or

Total area of clearing proposed (hectares)

Up to 498Ha

and/or

number of individual trees to be removed

Proposed method of clearing

Mechanical clearing – Tractor / Bulldozer – most of the land has been burnt by a bushfire within the last few years, so the dead timber can be pushed out and pile burnt. Where possible, we will retain any usable timber.

Period within which clearing is proposed to be undertaken, e.g. May 2020 to June 2020 (taking note of the published assessment timeframes for DWER / DMIRS, as applicable)

From October 2021

to

October 2023

Purpose of clearing

Regrowth maintenance, and clarification we can farm the areas that have previously been farmed given we're the new owners of the land. Once the existing leased tree areas are harvested, we endeavour to rehabilitate those areas back for agricultural usage.

Final land use [e.g. "the area will be revegetated to reflect pre-clearing conditions after extraction is complete", or "the area will be a public road"]:
