Notes:

Total clearing = 1.82 ha

Dam Wall includes footprint for machinery works and turnaround and for diversion of watercourse via spillway; all constructed under RiWI approval.

The bypass-sump to be constructed on the watercourse via RiWI approval

Remainder clearing is from flooding caused by dam ponding set at 259.5m AHD to Landgate Topography.

Previous clearing approvals were granted C 7437/1, 7437/2, 6082/1 and 3872/1.

Approvals expired before clearing could be completed. Complies with Director General commitment of 25 May 2020

DWRDG259/20
