	<p>Provide details of the proposed change(s), and the rationale for it / them.</p> <p>The current wording of Condition 10(a) states: "Where priority flora is identified in accordance with the <i>Two Rocks Beach Access Way Flora and Vegetation Survey – Detailed and Targeted</i> (One Tree Botanical, Revision 2.1, 17 November 2020), the permit holder must clear no more than four <i>Beyeria cinerea</i> subsp. <i>cinerea</i> individuals identified within the area cross-hatched yellow in Figure 1 of Schedule 1."</p> <p>The City proposes that Condition 10(a) be amended to read: "Where priority flora is identified in accordance with the 'Two Rocks Beach Access Way Flora and Vegetation Survey – Detailed and Targeted: One Tree Botanical. Revision 2.1. 17 November 2020', the permit holder must only clear <i>Beyeria cinerea</i> subsp. <i>cinerea</i> individuals identified within the area cross-hatched yellow in Figure 1 of Schedule 1. The justification for this proposed amendment is as follows."</p> <p>As the current permit condition allows for the clearing of no more than four individuals, the project is unable to proceed in its current form due to the presence of additional individuals identified in the 2025 targeted survey. The City therefore requests that DWER amend the permit condition to accommodate the unexpected regrowth or increase in the number of <i>Beyeria cinerea</i> subsp. <i>cinerea</i> individuals within the approved clearing area.</p>	
	<p>For an application to amend the size of the area permitted to be cleared, or add a land parcel to the clearing permit, you must have the authority of the landowner to access the land and undertake the clearing.</p>	<p>State the nature of the applicant's authority to access the land to be cleared. Evidence of authority can include e.g. a copy of the certificate of title or a letter of authority signed by the landowner or other person with authority to give legal land access permission.
