

Department of Water and Environmental Regulation
Department of Mines, Industry Regulation and Safety

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (including maps etc.). We will return / decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type.	☐ Referral of proposed clearing (section 51DA of the EP Act)
NOTE: Where appropriate in this form, and unless stated	☐ Application for an area permit (section 51E of the EP Act)
otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer'	□ Application for a purpose permit (section 51E of the EP Act)
respectively.	

Part 2 – Applicant details

2.1 Applicant name

For area	☐ Applying as a	n individual – complete the following:			
permits: If granted, the name(s) of (all)	Title	☐ Mr ☐ Mrs ☐ Ms ☐ Other:			
landowner(s) will be listed as	Name(s)				
'permit holders' on the permit.					
For purpose permits:	Name	Murchison Hydrogen Renewables Pty Ltd as trustee for the Murchison Hydrogen Renewables Trust Company Number (ACN) 650922062			
If granted, the name(s) of (all) applicant(s)	Australian Com				
will go on the permit.		government entity (e.g. nority, or other statutory	•	epartment, local	
	Name				

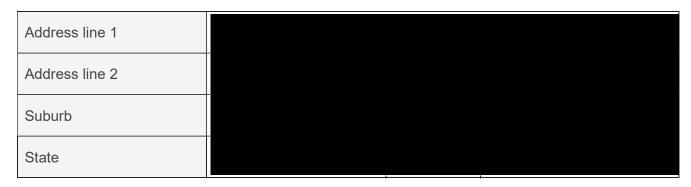

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	□ Mr ⊠ Mrs □ Ms □ Other:
First name	
Last name	
Position	
Company name	
Contact phone number (1)	
Email address	

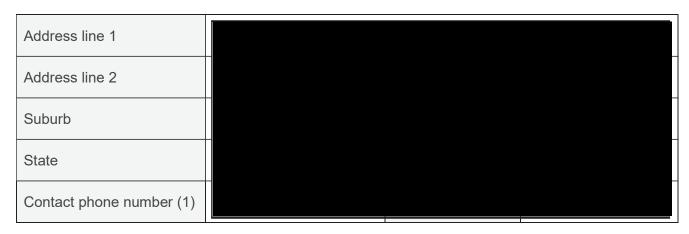

2.2 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

2.3 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

2.4 Electronic correspondence consent

Email address

Both the Department of Water and Environmental Regulation (DWER) and Department of Mines, Industry Regulation and Safety (DMIRS) prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMIRS (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.				⊠ Yes	□ No
	2.5 Contact details for enquiries If different from the applicant's contact details, enter the contact details of a person with whom DWER or DMIRS should liaise with (e.g. a consultant).				
Same as applicant's contact details					□No
If 'No' – complete the following:					
	Contact name				
	Position (if applicable)				
	Company name (if applicable)				
	Contact phone number (1)		Phone number (2)		
	Business or postal address line 1				
	Business or postal address line 2				
	Suburb				
	State		Postcode		

Part 3 - Land details

- You must accurately describe the location of the land where your clearing is proposed.
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

3.1 Property details

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4	⊠ No
Tolovani dotalio in an attationod dapporting document.		

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: - volume and folio number - lot or location number(s) - crown lease or reserve number - pastoral lease number - mining tenement number	Murchison Pastoral Pastoral lease N050 DWER Revised: Lot 9 1544 on Deposited F)52 944 on Deposite	d Plan 74339 and Lot
Street address – Line 1	5618 Ajana-Kalbarri Rd		
Street address – Line 2			
Suburb	Kalbarri		
State	WA	Postcode	6536
Local government area(s)	Shire of Northampton		
Land zoning	Pastoral		

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title (that is less than 6 months old)
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner (select one of the following options)	Complete the following
☐ I am the landowner	☐ Attach <i>proof of ownership</i>
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach <i>proof of ownership</i>
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach <u>proof of ownership</u> ☐ Complete and attach an ' <u>Acting on behalf and jointly responsible</u> ' letter
☐ I am likely to become the landowner	☐ Attach the Certificate of Title ☐ Attach evidence of the pending transfer of ownership and/or contract of sale ('offer and acceptance')
□ I will undertake the clearing activities with the landowner's authority and will be the permit holder	 ⊠ Attach <u>proof of ownership</u> ∑ Complete and attach an '<u>Authority to access and clear native vegetation'</u> letter (if the applicant is not the landowner)
☐ A person with multiple land parcels	☐ Attach proof of ownership ☐ Complete and attach 'Authority to access and clear native vegetation' letter (if the applicant is not the landowner)

Part 5 - Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form.

Note: We will decline / return forms (as applicable) if you do not provide sufficient information for this question.

- Geometry type: polygon shape
- Coordinate system: Geocentric Datum of Australia (GDA) 1994/2020 (geographic latitude / longitude)
- Datum: GDA 1994 / GDA 2020 (please specify which was provided)

☐ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area

Note:

- An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj
- You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity* Conservation Act 1999 (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(s) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero).
- If you propose to remove only individual trees from the area(s) (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees (and mark total area as estimated hectares).
 - Note: If any shrubs, grasses, and/or groundcover plants MAY be damaged in the clearing process, add this to the total area.
- If you propose to clear an area of vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10 hectare footprint. This option is only available for <u>purpose permit</u> applications.
- Enter values for BOTH number of trees and the size of the area if you are clearing individual trees in one area AND a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = $10,000 \text{ m}^2$ Area of circle = 3.14 x radius^2 1 acre = 0.4 hectares / $4,000 \text{ m}^2$ Area of a rectangle = length x width 1 tree = 0.01 hectares / 100 m^2 Area of a triangle = $\frac{1}{2}$ length x perpendicular height

Total area of clearing proposed (hectares)	5 ha	
Footprint of clearing (hectares) (purpose permit only)	5 ha	DWER Revised to 6.75 ha
Number of individual trees to be removed		

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.)	Undertake Geotech investigations, including test pits		
Specify what the final land use will be after clearing	Returned to vegetation		

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical clearing. bulldozing

5.5 Timeframe

Period within which you propose to do the clearing	Start date: 01/03/2021		
(e.g. 1/7/2022 to 30/8/2024)	End date: 30/05/2021		

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing e.g. engineering solutions did you consider?
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, we will ask you to do so during the validation of this form.

Provide the avoidance and mitigation details

Flora and vegetation loss has been avoided through design of the geotechnical locations, which are all on or adjacent to existing access tracks within the DE. When considering placement of the geotechnical tests, a site-by-site assessment with designers, geotechnicians and the environmental team occurred, to identify constraints and the most practicable location of the geotechnical sites, using existing access tracks and existing cleared areas wherever possible.

Impacts to flora and vegetation will be minimised by selecting existing access tracks and sparely vegetated or bare soil access tracks and borehole/ test pit locations where possible during geotechnical works.

	Priority flora have at least a 50 m buffer away from clearing areas			
	Preference will be given to Degraded or already cleared vegetation in proximity to access tracks when selecting borehole locations.			
	Boreholes are to be capped and the cleared drill pad area will have topsoil reinstated to facilitate natural regrowth.			
	Upon the conclusion of drilling each borehole, the same access track will be used to return to the main road. Preference will be given to Degraded or already cleared vegetation when selecting access tracks where terrain allows.			
	All vehicles will be cleaned before entering sit entering the site or spreading	e to m	nitigate the risk of weeds	
Part 6 – Offse	et			
Do you want to s	submit a clearing offset proposal with your	ΠΥ	es 🛭 No
