1 INTRODUCTION

1.1 Background

The Public Transport Authority (PTA) is currently seeking to implement parts of METRONET which is the State Government's long-term plan for public transport. As part of the plan the level crossing of the railway across Oats Street is proposed to be removed.

1.2 Site Location

The Oats Street Level Crossing (hereafter referred to as 'the site') is located in Carlisle in the Town of Victoria Park, approximately 7km south-east of the Perth Central Business District (Figure 1). The site is 25.86ha in size and contains part of the existing railway from Miller Street to Leach Highway to the east (Figure 2). The site is mostly bounded by Rutland Avenue and Banks Street. The boundary also extends partway along:

- Mint Street;
- Archer Street;
- Oats Street;
- Millford Street; and
- Cohn Street (Figure 2).

1.3 Objectives

The objectives of the flora and fauna surveys commissioned by PTA are:

- *Assess the biological values of each of the proposed projects to inform the environmental impact assessment process and support broader environmental approvals applications.*
- *Identify biological values of conservation significance for each of the proposed projects to minimise and/or manage potential environmental impacts.*

This report provides the flora and vegetation components of the biological values assessment.

2 EXISTING ENVIRONMENT

2.1 Land Use

Examination of historical aerial photography shows that the site was cleared in 1953 (Plate 1).

Plate 1: Historical Aerial Photography from 1953 (Landgate, 2018)

There are no areas that contain native vegetation. The site contains some scattered trees.

2.2 Topography

The site is gently undulating and varies from approximately 14.2m to 15.3m Australian Height Datum (AHD) (DWER, 2018).

2.3 Geology and Soils

The western part of the site is mapped in the Bassendean System and consists of very low relief, leached, grey siliceous Pleistocene sand dunes, intervening sandy and clayey swamps and gently undulating plains (Bolland, 1998). These soils are very leached, infertile and mildly acidic (DPIRD, 2017). A small area in the eastern part of the site is located on the Pinjarra Plain system which consists of a broad low relief plain west of the foothills, comprising predominantly Pleistocene fluvial sediments and some Holocene alluvium associated with major current drainage systems. The major soils are naturally poorly drained and many swamps occur (DPIRD, 2018).

The soil phases mapped on the site are:

- EnvGeol S8 Phase (212Bs_S8) consists of sand that is very light grey at the surface, yellow at depth, fine to medium-grained, sub-rounded quartz, moderately well sorted of eolian origin; and
- Pinjarra Phase S10 (213Pj_S10) which is described as very gently undulating plain with imperfectly drained mottled yellow duplex soils with sand to sandy loam topsoil (DPIRD, 2018).

2.4 Hydrology

Groundwater under the site is between approximately 8mAHD to 9mAHD (DWER, 2018), which is between 5.7m and 8.5m below ground level. Groundwater generally flows to the south-west (DWER, 2018). There are no wetlands or surface water features on the site (National Map, 2018).

3 METHODOLOGY

3.1 Scope of Works

A Detailed Flora and Vegetation Survey was undertaken in accordance with EPA Technical Guidance *Flora and Vegetation Surveys for Environmental Impact Assessment* (EPA, 2016). The survey included the following:

- Desktop search and review of Parks and Wildlife Service's (PaWS) (as part of the Department of Biodiversity, Conservation and Attractions (DBCA)) Naturemap database, the Department of the Environment and Energy's (DoEE) Protected Matters Search Tool and previous survey reports;
- Examination of recent aerial photography and contour maps to provisionally identify vegetation types and condition;
- Field survey using quadrats and/or relevés in any areas of native vegetation to record native and introduced species as well as a thorough site walkover;
- Field survey to search for Threatened and Priority species;
- Recording of any significant plant species using a hand-held GPS;
- Description and mapping of vegetation types and vegetation condition;
- Recording of any weed species listed as Declared Pests under S22 of the BAM Act or as Weeds of National Significance were recorded on the site; and
- Compilation of a flora list.

3.2 Database Searches

Database searches using Naturemap (PaWS, 2018) and the Protected Matters Search Tool (DoEE, 2018) were undertaken for a 5km radius around the central point of the site prior to the site survey. Other public information was also researched for the site to determine any additional studies that had been completed on or near the site.

3.3 Site Survey

A flora and vegetation survey of the site was conducted by Dr Paul van der Moezel on 12 and 23 October 2018. The whole site was walked to record the vegetation types and native species in the survey area. Access was not needed within the fenced portion of the rail reserve as it did not contain any intact native vegetation.

No quadrats or relevés were sampled as the whole survey area did not contain any native vegetation in Good condition or better.

3.4 Survey Conditions

The conditions that the survey was undertaken in are presented in Table 1 in order to assess the adequacy of the survey. In summary, there were no constraints to the survey.

Table 1: Statement of Botanical Survey Conditions

Issue	Constraints (Y/N)*	Comment
Competency/experience of the consultant conducting the survey	No	Dr Paul van der Moezel has extensive botanical survey experience in the Perth Metropolitan Region.
Proportion of the flora identified^	No	The timing of the survey in October was optimal to record most of the native species.
Sources of information (historic/recent or new data)	No	The flora in the Perth Metropolitan Region is well documented.
Proportion of the task achieved and further work that may need to be undertaken	No	No follow-up survey required as no Threatened Flora expected to occur in other seasons.
Timing/weather/season/cycle	No	The spring survey was optimal for most flora species. 2018 was a good year for ephemeral species, including orchids.
Disturbances (Fire)	No	The fire age of the vegetation was greater than 5 years.
Intensity of survey (e.g. In retrospect was the intensity adequate)	No	The small site and ease of access made for a full coverage. Access was not required within the rail reserve.
Completeness (e.g. was relevant area fully surveyed)	No	
Resources (e.g. degree of expertise available for plant identification)	No	Experienced botanist undertook plant identifications on site.
Remoteness and/or access problems	No	Easily accessible site in the Perth Metropolitan Region.
Availability of contextual (e.g. bioregional) information for the study area.	No	Perth's Bush Forever

*Constraints have been rated as Significant, Moderate or No constraints

[^]Fungi and nonvascular flora (e.g. algae, mosses and liverworts) were not specifically surveyed for during the survey.

4 RESULTS

4.1 Flora Database Searches

The conservation significant flora identified in the searches of Naturemap database (Appendix 1) and the Protected Matters Search Tool (Appendix 2) as occurring within 5km of the site are listed in Table 2. Table 3 lists the preferred habitat of these species.

Table 2: Conservation Significant Flora likely to occur within 5km of the Site

Scientific Name	Common Name	Conservation Status (WA)	Status under EPBC Act
<i>Caladenia huegelii</i>	King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid	Schedule 1	Endangered
<i>Drakaea elastica</i>	Glossy-leaved Hammer Orchid	Schedule 1	Endangered
<i>Eucalyptus x balanites</i>	Cadda Road Mallee	Schedule 1	Endangered
<i>Grevillea curviloba</i> <i>subsp. curviloba</i>	Narrow curved-leaf Grevillea	Schedule 1	Endangered
<i>Grevillea thelemanniana</i> <i>subsp. thelemanniana</i>	Spider Net Grevillea	Schedule 1	Critically Endangered
<i>Synaphea</i> sp. Fairbridge Farm (D Papenfus 696)	Selena's Synaphea	Schedule 1	Critically Endangered
<i>Thelymitra dedmaniarum</i> (<i>Thelymitra manginii</i>)	Cinnamon Sun-orchid	Schedule 1	Endangered
<i>Diuris micrantha</i>	Dwarf Bee-orchid	Schedule 2	Vulnerable
<i>Diuris purdiei</i>	Purdie's Donkey-orchid	Schedule 2	Endangered
<i>Eremophila glabra</i> <i>subsp. chlorella</i>		Schedule 2	Endangered
<i>Lepidosperma rostratum</i>	Beaked Lepidosperma	Schedule 2	Endangered
<i>Macarthuria keigheryi</i>	Keighery's Macarthuria	Schedule 2	Endangered
<i>Thelymitra stellata</i>	Star Sun-orchid	Schedule 2	Endangered
<i>Andersonia gracilis</i>	Slender Andersonia	Schedule 3	Endangered
<i>Anigozanthos viridis</i> <i>subsp. terraspectans</i>	Dwarf Green Kangaroo Paw	Schedule 3	Vulnerable
<i>Conospermum undulatum</i>	Wavy-leaved Smokebush	Schedule 3	Vulnerable
<i>Drakaea micrantha</i>	Dwarf Hammer-orchid	Schedule 3	Vulnerable
<i>Eleocharis keigheryi</i>	Keighery's Eleocharis	Schedule 3	Vulnerable
<i>Haloragis scoparia</i>		Priority 1	
<i>Ptilotus sericostachyus</i> <i>subsp. roseus</i>		Priority 1	
<i>Johnsonia pubescens</i> <i>subsp. cygnorum</i>		Priority 2	
<i>Melaleuca viminalis</i>		Priority 2	
<i>Stylidium aceratum</i>		Priority 2	

Scientific Name	Common Name	Conservation Status (WA)	Status under EPBC Act
<i>Thelymitra variegata</i>	Queen of Sheba	Priority 2	
<i>Amanita preissii</i>	Cinnamon-ring Lepidella	Priority 3	
<i>Angianthus micropodioides</i>		Priority 3	
<i>Byblis gigantea</i>	Rainbow Plant	Priority 3	
<i>Conostylis bracteata</i>		Priority 3	
<i>Cyathochaeta teretifolia</i>		Priority 3	
<i>Dampiera triloba</i>		Priority 3	
<i>Eryngium pinnatifidum</i> subsp. <i>Palustre</i> (G.J. Keighery 13459)		Priority 3	
<i>Eryngium</i> sp. <i>Subdecumbens</i> (G.J. Keighery 5390)		Priority 3	
<i>Haemodorum loratum</i>		Priority 3	
<i>Hibbertia spicata</i> subsp. <i>leptotheaca</i>		Priority 3	
<i>Isopogon drummondii</i>		Priority 3	
<i>Schoenus benthamii</i>		Priority 3	
<i>Schoenus capillifolius</i>		Priority 3	
<i>Schoenus pennisetis</i>		Priority 3	
<i>Schoenus</i> sp. Waroona (G.J. Keighery 12235)		Priority 3	
<i>Stylium paludicola</i>		Priority 3	
<i>Aponogeton hexatepalus</i>	Stalked Water Ribbons	Priority 4	
<i>Boronia tenuis</i>		Priority 4	
<i>Dodonaea hackettiana</i>		Priority 4	
<i>Drosera occidentalis</i> subsp. <i>occidentalis</i>		Priority 4	
<i>Hydrocotyle lemnoides</i>		Priority 4	
<i>Jacksonia sericea</i>	Waldjumi	Priority 4	
<i>Schoenus natans</i>	Floating Bog-rush	Priority 4	
<i>Verticordia lindleyi</i> subsp. <i>lindleyi</i>		Priority 4	

Conservation Codes are shown in Appendix 3

Table 3: Preferred habitat of Identified Conservation Significant Flora

Scientific Name	Common Name	Habitat*
<i>Caladenia huegelii</i>	King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid	The Grand Spider-orchid prefers sand or clay loam. This species generally does not survive in disturbed areas.
<i>Drakaea elastica</i>	Glossy-leaved Hammer Orchid	The Glossy-leaved Hammer Orchid prefers low-lying situations adjoining winter-wet swamps. This species does not survive in disturbed areas.
<i>Eucalyptus x balanites</i>	Cadda Road Mallee	The Cadda Road Mallee prefers sandy soils with lateritic gravel.
<i>Grevillea curviloba</i> <i>subsp. curviloba</i>	Narrow curved-leaf Grevillea	Narrow curved-leaf Grevillea occurs in grey sand. Winter-wet heath. There are 17 known populations in an area between Muchea and Badgingarra (Phillimore and English, 2000).
<i>Grevillea thelemanniana</i> <i>subsp. thelemanniana</i>	Spider Net Grevillea	Spider Net Grevillea is recorded from the edge of a seasonal clay based open depression, on slightly deeper sandier soils. Moist grey-brown sandy loam over clay (Western Australian Herbarium, 2012).
<i>Synaphea</i> sp. Fairbridge Farm (D Papenfus 696)	Selena's Synaphea	Selena's Synaphea occurs in sandy with lateritic pebbles near winter-wet flats, in low woodland with weedy grasses.
<i>Thelymitra dedmaniarum</i> (<i>Thelymitra manginii</i>)	Cinnamon Sun-orchid	Cinnamon sun orchid is known from only two locations in the Gidgegannup area. It is confined to open wandoo woodland on red-brown sandy loam associated with dolerite and granite outcropping.
<i>Diuris micrantha</i>	Dwarf Bee-orchid	The Dwarf Bee-orchid is usually found on cleared firebreaks or open sandy patches that have been disturbed in Jarrah Banksia woodland or thickets of Spearwood (<i>Kunzea ericifolia/glabrescens</i>) (Williams et al., 2001).
<i>Diuris purdiei</i>	Purdie's Donkey-orchid	Purdie's Donkey Orchid occurs in grey-black sand in moist winter-wet swamps.
<i>Eremophila glabra</i> <i>subsp. chlorella</i>		<i>Eremophila glabra</i> subsp. <i>chlorella</i> occurs in sandy clay in winter-wet depressions.
<i>Lepidosperma rostratum</i>	Beaked Lepidosperma	Beaked Lepidosperma is found in peaty sand, clay.
<i>Macarthuria keigheryi</i>	Keighery's Macarthuria	Keighery's Macarthuria prefers white or grey sand.
<i>Thelymitra stellata</i>	Star Sun-orchid	The Star Sun-orchid prefers sand, gravel or lateritic loam.
<i>Andersonia gracilis</i>	Slender Andersonia	Slender Andersonia occurs in white/grey sand, sandy clay, gravelly loam in winter-wet areas, near swamps.
<i>Anigozanthos viridis</i> <i>subsp. terrspectans</i>	Dwarf Green Kangaroo Paw	The Dwarf Green Kangaroo Paw occurs on grey sand, clay loam in winter-wet depressions.

Scientific Name	Common Name	Habitat*
<i>Conospermum undulatum</i>	Wavy-leaved Smokebush	Wavy-leaved Smokebush prefers grey or yellow-orange clayey sand.
<i>Drakaea micrantha</i>	Dwarf Hammer-orchid	Dwarf Hammer-orchid occurs in grey sands over dark, grey to blackish, sandy clay-loam substrates in winter wet depressions or swamps.
<i>Eleocharis keigheryi</i>	Keighery's Eleocharis	Keighery's Eleocharis occurs in clay, sandy loam and is emergent in freshwater: creeks, claypans.
<i>Haloragis scoparia</i>		<i>Haloragis scoparia</i> was recorded from an old lake bed, winter wet. Black calcareous clay over limestone (Western Australian Herbarium, 1994).
<i>Ptilotus sericostachyus</i> subsp. <i>roseus</i>		<i>Ptilotus sericostachyus</i> subsp. <i>roseus</i> was last recorded in 1906 (David and Tauss, 2011) in valleys (National Herbarium of Victoria, 1877).
<i>Johnsonia pubescens</i> subsp. <i>cognorum</i>		<i>Johnsonia pubescens</i> subsp. <i>cognorum</i> occurs on grey-white-yellow sand on flats on seasonally-wet sites.
<i>Melaleuca viminalis</i>		<i>Melaleuca viminalis</i> is recorded from stony riverbed in rapids with sandstone rocks overlying volcanics, in the creekline of sandstone gorges in sand among rocks, and around a pool below a waterfall (Craven, Lepschi and Cowley, 2010).
<i>Stylium aceratum</i>		<i>Stylium aceratum</i> occurs in sandy soils in swamp heathland.
<i>Thelymitra variegata</i>	Queen of Sheba	<i>Stylium aceratum</i> grows in sandy clay, sand, laterite.
<i>Amanita preissii</i>	Cinnamon-ring Lepidella	Cinnamon-ring Lepidella is found under shrubs and Eucalyptus in West Australia.
<i>Angianthus micropodioides</i>		<i>Angianthus micropodioides</i> occurs in saline sandy soils on river edges, saline depressions, claypans.
<i>Byblis gigantea</i>	Rainbow Plant	The Rainbow Plant occurs in sandy-peat swamps in seasonally wet areas.
<i>Conostylis bracteata</i>		<i>Conostylis bracteata</i> occurs in sand, limestone on consolidated sand dunes.
<i>Cyathochaeta teretifolia</i>		<i>Cyathochaeta teretifolia</i> grows in grey sand, sandy clay in swamps, creek edges.
<i>Dampiera triloba</i>		<i>Dampiera triloba</i> grows in loamy sand (Australian National Herbarium, 2009).
<i>Eryngium pinnatifidum</i> subsp. Palustre (G.J. Keighery 13459)		<i>Eryngium pinnatifidum</i> subsp. Palustre is recorded from a winter wet claypan, water to 20 cm deep. Grey-brown clay (Western Australian Herbarium, 1989).
<i>Eryngium</i> sp. Subdecumbens (G.J. Keighery 5390)		<i>Eryngium</i> sp. Subdecumbens grows in glay, grey sand on seasonally wet flats, claypans, swamps.

Scientific Name	Common Name	Habitat*
<i>Haemodorum loratum</i>		<i>Haemodorum loratum</i> prefers grey or yellow sand, gravel.
<i>Hibbertia spicata</i> subsp. <i>leptotheaca</i>		<i>Hibbertia spicata</i> subsp. <i>leptotheaca</i> grows near-coastal limestone ridges, outcrops and cliffs.
<i>Isopogon drummondii</i>		<i>Isopogon drummondii</i> occurs in white, grey or yellow sand, often over laterite.
<i>Schoenus benthamii</i>		<i>Schoenus benthamii</i> prefers white, grey sand, sandy clay in winter-wet flats, swamps.
<i>Schoenus capillifolius</i>		<i>Schoenus capillifolius</i> grows in brown mud on claypans.
<i>Schoenus pennisetis</i>		<i>Schoenus pennisetis</i> prefers grey or peaty sand, sandy clay in swamps, winter-wet depressions.
<i>Schoenus</i> sp. Waroona (G.J. Keighery 12235)		<i>Schoenus</i> sp. Waroona occurs in clay or sandy clay on winter-wet flats.
<i>Stylium paludicola</i>		<i>Stylium paludicola</i> prefers peaty sand over clay in winter wet habitats in Marri and Melaleuca woodland, Melaleuca shrubland.
<i>Aponogeton hexatepalus</i>	Stalked Water Ribbons	Stalked Water Ribbons grow in freshwater: ponds, rivers, claypans.
<i>Boronia tenuis</i>		<i>Boronia tenuis</i> prefers laterite, stony soils, granite.
<i>Dodonaea hackettiana</i>	Hackett's Hopbush	Hackett's Hopbush occurs in sand with outcropping limestone.
<i>Drosera occidentalis</i> subsp. <i>occidentalis</i>		<i>Drosera occidentalis</i> subsp. <i>occidentalis</i> occurs in sandy and clayey soils in swamps and wet depressions.
<i>Hydrocotyle lemnoides</i>		<i>Hydrocotyle lemnoides</i> occurs in swamps.
<i>Jacksonia sericea</i>	Waldjumi	Waldjumi grows in calcareous and sandy soils.
<i>Schoenus natans</i>	Floating Bog-rush	Floating Bog-rush occurs in winter-wet depressions.
<i>Verticordia lindleyi</i> subsp. <i>lindleyi</i>		<i>Verticordia lindleyi</i> subsp. <i>lindleyi</i> prefers sand, sandy clay in winter-wet depressions.

4.2 Flora

The site did not contain any intact native vegetation in Good condition or better. One small stand of Geraldton Wax within the rail reserve also contained a few native plants as indicated in Table 4. Several Jarrah and Marri trees were also located within the rail reserve at Location 2.

No weed species listed as Declared Pests under S22 of the BAM Act or as Weeds of National Significance were recorded on the site.

A list of all the trees and shrubs recorded in the survey area is provided in Table 4. Some species are locally native species but have all been planted rather than being remnant plants.

Table 4: Trees and Shrubs Recorded in the Survey Area

Scientific Name	Common Name	Native to Site	Rail Reserve	Road Reserve
<i>Acacia saligna</i>	Orange Wattle	-	-	+
<i>Adenanthera cygnorum</i>	Woolly Bush	+	+	-
<i>Agonis flexuosa</i>	WA Peppermint	-	+	+
<i>Araucaria heterophylla</i>	Norfolk Island Pine	-	-	+
<i>Bauhinia purpurea</i>	Purple Bauhinia	-	-	+
<i>Bossiaea eriocarpa</i>	Common Brown Pea	+	+	
<i>Brachychiton populneus</i>	Kurrajong	-	-	+
<i>Callistemon viminalis</i>	Bottlebrush	-	-	+
<i>Chamelaucium uncinatum</i>	Geraldton Wax	-	+	+
<i>Corymbia calophylla</i>	Marri	+	+	-
<i>Corymbia citriodora</i>	Lemon-scented Gum	-	-	+
<i>Corymbia ficifolia</i>	Red Flowering Gum	-	-	+
<i>Eucalyptus caesia</i>	Silver Princess	-	-	+
<i>Eucalyptus camaldulensis</i>	River Red Gum	-	-	+
<i>Eucalyptus erythrocorys</i>	Illyarrie	-	-	+
<i>Eucalyptus marginata</i>	Jarrah	+	+	-
<i>Grevillea olivacea</i>	Olive Grevillea	-	-	+
<i>Jacksonia furcellata</i>	Grey Stinkwood	+	+	
<i>Leptospermum laevigatum</i>	Victorian Tea Tree	-	+	+
<i>Macrozamia riedlei</i>	Zamia Palm	+	+	-
<i>Melaleuca nesophila</i>	Mindiyed	-	-	+
<i>Melaleuca preissiana</i>	Moonah Paperbark	-	-	+
<i>Melaleuca quinquenervia</i>	Broad Leaved Paperbark	-	-	+
<i>Jacaranda mimosifolia</i>	Jacaranda	-	-	+
<i>Olea europaea</i>	Olive	-	-	+
<i>Scholtzia involucrata</i>	Spike Scholtzia	+	+	-
<i>Stirlingia latifolia</i>	Blueboy	+	+	-
<i>Thysanotus patersonii</i>		+	+	-
<i>Verticordia densiflora</i>	Compacted Featherflower	+	+	-
<i>Xanthorrhoea preissii</i>	Balga	+	+	+

4.3 Vegetation

4.3.1 Vegetation Types

No intact native vegetation was recorded in the survey area (Figure 4).

A broad description of the vegetation recorded on the site follows. Photographs of areas described are provided in Appendix 4 and the locations shown on Figure 3.

Location 1 – Geraldton Wax and Woolly Bush shrubs occur within the rail reserve.

Some *Melaleuca quinquenervia* trees in the road reserve.

Location 2 – some young Jarrah and Marri trees in weedy area in rail reserve as well as Geraldton Wax, WA Peppermint, *Adenanthes cygnorum* (Woolly Bush) and *Jacksonia furcellata*.

Road reserve contains Olive trees, Illyarrie, Red Flowering Gum, *Melaleuca quinquenervia*.

Location 3 – Small area of Geraldton Wax and WA Peppermint with several native species as listed in Table 2.

Road reserve contains Olive trees, Geraldton Wax and *Xanthorrhoea preissii*.

Location 4 – Olive and *Melaleuca quinquenervia* trees in the road reserve.

Location 5 – Few WA Peppermints, Geraldton Wax and *Xanthorrhoea preissii* in rail reserve.

Norfolk Island Pine trees, WA Peppermint, Bottlebrush and *Melaleuca nesophila* in road reserve.

Location 6 – WA Peppermint and *Xanthorrhoea preissii* in rail reserve.

Norfolk Island Pine, Bottlebrush and *Melaleuca nesophila* in road reserve.

Location 7 – One large River Red Gum and one Moonah Paperbark in Cohn Street road reserve.

Location 8 – WA Peppermint, Geraldton Wax and *Xanthorrhoea preissii* in rail reserve.

Norfolk Island Pine trees, WA Peppermint, Bottlebrush and *Melaleuca nesophila* in road reserve.

Location 9 – Kurrajong in road reserve.

Location 10 – Jacarandas next to carpark.

Location 11 – Two Red Flowering Gums next to carpark.

Location 12 – WA Peppermint, some Geraldton Wax and *Xanthorrhoea preissii* in rail reserve.

Red Flowering Gum in road reserve.

Location 13 – WA Peppermint and Geraldton Wax in rail reserve.

Olive Grevillea, Silver Princess, Red Flowering Gum, *Melaleuca quinquenervia* and Bottlebrush in road reserve.

Location 14 – WA Peppermint and Bottlebrush both sides of Dane Street road reserve.

Location 15 – Norfolk Island Pine, *Melaleuca quinquenervia* and Bottlebrush in road reserve

Location 16 – Purple Bauhinia both sides of Lion Street road verge.

Location 17 – Geraldton Wax, WA Peppermint and Victorian Teatree in rail reserve

Olive Grevillea, Silver Princess, Red Flowering Gum, *Melaleuca quinquenervia* and Bottlebrush in road reserve

Location 18 – *Melaleuca quinquenervia* next to carpark.

4.3.2 Vegetation Condition

The condition of the site was assessed according to the system of Keighery as described in Bush Forever (Government of Western Australia, 2000) (Table 5).

Table 5: Vegetation Condition Rating Scale

Condition	Description
Pristine	Pristine or nearly so, no obvious signs of disturbance.
Excellent	Vegetation structure intact, disturbance affecting individual species and weeds are non-aggressive species.
Very Good	Vegetation structure altered, obvious signs of disturbance. For example, disturbance to vegetation structure caused by repeated fires, the presence of some more aggressive weeds, dieback, logging and grazing.
Good	Vegetation structure significantly altered by very obvious signs of multiple disturbance. Retains basic vegetation structure or ability to regenerate to it. For example, disturbance to vegetation structure caused by very frequent fires, the presence of some very aggressive weeds at high density, partial clearing, dieback and grazing.
Degraded	Basic vegetation structure severely impacted by disturbance. Scope for regeneration but not to a state approaching good condition without intensive management. For example, disturbance to vegetation structure caused by very frequent fires, the presence of very aggressive weeds, partial clearing, dieback and grazing.
Completely Degraded	The structure of the vegetation is no longer intact and the area is completely or almost completely without native species. These are often described as ‘parkland cleared’ with the flora comprising weed or crop species with isolated native trees or shrubs.

The whole site was rated as Completely Degraded (Figure 5).

4.4 Conservation Significance of Flora and Vegetation

4.4.1 Flora

No Threatened or Priority flora species were recorded on the site.

4.4.2 Vegetation

No native vegetation of conservation significance was recorded on the site. Therefore, no Threatened or Priority Ecological Communities occur on the site.

5 SUMMARY AND CONCLUSIONS

The Flora and Vegetation survey resulted in the following findings:

- No intact areas of native vegetation were recorded on the site;
- Some vegetation was recorded within the rail reserve. The vegetation mostly consisted of non-local Geraldton Wax and WA Peppermint with some Balga (*Xanthorrhoea preissii*) shrubs present. A small area containing some native plants among a dense stand of Geraldton Wax and WA Peppermint was recorded at one location within the rail reserve;
- The vegetation in the road reserves and carparks is all planted non-local native and exotic trees and shrubs;
- The condition of all vegetation recorded was rated as Completely Degraded;
- No Threatened (Declared Rare) or Priority flora species were recorded on the site;
- No Threatened or Priority Ecological Communities were recorded on the site; and
- No weed species listed as Declared Pests under S22 of the BAM Act or as Weeds of National Significance were recorded on the site.

Priority 2	3	3
Priority 3	20	83
Priority 4	12	436
Protected under international agreement	14	751
Rare or likely to become extinct	22	1808
TOTAL	1704	68709

Name ID	Species Name	Naturalised	Conservation Code	'Endemic To Query Area'
---------	--------------	-------------	-------------------	-------------------------

Rare or likely to become extinct

1.	6309 <i>Andersonia gracilis</i>	T
2.	24345 <i>Botaurus poiciloptilus</i> (<i>Australasian Bittern</i>)	T
3.	1596 <i>Caladenia huegelii</i> (<i>Grand Spider Orchid</i>)	T
4.	24784 <i>Calidris ferruginea</i> (<i>Curlew Sandpiper</i>)	T
5.	24731 <i>Calyptorhynchus banksii</i> subsp. <i>naso</i> (<i>Forest Red-tailed Black Cockatoo</i>)	T
6.	24733 <i>Calyptorhynchus baudinii</i> (<i>Baudin's Cockatoo, White-tailed Long-billed Black Cockatoo</i>)	T
7.	24734 <i>Calyptorhynchus latirostris</i> (<i>Carnaby's Cockatoo, White-tailed Short-billed Black Cockatoo</i>)	T
8.	48400 <i>Calyptorhynchus</i> sp. (<i>white-tailed black cockatoo</i>)	T
9.	13999 <i>Conospermum undulatum</i>	T
10.	24092 <i>Dasyurus geoffroii</i> (<i>Chuditch, Western Quoll</i>)	T
11.	1637 <i>Diuris purdiei</i> (<i>Purdie's Donkey Orchid</i>)	T
12.	17605 <i>Eleocharis keigheryi</i>	T
13.	17150 <i>Eremophila glabra</i> subsp. <i>chlorella</i>	T
14.	24473 <i>Falco hypoleucus</i> (<i>Grey Falcon</i>)	T
15.	2107 <i>Grevillea thelemanniana</i> (<i>Spider Net Grevillea</i>)	T
16.	33983 <i>Leioproctus douglasiellus</i> (<i>a short-tongued bee</i>)	T
17.	17106 <i>Macarthuria keigheryi</i>	T
18.	33984 <i>Neopasiphae simplicior</i> (<i>a short-tongued bee</i>)	T
19.	24798 <i>Numenius madagascariensis</i> (<i>Eastern Curlew</i>)	T
20.	25345 <i>Pseudemydura umbrina</i> (<i>Western Swamp Tortoise, Western Swamp Turtle</i>)	T
21.	1033 <i>Tetraaria australiensis</i>	T
22.	34113 <i>Westrailunio carteri</i> (<i>Carter's Freshwater Mussel</i>)	T

Protected under international agreement

23.	41323 <i>Actitis hypoleucus</i> (<i>Common Sandpiper</i>)	IA
24.	24779 <i>Calidris acuminata</i> (<i>Sharp-tailed Sandpiper</i>)	IA
25.	24786 <i>Calidris melanotos</i> (<i>Pectoral Sandpiper</i>)	IA
26.	24788 <i>Calidris ruficollis</i> (<i>Red-necked Stint</i>)	IA
27.	24789 <i>Calidris subminuta</i> (<i>Long-toed Stint</i>)	IA
28.	48587 <i>Hydroprogne caspia</i> (<i>Caspian Tern</i>)	IA
29.	24690 <i>Macronectes giganteus</i> (<i>Southern Giant Petrel</i>)	IA
30.	48591 <i>Pandion cristatus</i> (<i>Osprey, Eastern Osprey</i>)	IA
31.	24843 <i>Plegadis falcinellus</i> (<i>Glossy Ibis</i>)	IA
32.	24383 <i>Pluvialis squatarola</i> (<i>Grey Plover</i>)	IA
33.	24716 <i>Puffinus pacificus</i> (<i>Wedge-tailed Shearwater</i>)	IA
34.	48597 <i>Thalasseus bergii</i> (<i>Crested Tern</i>)	IA
35.	24806 <i>Tringa glareola</i> (<i>Wood Sandpiper</i>)	IA
36.	24808 <i>Tringa nebularia</i> (<i>Common Greenshank, greenshank</i>)	IA

Other specially protected fauna

185.	<i>Aphelia cyperoides</i>			
186.	<i>Aphelia drummondii</i>			
187.	<i>Apium annuum</i>			
188.	<i>Apium prostratum</i> var. <i>prostratum</i> (<i>Sea Celery</i>)			
189.	<i>Apogon victoriae</i>			
190.	<i>Aprasia repens</i> (<i>Sand-plain Worm-lizard</i>)			
191.	<i>Aquila audax</i> (<i>Wedge-tailed Eagle</i>)			
192.	<i>Ara ararauna</i>	Y		
193.	<i>Aracana aurita</i>			
194.	<i>Arachnura higginsi</i>			
195.	<i>Araneus cypensis</i>			
196.	<i>Araneus eburneiventris</i>			
197.	<i>Araneus sericatus</i>			
198.	<i>Araneus talipedatus</i>			
199.	<i>Arcyria minuta</i>			
200.	<i>Arcyria pomiformis</i>			
201.	<i>Ardea garzetta</i> (<i>Little Egret</i>)			
202.	<i>Ardea garzetta</i> subsp. <i>nigripes</i> (<i>Little Egret</i>)			
203.	<i>Ardea intermedia</i> (<i>Intermediate Egret</i>)			
204.	<i>Ardea modesta</i> (<i>great egret, white egret</i>)			
205.	<i>Ardea novaehollandiae</i> (<i>White-faced Heron</i>)			
206.	<i>Ardea pacifica</i> (<i>White-necked Heron</i>)			
207.	<i>Ardea sacra</i> (<i>Eastern Reef Egret, Eastern Reef Heron</i>)			
208.	<i>Ardeotis australis</i> (<i>Australian Bustard</i>)			
209.	<i>Argemone ochroleuca</i> subsp. <i>ochroleuca</i>	Y		
210.	<i>Argiope protensa</i>			
211.	<i>Argiope trifasciata</i>			
212.	<i>Argyranthemum frutescens</i> subsp. <i>foeniculaceum</i>	Y		
213.	<i>Argyrosomus japonicus</i>			
214.	<i>Armocrinum preissii</i>			
215.	<i>Arrhenatherum elatius</i> var. <i>bulbosum</i> (<i>Onion Twitch</i>)	Y		
216.	<i>Artamus cinereus</i> (<i>Black-faced Woodswallow</i>)			
217.	<i>Artamus cinereus</i> subsp. <i>melanops</i> (<i>Black-faced Woodswallow</i>)			
218.	<i>Artamus cyanopterus</i> (<i>Dusky Woodswallow</i>)			
219.	<i>Artemia atlanta</i>			
220.	<i>Artoria linnaei</i>			
221.	<i>Artoria taeniifera</i>			
222.	<i>Artoriopsis expolita</i>			
223.	<i>Arundo donax</i> (<i>Giant Reed</i>)	Y		
224.	<i>Asparagus officinalis</i> (<i>Asparagus</i>)	Y		
225.	<i>Asphodelus fistulosus</i> (<i>Onion Weed</i>)	Y		
226.	<i>Astartea affinis</i> (<i>West-coast Astartea</i>)			
227.	<i>Astartea scoparia</i> (<i>Common Astartea</i>)			
228.	<i>Astroloma macrocalyx</i> (<i>Swan Berry</i>)			
229.	<i>Astroloma microcalyx</i> (<i>Native Cranberry</i>)			
230.	<i>Astroloma pallidum</i> (<i>Kick Bush</i>)			
231.	<i>Astroloma stomarrhena</i> (<i>Red Swamp Cranberry</i>)			
232.	<i>Astroloma xerophyllum</i>			
233.	<i>Atriplex hypoleuca</i>			
234.	<i>Atriplex prostrata</i> (<i>Hastate Orache</i>)	Y		
235.	<i>Atriplex semibaccata</i> (<i>Berry Saltbush</i>)			
236.	<i>Auricularia cornea</i>			
237.	<i>Austracantha minax</i>			
238.	<i>Austrammo harveyi</i>			

Name ID	Species Name	Naturalised	Conservation Code	¹ Endemic To Query Area
239.	<i>Austrostipa variabilis</i>			
240.	<i>Avena barbata</i> (Bearded Oat)	Y		
241.	<i>Axonopus fissifolius</i>	Y		
242.	<i>Aythya australis</i> (Hardhead)			
243.	<i>Azolla rubra</i>			
244.	<i>Babiana nana</i>	Y		
245.	<i>Babingtonia camphorosmae</i> (Camphor Myrtle)			
246.	<i>Bacopa monnieri</i>	Y		
247.	<i>Badhamia panicosa</i>			
248.	<i>Badumna insignis</i>			
249.	<i>Bangia atropurpurea</i>			
250.	<i>Banksia armata</i> var. <i>armata</i>			
251.	<i>Banksia attenuata</i> (Slender Banksia, Piara)			
252.	<i>Banksia grandis</i> (Bull Banksia, Pulgarla)			
253.	<i>Banksia ilicifolia</i> (Holly-leaved Banksia)			
254.	<i>Banksia incana</i>			
255.	<i>Banksia littoralis</i> (Swamp Banksia, Pungura)			
256.	<i>Banksia menziesii</i> (Firewood Banksia)

Name ID	Species Name	Naturalised	Conservation Code	¹ Endemic To Query Area
---------	--------------	-------------	-------------------	------------------------------------

Conservation Codes

- R - Rare or likely to become extinct
- X - Presumed extinct
- IA - Protected under international agreement
- S - Other specially protected fauna
- 1 - Priority 1
- 2 - Priority 2
- 3 - Priority 3
- 4 - Priority 4
- 5 - Priority 5

¹ For NatureMap's purposes, species flagged as endemic are those whose records are wholly contained within the search area. Note that only those records complying with the search criterion are included in the calculation. For example, if you limit records to those from a specific datasource, only records from that datasource are used to determine if a species is restricted to the query area.

APPENDIX 2

Protected Matters Search Tool Report

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected.

Information on the coverage of this report and qualifications on data supporting this report are contained in the caveat at the end of the report.

Information is available about [Environment Assessments](#) and the EPBC Act including significance guidelines, forms and application process details.

Report created: 01/11/18 18:34:15

Summary

Matters of National Environmental Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance:	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	None
Listed Threatened Ecological Communities:	1
Listed Threatened Species:	44
Listed Migratory Species:	25

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <http://www.environment.gov.au/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Land:	2
Commonwealth Heritage Places:	1
Listed Marine Species:	31
Whales and Other Cetaceans:	None
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Australian Marine Parks:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have nominated.

State and Territory Reserves:	1
Regional Forest Agreements:	None
Invasive Species:	43
Nationally Important Wetlands:	1
Key Ecological Features (Marine)	None

Details

Matters of National Environmental Significance

Listed Threatened Ecological Communities	[Resource Information]	
For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.		
Name	Status	Type of Presence
Banksia Woodlands of the Swan Coastal Plain ecological community	Endangered	Community likely to occur within area
Listed Threatened Species	[Resource Information]	
Name	Status	Type of Presence
Birds		
Anous tenuirostris melanops		
Australian Lesser Noddy [26000]	Vulnerable	Species or species habitat may occur within area
Botaurus poiciloptilus		
Australasian Bittern [1001]	Endangered	Species or species habitat known to occur within area
Calidris ferruginea		
Curlew Sandpiper [856]	Critically Endangered	Species or species habitat likely to occur within area
Calyptorhynchus banksii naso		
Forest Red-tailed Black-Cockatoo, Karrak [67034]	Vulnerable	Species or species habitat known to occur within area
Calyptorhynchus baudinii		
Baudin's Cockatoo, Long-billed Black-Cockatoo [769]	Endangered	Species or species habitat likely to occur within area
Calyptorhynchus latirostris		
Carnaby's Cockatoo, Short-billed Black-Cockatoo [59523]	Endangered	Species or species habitat known to occur within area
Diomedea amsterdamensis		
Amsterdam Albatross [64405]	Endangered	Species or species habitat may occur within area
Diomedea epomophora		
Southern Royal Albatross [89221]	Vulnerable	Species or species habitat likely to occur within area
Diomedea exulans		
Wandering Albatross [89223]	Vulnerable	Species or species habitat likely to occur within area
Diomedea sanfordi		
Northern Royal Albatross [64456]	Endangered	Species or species habitat likely to occur within area
Leipoa ocellata		
Malleefowl [934]	Vulnerable	Species or species habitat may occur within

Name	Status	Type of Presence area
<u>Macronectes giganteus</u> Southern Giant-Petrel, Southern Giant Petrel [1060]	Endangered	Species or species habitat may occur within area
<u>Macronectes halli</u> Northern Giant Petrel [1061]	Vulnerable	Species or species habitat may occur within area
<u>Numenius madagascariensis</u> Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat may occur within area
<u>Pachyptila turtur_subantarctica</u> Fairy Prion (southern) [64445]	Vulnerable	Species or species habitat likely to occur within area
<u>Rostratula australis</u> Australian Painted-snipe, Australian Painted Snipe [77037]	Endangered	Species or species habitat likely to occur within area
<u>Thalassarche cauta cauta</u> Shy Albatross, Tasmanian Shy Albatross [82345]	Vulnerable	Species or species habitat may occur within area
<u>Thalassarche cauta steadi</u> White-capped Albatross [82344]	Vulnerable	Species or species habitat likely to occur within area
<u>Thalassarche impavida</u> Campbell Albatross, Campbell Black-browed Albatross [64459]	Vulnerable	Species or species habitat may occur within area
<u>Thalassarche melanophrys</u> Black-browed Albatross [66472]	Vulnerable	Species or species habitat may occur within area
Mammals		
<u>Dasyurus geoffroii</u> Chuditch, Western Quoll [330]	Vulnerable	Species or species habitat likely to occur within area
<u>Neophoca cinerea</u> Australian Sea-lion, Australian Sea Lion [22]	Vulnerable	Species or species habitat known to occur within area
<u>Pseudocheirus occidentalis</u> Western Ringtail Possum, Ngwayir, Womp, Woder, Ngoor, Ngoolangit [25911]	Critically Endangered	Species or species habitat may occur within area
Other		
<u>Westralunio carteri</u> Carter's Freshwater Mussel, Freshwater Mussel [86266]	Vulnerable	Species or species habitat may occur within area
Plants		
<u>Andersonia gracilis</u> Slender Andersonia [14470]	Endangered	Species or species habitat known to occur within area
<u>Calytrix breviseta subsp. breviseta</u> Swamp Starflower [23879]	Endangered	Species or species habitat likely to occur within area
<u>Conospermum undulatum</u> Wavy-leaved Smokebush [24435]	Vulnerable	Species or species habitat likely to occur within area
<u>Diuris micrantha</u> Dwarf Bee-orchid [55082]	Vulnerable	Species or species habitat may occur within area

Name	Status	Type of Presence
<u>Diuris purdiei</u> Purdie's Donkey-orchid [12950]	Endangered	Species or species habitat likely to occur within area
<u>Drakaea elastica</u> Glossy-leaved Hammer Orchid, Glossy-leaved Hammer Orchid, Warty Hammer Orchid [16753]	Endangered	Species or species habitat likely to occur within area
<u>Drakaea micrantha</u> Dwarf Hammer-orchid [56755]	Vulnerable	Species or species habitat likely to occur within area
<u>Eleocharis keigheryi</u> Keighery's Eleocharis [64893]	Vulnerable	Species or species habitat may occur within area
<u>Eremophila glabra subsp. chlorella</u> [84927]	Endangered	Species or species habitat known to occur within area
<u>Eucalyptus x balanites</u> Cadda Road Mallee, Cadda Mallee [87816]	Endangered	Species or species habitat may occur within area
<u>Grevillea curviloba subsp. incurva</u> Narrow curved-leaf Grevillea [64909]	Endangered	Species or species habitat may occur within area
<u>Lepidosperma rostratum</u> Beaked Lepidosperma [14152]	Endangered	Species or species habitat likely to occur within area
<u>Macarthuria keigheryi</u> Keighery's Macarthuria [64930]	Endangered	Species or species habitat likely to occur within area
<u>Synaphea sp. Fairbridge Farm (D. Papenfus 696)</u> Selena's Synaphea [82881]	Critically Endangered	Species or species habitat likely to occur within area
<u>Thelymitra dedmaniarum</u> Cinnamon Sun Orchid [65105]	Endangered	Species or species habitat may occur within area
<u>Thelymitra stellata</u> Star Sun-orchid [7060]	Endangered	Species or species habitat may occur within area

Reptiles

<u>Caretta caretta</u> Loggerhead Turtle [1763]	Endangered	Species or species habitat known to occur within area
<u>Chelonia mydas</u> Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area
<u>Dermochelys coriacea</u> Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat known to occur within area
<u>Natator depressus</u> Flatback Turtle [59257]	Vulnerable	Species or species habitat known to occur within area

Listed Migratory Species	[Resource Information]	
* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Threatened	Type of Presence
Migratory Marine Birds		
<u>Apus pacificus</u> Fork-tailed Swift [678]		Species or species habitat likely to occur

Name	Threatened	Type of Presence within area
<u>Diomedea amsterdamensis</u> Amsterdam Albatross [64405]	Endangered	Species or species habitat may occur within area
<u>Diomedea epomophora</u> Southern Royal Albatross [89221]	Vulnerable	Species or species habitat likely to occur within area
<u>Diomedea exulans</u> Wandering Albatross [89223]	Vulnerable	Species or species habitat likely to occur within area
<u>Diomedea sanfordi</u> Northern Royal Albatross [64456]	Endangered	Species or species habitat likely to occur within area
<u>Macronectes giganteus</u> Southern Giant-Petrel, Southern Giant Petrel [1060]	Endangered	Species or species habitat may occur within area
<u>Macronectes halli</u> Northern Giant Petrel [1061]	Vulnerable	Species or species habitat may occur within area
<u>Thalassarche cauta</u> Tasmanian Shy Albatross [89224]	Vulnerable*	Species or species habitat may occur within area
<u>Thalassarche impavida</u> Campbell Albatross, Campbell Black-browed Albatross [64459]	Vulnerable	Species or species habitat may occur within area
<u>Thalassarche melanophris</u> Black-browed Albatross [66472]	Vulnerable	Species or species habitat may occur within area
<u>Thalassarche steadi</u> White-capped Albatross [64462]	Vulnerable*	Species or species habitat likely to occur within area
Migratory Marine Species		
<u>Caretta caretta</u> Loggerhead Turtle [1763]	Endangered	Species or species habitat known to occur within area
<u>Chelonia mydas</u> Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area
<u>Dermochelys coriacea</u> Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat known to occur within area
<u>Manta alfredi</u> Reef Manta Ray, Coastal Manta Ray, Inshore Manta Ray, Prince Alfred's Ray, Resident Manta Ray [84994]		Species or species habitat may occur within area
<u>Manta birostris</u> Giant Manta Ray, Chevron Manta Ray, Pacific Manta Ray, Pelagic Manta Ray, Oceanic Manta Ray [84995]		Species or species habitat may occur within area
<u>Natator depressus</u> Flatback Turtle [59257]	Vulnerable	Species or species habitat known to occur within area
Migratory Terrestrial Species		
<u>Motacilla cinerea</u> Grey Wagtail [642]		Species or species habitat may occur within area
Migratory Wetlands Species		

Name	Threatened	Type of Presence
<i>Actitis hypoleucus</i> Common Sandpiper [59309]		Species or species habitat known to occur within area
<i>Calidris acuminata</i> Sharp-tailed Sandpiper [874]		Species or species habitat known to occur within area
<i>Calidris ferruginea</i> Curlew Sandpiper [856]	Critically Endangered	Species or species habitat likely to occur within area
<i>Calidris melanotos</i> Pectoral Sandpiper [858]		Species or species habitat likely to occur within area
<i>Numenius madagascariensis</i> Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat may occur within area
<i>Pandion haliaetus</i> Osprey [952]		Breeding known to occur within area
<i>Tringa nebularia</i> Common Greenshank, Greenshank [832]		Species or species habitat likely to occur within area

Other Matters Protected by the EPBC Act

Commonwealth Land	[Resource Information]			
The Commonwealth area listed below may indicate the presence of Commonwealth land in this vicinity. Due to the unreliability of the data source, all proposals should be checked as to whether it impacts on a Commonwealth area, before making a definitive decision. Contact the State or Territory government land department for further information.

Name	Threatened	Type of Presence
<i>Calidris ferruginea</i> Curlew Sandpiper [856]	Critically Endangered	Species or species habitat likely to occur within area
<i>Calidris melanotos</i> Pectoral Sandpiper [858]		Species or species habitat likely to occur within area
<i>Diomedea amsterdamensis</i> Amsterdam Albatross [64405]	Endangered	Species or species habitat may occur within area
<i>Diomedea epomophora</i> Southern Royal Albatross [89221]	Vulnerable	Species or species habitat likely to occur within area
<i>Diomedea exulans</i> Wandering Albatross [89223]	Vulnerable	Species or species habitat likely to occur within area
<i>Diomedea sanfordi</i> Northern Royal Albatross [64456]	Endangered	Species or species habitat likely to occur within area
<i>Haliaeetus leucogaster</i> White-bellied Sea-Eagle [943]		Species or species habitat likely to occur within area
<i>Macronectes giganteus</i> Southern Giant-Petrel, Southern Giant Petrel [1060]	Endangered	Species or species habitat may occur within area
<i>Macronectes halli</i> Northern Giant Petrel [1061]	Vulnerable	Species or species habitat may occur within area
<i>Merops ornatus</i> Rainbow Bee-eater [670]		Species or species habitat may occur within area
<i>Motacilla cinerea</i> Grey Wagtail [642]		Species or species habitat may occur within area
<i>Numenius madagascariensis</i> Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat may occur within area
<i>Pachyptila turtur</i> Fairy Prion [1066]		Species or species habitat likely to occur within area
<i>Pandion haliaetus</i> Osprey [952]		Breeding known to occur within area
<i>Rostratula benghalensis (sensu lato)</i> Painted Snipe [889]	Endangered*	Species or species habitat likely to occur within area
<i>Thalassarche cauta</i> Tasmanian Shy Albatross [89224]	Vulnerable*	Species or species habitat may occur within area
<i>Thalassarche impavida</i> Campbell Albatross, Campbell Black-browed Albatross [64459]	Vulnerable	Species or species habitat may occur within area
<i>Thalassarche melanophris</i> Black-browed Albatross [66472]	Vulnerable	Species or species habitat may occur within area
<i>Thalassarche steadi</i> White-capped Albatross [64462]	Vulnerable*	Species or species

Name	Threatened	Type of Presence
<i>Tringa nebularia</i> Common Greenshank, Greenshank [832]		habitat likely to occur within area Species or species habitat likely to occur within area
Mammals		
<i>Neophoca cinerea</i> Australian Sea-lion, Australian Sea Lion [22]	Vulnerable	Species or species habitat known to occur within area
Reptiles		
<i>Caretta caretta</i> Loggerhead Turtle [1763]	Endangered	Species or species habitat known to occur within area
<i>Chelonia mydas</i> Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area
<i>Dermochelys coriacea</i> Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat known to occur within area
<i>Natator depressus</i> Flatback Turtle [59257]	Vulnerable	Species or species habitat known to occur within area

Extra Information

State and Territory Reserves	[Resource Information]
Name	State
Unnamed WA49363	WA

Invasive Species	[Resource Information]
-------------------------	--

Weeds reported here are the 20 species of national significance (WoNS), along with other introduced plants that are considered by the States and Territories to pose a particularly significant threat to biodiversity. The following feral animals are reported: Goat, Red Fox, Cat, Rabbit, Pig, Water Buffalo and Cane Toad. Maps from Landscape Health Project, National Land and Water Resources Audit, 2001.

Name	Status	Type of Presence
Birds		
<i>Acridotheres tristis</i> Common Myna, Indian Myna [387]		Species or species habitat likely to occur within area
<i>Anas platyrhynchos</i> Mallard [974]		Species or species habitat likely to occur within area
<i>Carduelis carduelis</i> European Goldfinch [403]		Species or species habitat likely to occur within area
<i>Columba livia</i> Rock Pigeon, Rock Dove, Domestic Pigeon [803]		Species or species habitat likely to occur within area
<i>Passer domesticus</i> House Sparrow [405]		Species or species

Name	Status	Type of Presence
<i>Passer montanus</i> Eurasian Tree Sparrow [406]		habitat likely to occur within area
<i>Streptopelia chinensis</i> Spotted Turtle-Dove [780]		Species or species habitat likely to occur within area
<i>Streptopelia senegalensis</i> Laughing Turtle-dove, Laughing Dove [781]		Species or species habitat likely to occur within area
<i>Sturnus vulgaris</i> Common Starling [389]		Species or species habitat likely to occur within area
<i>Turdus merula</i> Common Blackbird, Eurasian Blackbird [596]		Species or species habitat likely to occur within area
Mammals		
<i>Bos taurus</i> Domestic Cattle [16]		Species or species habitat likely to occur within area
<i>Canis lupus familiaris</i> Domestic Dog [82654]		Species or species habitat likely to occur within area
<i>Felis catus</i> Cat, House Cat, Domestic Cat [19]		Species or species habitat likely to occur within area
<i>Funambulus pennantii</i> Northern Palm Squirrel, Five-striped Palm Squirrel [129]		Species or species habitat likely to occur within area
<i>Mus musculus</i> House Mouse [120]		Species or species habitat likely to occur within area
<i>Oryctolagus cuniculus</i> Rabbit, European Rabbit [128]		Species or species habitat likely to occur within area
<i>Rattus norvegicus</i> Brown Rat, Norway Rat [83]		Species or species habitat likely to occur within area
<i>Rattus rattus</i> Black Rat, Ship Rat [84]		Species or species habitat likely to occur within area
<i>Vulpes vulpes</i> Red Fox, Fox [18]		Species or species habitat likely to occur within area
Plants		
<i>Anredera cordifolia</i> Madeira Vine, Jalap, Lamb's-tail, Mignonette Vine, Anredera, Gulf Madeiravine, Heartleaf Madeiravine, Potato Vine [2643]		Species or species habitat likely to occur within area
<i>Asparagus aethiopicus</i> Asparagus Fern, Ground Asparagus, Basket Fern, Sprengi's Fern, Bushy Asparagus, Emerald Asparagus [62425]		Species or species habitat likely to occur within area
<i>Asparagus asparagoides</i> Bridal Creeper, Bridal Veil Creeper, Smilax, Florist's Smilax, Smilax Asparagus [22473]		Species or species habitat likely to occur within area

Name	Status	Type of Presence
<i>Asparagus declinatus</i> Bridal Veil, Bridal Veil Creeper, Pale Berry Asparagus Fern, Asparagus Fern, South African Creeper [66908]		Species or species habitat likely to occur within area
<i>Asparagus plumosus</i> Climbing Asparagus-fern [48993]		Species or species habitat likely to occur within area
<i>Brachiaria mutica</i> Para Grass [5879]		Species or species habitat may occur within area
<i>Cenchrus ciliaris</i> Buffel-grass, Black Buffel-grass [20213]		Species or species habitat may occur within area
<i>Chrysanthemoides monilifera</i> Bitou Bush, Boneseed [18983]		Species or species habitat may occur within area
<i>Chrysanthemoides monilifera</i> subsp. <i>monilifera</i> Boneseed [16905]		Species or species habitat likely to occur within area
<i>Eichhornia crassipes</i> Water Hyacinth, Water Orchid, Nile Lily [13466]		Species or species habitat likely to occur within area
<i>Genista linifolia</i> Flax-leaved Broom, Mediterranean Broom, Flax Broom [2800]		Species or species habitat likely to occur within area
<i>Genista monspessulana</i> Montpellier Broom, Cape Broom, Canary Broom, Common Broom, French Broom, Soft Broom [20126]		Species or species habitat likely to occur within area
<i>Genista</i> sp. X <i>Genista monspessulana</i> Broom [67538]		Species or species habitat may occur within area
<i>Lantana camara</i> Lantana, Common Lantana, Kamara Lantana, Large-leaf Lantana, Pink Flowered Lantana, Red Flowered Lantana, Red-Flowered Sage, White Sage, Wild Sage [10892] <i>Lycium ferocissimum</i> African Boxthorn, Boxthorn [19235]		Species or species habitat likely to occur within area
<i>Olea europaea</i> Olive, Common Olive [9160]		Species or species habitat may occur within area
<i>Opuntia</i> spp. Prickly Pears [82753]		Species or species habitat likely to occur within area
<i>Pinus radiata</i> Radiata Pine Monterey Pine, Insignis Pine, Wilding Pine [20780]		Species or species habitat may occur within area
<i>Rubus fruticosus</i> aggregate Blackberry, European Blackberry [68406]		Species or species habitat likely to occur within area
<i>Sagittaria platyphylla</i> Delta Arrowhead, Arrowhead, Slender Arrowhead [68483]		Species or species habitat likely to occur within area
<i>Salix</i> spp. except <i>S.babylonica</i> , <i>S.x calodendron</i> & <i>S.x reichardtii</i> Willows except Weeping Willow, Pussy Willow and Sterile Pussy Willow [68497]		Species or species habitat likely to occur within area

Name	Status	Type of Presence
<i>Salvinia molesta</i> Salvinia, Giant Salvinia, Aquarium Watermoss, Kariba Weed [13665]		Species or species habitat likely to occur within area
Tamarix aphylla Athel Pine, Athel Tree, Tamarisk, Athel Tamarisk, Athel Tamarix, Desert Tamarisk, Flowering Cypress, Salt Cedar [16018]		Species or species habitat likely to occur within area
Reptiles		
Hemidactylus frenatus Asian House Gecko [1708]		Species or species habitat likely to occur within area

Nationally Important Wetlands	[Resource Information]
Name	State
Swan-Canning Estuary	WA

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species distributions have been derived through a variety of methods. Where distributions are well known and if time permits, maps are derived using either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc) together with point locations and described habitat; or environmental modelling (MAXENT or BIOCLIM habitat modelling) using point locations and environmental data layers.

Where very little information is available for species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc). In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More reliable distribution mapping methods are used to update these distributions as time permits.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

APPENDIX 3

Conservation Codes

Conservation Codes for Western Australian Flora and Fauna

Specially protected fauna or flora are species* which have been adequately searched for and are deemed to be, in the wild, either rare, at risk of extinction, or otherwise in need of special protection, and have been gazetted as such.

Categories of specially protected fauna and flora are:

T Threatened species – Schedules 1-4

Published as Specially Protected under the *Wildlife Conservation Act 1950*, and listed under Schedules 1 to 4 of the Wildlife Conservation (Specially Protected Fauna) Notice for Threatened Fauna and Wildlife Conservation (Rare Flora) Notice for Threatened Flora (which may also be referred to as Declared Rare Flora).

- **Threatened fauna** is that subset of ‘Specially Protected Fauna’ declared to be ‘likely to become extinct’ pursuant to section 14(4) of the Wildlife Conservation Act.
- **Threatened flora** is flora that has been declared to be ‘likely to become extinct or is rare, or otherwise in need of special protection’, pursuant to section 23F(2) of the Wildlife Conservation Act.

The assessment of the conservation status of these species is based on their national extent and ranked according to their level of threat using IUCN Red List categories and criteria as detailed below.

CR Critically endangered species – Schedule 1

Threatened species considered to be facing an extremely high risk of extinction in the wild. Published as Specially Protected under the *Wildlife Conservation Act 1950*, in Schedule 1 of the Wildlife Conservation (Specially Protected Fauna) Notice for Threatened Fauna and Wildlife Conservation (Rare Flora) Notice for Threatened Flora.

EN Endangered species – Schedule 2

Threatened species considered to be facing a very high risk of extinction in the wild. Published as Specially Protected under the *Wildlife Conservation Act 1950*, in Schedule 2 of the Wildlife Conservation (Specially Protected Fauna) Notice for Threatened Fauna and Wildlife Conservation (Rare Flora) Notice for Threatened Flora.

VU Vulnerable species - Schedule 3

Threatened species considered to be facing a high risk of extinction in the wild. Published as Specially Protected under the *Wildlife Conservation Act 1950*, in Schedule 3 of the Wildlife Conservation (Specially Protected Fauna) Notice for Threatened Fauna and Wildlife Conservation (Rare Flora) Notice for Threatened Flora.

EX Presumed extinct species - Schedule 4

Species which have been adequately searched for and there is no reasonable doubt that the last individual has died. Published as Specially Protected under the *Wildlife Conservation Act 1950*, in Schedule 4 of the Wildlife Conservation (Specially Protected Fauna) Notice for Presumed Extinct Fauna and Wildlife Conservation (Rare Flora) Notice for Presumed Extinct Flora.

IA Migratory birds protected under an international agreement - Schedule 5

Birds that are subject to an agreement between the government of Australia and the governments of Japan (JAMBA), China (CAMBA) and The Republic of Korea (ROKAMBA), and the Bonn Convention, relating to the protection of migratory birds. Published as Specially Protected under the *Wildlife Conservation Act 1950*, in Schedule 5 of the Wildlife Conservation (Specially Protected Fauna) Notice.

CD Conservation dependent fauna - Schedule 6

Fauna of special conservation need being species dependent on ongoing conservation intervention to prevent it becoming eligible for listing as threatened. Published as Specially Protected under the *Wildlife Conservation Act 1950*, in Schedule 6 of the Wildlife Conservation (Specially Protected Fauna) Notice.

OS Other specially protected fauna - Schedule 7

Fauna otherwise in need of special protection to ensure their conservation. Published as Specially Protected under the *Wildlife Conservation Act 1950*, in Schedule 7 of the Wildlife Conservation (Specially Protected Fauna) Notice.

P Priority species

Possibly threatened species that do not meet survey criteria, or are otherwise data deficient, are added to the Priority Fauna or Priority Flora Lists under Priorities 1, 2 or 3. These three categories are ranked in order of priority for survey and evaluation of conservation status so that consideration can be given to their declaration as threatened flora or fauna.

Species that are adequately known, are rare but not threatened, or meet criteria for near threatened, or that have been recently removed from the threatened species or other specially protected fauna lists for other than taxonomic reasons, are placed in Priority 4. These species require regular monitoring.

Assessment of Priority codes is based on the Western Australian distribution of the species, unless the distribution in WA is part of a contiguous population extending into adjacent States, as defined by the known spread of locations.

1 Priority 1: Poorly-known species

Species that are known from one or a few locations (generally five or less) which are potentially at risk. All occurrences are either: very small; or on lands not managed for conservation, e.g. agricultural or pastoral lands, urban areas, road and rail reserves, gravel reserves and active mineral leases; or otherwise under threat of habitat destruction or degradation. Species may be included if they are comparatively well known from one or more locations but do not meet adequacy of survey requirements and appear to be under immediate threat from known threatening processes. Such species are in urgent need of further survey.

2 Priority 2: Poorly-known species

Species that are known from one or a few locations (generally five or less), some of which are on lands managed primarily for nature conservation, e.g. national parks, conservation parks, nature reserves and other lands with secure tenure being managed for conservation. Species may be included if they are comparatively well known from one or more locations but do not meet adequacy of survey requirements and appear to be under threat from known threatening processes. Such species are in urgent need of further survey.

3 Priority 3: Poorly-known species

Species that are known from several locations, and the species does not appear to be under imminent threat, or from few but widespread locations with either large population size or significant remaining areas of apparently suitable habitat, much of it not under imminent threat. Species may be included if they are comparatively well known from several locations but do not meet adequacy of survey requirements and known threatening processes exist that could affect them. Such species are in need of further survey.

4 Priority 4: Rare, Near Threatened and other species in need of monitoring

(a) Rare: Species that are considered to have been adequately surveyed, or for which sufficient knowledge is available, and that are considered not currently threatened or in need of special protection, but could be if present circumstances change. These species are usually represented on conservation lands.

(b) Near Threatened: Species that are considered to have been adequately surveyed and that are close to qualifying for Vulnerable, but are not listed as Conservation Dependent.

(c) Species that have been removed from the list of threatened species during the past five years for reasons other than taxonomy.

*Species includes all taxa (plural of taxon - a classificatory group of any taxonomic rank, e.g. a family, genus, species or any infraspecific category i.e. subspecies or variety, or a distinct population).

A list of the current rankings can be downloaded from the Parks and Wildlife Threatened Species and Communities webpage at <http://www.dpaw.wa.gov.au/plants-and-animals/threatened-species-and-communities>

Commonwealth of Australia Conservation Codes

Threatened fauna and flora may be listed under Section 178 of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) in any one of the following six categories:

Extinct

A native species is eligible to be included in the extinct category at a particular time if, at that time, there is no reasonable doubt that the last member of the species has died.

Extinct in the wild

A native species is eligible to be included in the extinct in the wild category at a particular time if, at that time:

- a) it is known only to survive in cultivation, in captivity or as a naturalised population well outside its past range; or
- b) it has not been recorded in its known and/or expected habitat, at appropriate seasons, anywhere in its past range, despite exhaustive surveys over a time frame appropriate to its life cycle and form.

Critically endangered

A taxon is Critically Endangered when the best available evidence indicates that it meets any of the five criteria for the category identified in Part 7.01 of the EPBC Regulations, and it is therefore considered to be facing an extremely high risk of extinction in the wild.

Endangered

A taxon is Endangered when the best available evidence indicates that it meets any of the five criteria for the category identified in Part 7.01 of the EPBC Regulations, and it is therefore considered to be facing a very high risk of extinction in the wild.

Vulnerable

A taxon is Vulnerable when the best available evidence indicates that it meets any of the five criteria for the category identified in Part 7.01 of the EPBC Regulations, and it is therefore considered to be facing a high risk of extinction in the wild.

Conservation dependent

A native species is eligible to be included in the conservation dependent category at a particular time if, at that time:

- a) the species is the focus of a specific conservation program the cessation of which would result in the species becoming vulnerable, endangered or critically endangered; or
- b) the following subparagraphs are satisfied:
 - i. the species is a species of fish;

- ii. the species is the focus of a plan of management that provides for management actions necessary to stop the decline of, and support the recovery of, the species so that its chances of long term survival in nature are maximised;
- iii. the plan of management is in force under a law of the Commonwealth or of a State or Territory;
- iv. cessation of the plan of management would adversely affect the conservation status of the species.

The EPBC Act does not provide for listing in a data deficient category. Where sufficient data (evidence) is unavailable to allow assessment by the Threatened Species Scientific Committee against the criteria for listing, the species are found to be ineligible. A recommendation is made to the Minister to not include the species in any category under the EPBC Act. For reasons of transparency and to inform future research, the Threatened Species Scientific Committee publishes the names of those species found to be data deficient. As data deficient is not a listing category under the EPBC Act, this has no statutory implications and the species is not considered to be listed under the EPBC Act.

APPENDIX 4

Field Data

Location 1 Geraldton Wax and Woolly Bush in rail reserve

Location 2 Jarrah and Marri in rail reserve

Location 3 *Xanthorrhoea preissii*, WA Peppermint and Geraldton Wax in rail reserve

Location 4 Olive and *Melaleuca quinquenervia* in road reserve

Location 5 Norfolk Island Pine, WA Peppermint and Bottlebrush in road reserve (photo taken from pedestrian crossing)

Location 6 WA Peppermint and *Xanthorrhoea preissii* in rail reserve

Location 7 River Red Gum and Moonah Paperbark on Cohn Street

Location 9 Kurrajong in road reserve

Location 12 WA Peppermint in rail reserve, Red Flowering Gum in road reserve

Location 13 WA Peppermint and Geraldton Wax in rail reserve, Bottlebrush in road reserve

Location 15 Norfolk Island Pine, *Melaleuca quinquenervia* and Bottlebrush in road reserve

Location 16 *Bauhinia* in Lion Street verge

Location 17 Geraldton Wax, WA Peppermint and Victorian Teatree in rail reserve

Location 18 *Melaleuca quinquenervia* in carpark verge
