDA 1994     (Geocentric Datum of	Proposed method of clearing					
Australia 1994). An ESRI shapefile must be provided if the application	Each individual tree to be removed by a specialist operator using a chainsaw. Additionally, a specialist contractor will mechanically remove the <i>Xanthorrhoea brunonis, Jacksonia furcellata</i> and other understorey vegetation.					
requires an assessment under an EPBC Act accredited process.	Period within which clearing is proposed to be undertaken, e.g. May 2020 to June 2020 (taking note of the published assessment timeframes for DWER / DMIRS, as applicable)					

#### Department of Water and Environmental Regulation - Department of Mines, Industry Regulation and Safety

Part 4: Proposed clearing									
	From January 2022 to April 2022								
	Purpose of clearing								
	A road safety inspection was conducted on Harris Road and the key recommendations were the removal of hazards within the clear zone and the widening of the road for the traffic and bicycle use. The mature trees found along the edge of Harris road in the clear zone are considered to be hazardous and the recommendation from the auditor is the removal of the trees. Additionally, to meet the road widening recommendation further trees and understorey vegetation are required to be removed.								
	Final land use [e.g. "the area will be revegetated to reflect pre-clearing conditions after extraction is complete", or "the area will be a public road"]:								
		use (local road) will be unchang cle safety.	ed, wit	h improved r	oad wic	Ith for ro	oad saf	ety	
You must provide evidence that avoidance and mitigation	Have alternatives that would avoid or minimise the need for clearing been considered and applied?								
options have been pursued to eliminate, reduce, or otherwise	If yes, provide details:								
mitigate the need for, and scale of, the proposed clearing of native vegetation.	The ability to avoid and mitigate native vegetation clearing is heavily constrained with respect to the location of the existing road and the safety requirements. Tree removal has been avoided where possible in the design and where possible pruning will be preferentially undertaken.								
Refer to DWER's <u>Clearing of</u> <u>native vegetation offsets</u>	Do you want to submit a clearing permit offset proposal with your application?							No	
procedure guideline available on the DWER website, and the Environmental Protection	If yes, provide details, and complete and attach Appendix A of the <i>Clearing of native</i> vegetation offsets procedure guideline.								
Authority's (EPA) <u>WA</u> <u>Environmental Offsets Policy</u> <u>and Guidelines</u> on the EPA website for further information.									

## Part 5: Other DWER approvals

#### **INSTRUCTIONS:**

- If your application is to be submitted to DMIRS, complete Section A and then skip to Part 6 of this form.
- If your application is to be submitted to DWER, complete both Sections A and B.

Section A: Environmental Impact Assessment						
Environmental Impact Assessment (Part IV of the EP Act)						
Has this clearing application or any related matter been referred to the EPA?		Yes – provide details [ ]				
		No				
<b>Do you intend to refer the proposal to the EPA?</b> Section 37B(1) of the EP Act defines a 'significant proposal' as		Yes – intend to refer (proposal is a 'significant proposa				
"a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER or DMIRS) considers that the proposal in this application is likely to constitute a		Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement): MS []				
that the proposal in this application is likely to constitute a 'significant proposal', they are required under section 38(5) of the EP Act to refer the proposal to the EPA for assessment under Part IV, if such a referral has not already been made. If a relevant Ministerial Statement already exists, please provide the MS number in the space provided.		No – a current valid Ministerial Statement applies: MS [ ]				
	$\boxtimes$	No – not a 'significant proposal'				
Section B: Other approvals						
Pre-application scoping
